ABSTRACT

Before the author writes about the problem of Wahhabis or Salafis not understanding Allah's spirit coming out of a human body that dies after 30 days of being buried, first of all, the author asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secrets of Wahhabis or Salafis not understanding Allah's spirit coming out of a dead human body after 30 days of being buried, based on Deoxyribonucleic acid (DNA)

There are several verses that become Allah's secret unlocking tool about Wahhabis or Salafis not understanding Allah's spirit coming out of a dead human body after 30 days of being buried, namely the following verses:

"So when I have perfected Adam and have breathed into Adam my spirit, then you should fall down prostrating to him." (Shaad: 38: 72).

"Allah holds the soul when human dies and the soul that has not died in humans sleep, so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42).

In an effort to open the veil of Allah's secret about Wahhabis or Salafis not understanding Allah's spirit coming out of a dead human body after 30 days of burial, the author uses the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here the author proposes a hypothesis that Wahhabis or Salafis do not understand the spirit of Allah coming out of a human body that dies after 30 days of being buried, because they still believe in the dead, living in the grave, based on Deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers.

This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

SALAFIS IN SAUDI ARABIA DO NOT UNDERSTAND ALLAH'S SPIRIT IS NOT IN THE GRAVE AFTER 30 DAYS

Now, we are still concentrating on uncovering the secrets contained behind the verses: *"...I breathed into him my spirit...(Shaad: 38:72)" Allah holds the soul when it dies... He holds the soul that has been He decreed his death...(Az Zumar : 39: 42)*

Apparently, Allah has declared *"Allah holds the soul when human dies... (Az Zumar: 39: 42)*.

Now the question arises

What does Allah actually mean by *"...holding the soul...(Az Zumar: 39:42)?*

Well, the answer is in the secret behind the verse: *"...I breathed into Adam my spirit...(Shaad: 38: 72)*.

So, actually what is meant by Allah *"...soul...(Az Zumar: 39: 42)* is *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* Where *"...Allah's spirit... (Shaad : 38: 72)* is made up of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Well, *"...Allah's spirit... (Shaad : 38: 72)* is what comes out of the human body that dies after 30 days of being buried.

Salafis do not understand *"...Allah's spirit... (Shaad : 38: 72)* comes out of a dead human body after 30 days of being buried.

Because Salafis believe that human who die is in the grave alive. So they don't want human to come to the grave to ask for blessings from dead human.

When in fact, after 30 days of human death and burial, out *"...Allah's spirit... (Shaad : 38: 72)* and all the atoms in the human body that are dead, such as hydrogen atoms, carbon atoms , nitrogen atoms and oxygen atoms.

So, it is not as thought by Salafis, the dead human live in the grave, but in fact, *"...Allah's spirit... (Shaad : 38: 72)* and all the atoms that are in the human body out of the body of a dead human.

Because *"...Allah's spirit... (Shaad : 38: 72)* has come out of the dead human body, then no one lives in the grave, not as Salafis think, they consider human who have dead, alive in the grave.

The living is Allah's spirit built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms, until the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years.

This is the mistake of thinking of Salafis, so that the graves of dead human is not allowed to be given any markings, for fear that human will come to the graves asking for blessings from the dead human.

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verses: *"...I breathed into him my spirit...(Shaad: 38:72)" Allah holds the soul when it dies... He holds the soul that has been He decreed his death...(Az Zumar : 39: 42)*

Apparently, Allah has declared *"Allah holds the soul when human dies... (Az Zumar: 39: 42).*

Now the question arises

Well, the answer is in the secret behind the verse: *"...I breathed into Adam my spirit...(Shaad: 38: 72).*

So, actually what is meant by Allah *"...soul...(Az Zumar: 39: 42)* is *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* Where *"...Allah's spirit... (Shaad : 38: 72)* is made up of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Well, *"...Allah's spirit... (Shaad : 38: 72)* is what comes out of the human body that dies after 30 days of being buried.

Salafis do not understand *"...Allah's spirit... (Shaad : 38: 72)* comes out of a dead human body after 30 days of being buried.

Because Salafis believe that human who die is in the grave alive. So they don't want human to come to the grave to ask for blessings from dead human.

When in fact, after 30 days of human death and burial, out *"...Allah's spirit... (Shaad : 38: 72)* and all the atoms in the human body that are dead, such as hydrogen atoms, carbon atoms , nitrogen atoms and oxygen atoms.

So, it is not as thought by Salafis, the dead human live in the grave, but in fact, *"...Allah's spirit... (Shaad : 38: 72)* and all the atoms that are in the human body out of the body of a dead human.

Because *"...Allah's spirit... (Shaad : 38: 72)* has come out of the dead human body, then no one lives in the grave, not as Salafis think, they consider human who have dead, alive in the grave.

The living is Allah's spirit built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms, until the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years.

This is the mistake of thinking of Salafis, so that the graves of dead human is not allowed to be

given any markings, for fear that human will come to the graves asking for blessings from the dead human.
