ABSTRACT

Before I write about the problem of seeing and feeling the form of Allah through the energy of Allah, first I ask for forgiveness from Allah SWT. Here I try to open the veil that covers the secret of seeing and feeling the form of Allah through the energy of Allah, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that are the opening tool of Allah's secret about seeing and feeling the form of Allah through Allah's energy, namely the following verses:

"Allah ... the light of the skys and the earth ... The light above the light ... (An Nuur: 24: 35)

"So when I have perfected his creation and breathed into him My spirit; then prostrate yourselves before him. "(Shaad: 38: 72)

"So when I have completed his creation, and have breathed into him of My Spirit, then bow down to him in prostration (Al Hijr: 15: 29)

"Then He perfected and breathed into it His Spirit and He made for you hearing, sight and hearts; you are a little grateful. (As Sajdah: 32: 9)

"And if We had made the messenger an angel, We would certainly have made him a man, and We would certainly have doubted over them what they doubt about themselves (Al An'aam: 6: 9)

"And it is not possible for a human being that God speaks to him except by revelation or behind a veil or by sending a messenger and then revealed to him with His permission what He wills. Surely He is High, Wise. (Asy Syuura: 42: 51)

"And when My servants ask thee concerning Me, then, that I am near. I grant the supplication of the suppliant when he supplicates to Me, then let them fulfill (all My commands) and let them believe in- Me, that they may always be in the truth. (Al Baqarah: 2: 186)

"He is the First and the Last, the Outward and the Inward; and He is Aware of all things. (Al Hadiid: 57: 3)

"Allah did not create you and raise you but as a single soul. Indeed, Allah is All -Hearing, All -Seeing. (Luqman: 31: 28)

"And We made a wall before them and a wall behind them, and We covered them so that they could not see." (Yaasiin: 36: 9)

"The angels and the souls ascend to God in a day the measure of which is fifty thousand years (Al Ma'aarij: 70: 4)

"Allah holds the soul when it dies and the immortal soul when it sleeps; so He holds the soul for whom He has decreed death and He releases the other soul until the appointed time. Indeed in that are signs of Allah's power for a people who think (Az Zumar: 39: 42)

And to Allah belong the east and the west, so wherever you turn, there is the face of Allah. Surely Allah is All -Embracing, All -Knowing. (Al -Baqarah: 2: 115)

"Who created the seven skys in layers. You do not see in the creation of the Most Gracious anything unbalanced. So look again and again, do you see anything unbalanced? (Al Mulq: 67: 3)

And when Moses came at the appointed time, and the Lord had spoken unto him, he said: My Lord! Show me that I may see Thee. The Lord said: "You will never be able to see Me, but look at the hill, then if it stays in its place you can see Me." When his Lord appeared to the mountain, He made the mountain crumble and Moses fell unconscious. So when Moses regained consciousness, he said: "Glory be to You, I repent to You and I am the first of the believers." (Al A'raaf: 7: 143)

"And, when you said:" O Moses, we will not believe in you until we see Allah clearly, so the thunderbolt struck you while you were witnessing ". (Al Baqarah: 2: 55)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

In an effort to unveil Allah's secret of seeing and feeling Allah's form through Allah's energy, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acid.

HYPOTHESIS

Here the author proposes the hypothesis of seeing and feeling Allah's form through Allah's energy, Allah's energy that comes from Allah, seen from the point of view of Deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms. 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

SEE AND FEEL ALLAH'S FORM THROUGH ALLAH'S ENERGY

Now, we are still concentrating on uncovering the secret contained behind the verse: *"...Musa said: "O my Lord, show me so that I can see You." Allah said: "You will never be able to see Me, but look at the hill, so if it stays where it is, you will surely see Me." When his Lord appeared to the mountain, he made the mountain crumble... (Al A'raaf: 7: 143)*

It turns out that here Allah has clearly described to humans, that to see Allah's form through *"...When his Lord appeared to the mountain, he made the mountain crumble... (Al A'raaf: 7: 143)*

What is actually visible and can be felt when *"... He made the mountain crumble... (Al A'raaf: 7: 143)*

It turns out that what is visible and can be felt by humans is the energy of Allah and the hydrogen atoms, carbon atoms and oxygen atoms, which come out of the dust when the mountain is crushed.

Well, here Allah has proven by example *"... the mountain was crushed... (Al A'raaf: 7: 143)* where if humans want to see the form of Allah, then they must go through the energy of Allah and *"...my spirit..." (Shaad: 38: 72)* which is built by hydrogen atoms, oxygen atoms, carbon atoms and nitrogen atoms.

Why do humans see and feel when *"...the mountain is crushed... (Al A'raaf: 7:143)* is Allah's energy?

Because, to destroy the mountain it must use a very large energy.

Now the energy needed to destroy the mountain is the energy of Allah.

Same with Allah's energy, when 13 800 000 000 years ago, Allah created quarks.

In our sky today found 72% is dark energy, 23% dark matter and 5% is the element neutrinos or elementary particles that have a very small mass) and atoms. (Universe, Martin Rees, Dorling Kindersley Limited, London, 2005).

So, actually a lot in our sky today is dark energy as much as 72%.

It is this energy that makes the universe move so fast. It is this dark energy that will cause atoms to break apart because the nuclear energy that binds the quarks in the atom is lost after it reaches the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years

So, actually Allah with the energy of Allah created the universe which is now *"... the seven skys in layers... (Al Mulk: 67: 3)*

THROUGH ALLAH'S ENERGY, HUMANS WILL SEE AND FEEL ALLAH'S FORM

Allah clearly and clearly proves Allah's form *"...look at the hill...When his Lord appeared to the mountain, He made the mountain crumble...(Al A'raaf: 7: 143)*

Where the human eye will see how great Allah's energy can destroy mountains, with dust that covers the view, which contains *"...my spirit..." (Shaad: 38: 72)* which is built by hydrogen atoms, atoms oxygen, carbon and nitrogen atoms.

So, here Allah has proven that Allah's form can be seen through Allah's energy and sees "...my spirit..." (Shaad: 38:72) through the dust that covers the view.

CONCLUSION

Based on the description above, we can conclude that the secret contained behind the verse: "...Musa said: "O my Lord, show me so that I can see You." Allah said: "You will never be able to see Me, but look at the hill, so if it stays where it is, you will surely see Me." When his Lord appeared to the mountain, he made the mountain crumble...
