ABSTRACT

Before the author writes about Shia Ali in Iran does not understand that Al Muntazar's spirit has been reincarnated 23 times as a human, animal and plant, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret about Shia Ali in Iran does not understand that Al Muntazar's spirit has been reincarnated 23 times as a human, animal and plant, based on deoxyribonucleic acid.

There are several verses in the Quran that reveal about Shia Ali in Iran does not understand that Al Muntazar's spirit has been reincarnated 23 times as a human, animal and plant, namely the verses:

"Then when I have perfected the creation of Adam and breathed into Adam My spirit, then you will fall down prostrate to him. (Shaad: 38: 72).

"So Mary made a screen from them, then We sent Our Spirit to Mary, and Our Spirit incarnated before Mary, a perfect human. (Maryam: 19: 17).

"When the sun is rolled up, (At Takwiir: 81: 1).

In an effort to open the veil regarding Shia Ali in Iran does not understand that Al Muntazar's spirit has been reincarnated 23 times as a human, animal and plant, the author bases it on deoxyribonucleic acid.

HYPOTHESIS

Here the author proposes hypothesis Shia Ali in Iran does not understand that Al Muntazar's spirit has been reincarnated 23 times as a human, animal and plant, based on Deoxyribonucleic acid (DNA)

PHOTON

Photon is an elementary particle of the boson type and a carrier of electromagnetic interaction.

QUARK

If we want to know quarks then we pay attention to one of the hydrogen atoms which is an element of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Furthermore, if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a place to store genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, 5 carbon sugar and one of the nitrogen bases. The nitrogen bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine (A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. Meanwhile, 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms, and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are abundant around us and in the atmosphere.

SHIA ALI IN IRAN DOES NOT UNDERSTAND THAT AL MUNTAZAR'S SPIRIT HAS BEEN REINCARNATED 23 TIMES AS A HUMAN, ANIMAL AND PLANT

Now, we are still concentrating our minds to uncover the secret hidden behind the verse: "*... I breathed into Adam My spirit... (Shaad: 38: 72)*."

It turns out that Allah has declared "*...I breathed...My spirit... (Shaad: 38: 72)*" or "*...Allah's spirit... (Shaad: 38: 72)*" into every human body born into the world.

Well, it turns out that Shia Ali in Iran does not understand about "*...My spirit... (Shaad: 38: 72)*" or "*...Allah's spirit... (Shaad: 38: 72)*" that Allah "*...breathed into Adam My spirit... (Shaad: 38: 72)*" and into every human body that is born into the world.

Because Shia Ali does not understand about "*...My spirit... (Shaad: 38: 72)*" or "*...Allah's spirit... (Shaad: 38: 72)*" that is breathed into every human body that is born into the world, then the idea was born which became their belief that Muhammad al Muntazar who still has a Deoxyribonucleic acid (DNA) relationship with Ali bin Abi Thalib, when he was still a child disappeared, until now it is not known where Muhammad al Muntazar is, will return to earth when the Day of Judgment is approaching, who will get the title Mahdi, as the savior on earth.

Well, Shia Ali believes in Muhammad al Muntazar as the 12th Imam with the title al Mahdi who will appear on earth, because Shia Ali does not understand about "*...My spirit... (Shaad: 38: 72)*" or "*...Allah's spirit... (Shaad: 38: 72)*" which is breathed into every human body that is born into the world.

According to Shia Ali, Muhammad al Muntazar as the 12th Imam with the title al Mahdi will appear on earth when the Day of Judgment comes.

Well, if calculated according to the age calculation "*...the sun is rolled up (At Takwiir: 81: 1)*" when the Day of Judgment occurs is 4.6 billion years in the future.

So, actually, Shia Ali must wait for Imam number 12 Muhammad al Muntazar to come to earth 4.6 billion years in the future.

Well, this is the result of Shia Ali not understanding about "...My spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72) which is breathed into every human body that is born into the world.

In fact, Imam number 12 Muhammad al Muntazar has died, then "...My spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72) came out of the body of Muhammad al Muntazar who had died.

30 days since Muhammad al Muntazar died, "...My spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72) came out of the body of Muhammad al Muntazar.

So, actually, Muhammad al Muntazar with the form of "...My spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72) which is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms. Because the human body is built with 7 0000000000 0000000000 0000000000 atoms including hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Because the human eye is limited to only seeing light in the electromagnetic spectrum area between 430 and 740 nanometers. If there is a light ray in the electromagnetic spectrum area below 430 nanometers and light in the electromagnetic spectrum area above 740 nanometers, then the human eye cannot see the light.

Or in other words, Shia Ali could not see Muhammad al Muntazar in the form of "...My spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72) which is built from hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Now, 30 days since Muhammad al Muntazar died, "...My spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72) which is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms came out of Muhammad al Muntazar's body. Carbon atoms and oxygen atoms form carbon dioxide, taken by plants and flowers. Carbon atoms are used as glucose as food by plants and flowers, while oxygen atoms are released again and inhaled by humans and animals.

Now the oxygen atoms that came out of Muhammad al Muntazar's body were then released by plants and flowers and then inhaled by humans and animals, this process is called Muhammad al Muntazar through oxygen atoms and carbon atoms incarnation as human, animal and plant and flower, as Allah declared "...Our spirit incarnated...a perfect human. (Maryam: 19: 17).

Likewise, when human and animal that inhale Muhammad al Muntazar's oxygen atoms die, then Muhammad al Muntazar's oxygen atoms come out of the body of the dead animal and the dead human is inhaled by human and animal again, then this is called the reincarnation process of Muhammad al Muntazar's oxygen atoms.

Well, until now, Muhammad al Muntazar's oxygen atoms have been reincarnated 23 times as human, animal and plant.

The age of hydrogen atom, carbon atom, nitrogen atom, oxygen atom and other atoms will reach an age of 10 0000000000 0000000000 0000000000 0000000000 0000000000 0000000000 0000000000 0000000000 0000000000 0000000000 years.

Now this is what Shia Ali in Iran still does not understand.

CONCLUSION

The conclusion that can be drawn from the explanation above is the secret hidden behind the verse: "... I breathed into Adam My spirit... (Shaad: 38: 72).

It turns out that Allah has declared "*...I breathed...My spirit... (Shaad: 38: 72)* or "*...Allah's spirit... (Shaad: 38: 72)* into every human body born into the world.

Well, it turns out that Shia Ali in Iran does not understand about "*...My spirit... (Shaad: 38: 72)* or "*...Allah's spirit... (Shaad: 38: 72)* that Allah "*...breathed into Adam My spirit... (Shaad: 38: 72)* and into every human body that is born into the world.

Because Shia Ali does not understand about "*...My spirit... (Shaad: 38: 72)* or "*...Allah's spirit... (Shaad: 38: 72)* that is breathed into every human body that is born into the world, then the idea was born which became their belief that Muhammad al Muntazar who still has a Deoxyribonucleic acid (DNA) relationship with Ali bin Abi Thalib, when he was still a child disappeared, until now it is not known where Muhammad al Muntazar is, will return to earth when the Day of Judgment is approaching, who will get the title Mahdi, as the savior on earth.

Well, Shia Ali believes in Muhammad al Muntazar as the 12th Imam with the title al Mahdi who will appear on earth, because Shia Ali does not understand about "*...My spirit... (Shaad: 38: 72)* or "*...Allah's spirit... (Shaad: 38: 72)* which is breathed into every human body that is born into the world.

According to Shia Ali, Muhammad al Muntazar as the 12th Imam with the title al Mahdi will appear on earth when the Day of Judgment comes.

Well, if calculated according to the age calculation "*...the sun is rolled up (At Takwiir: 81: 1)* when the Day of Judgment occurs is **4.6** billion years in the future.

So, actually, Shia Ali must wait for Imam number 12 Muhammad al Muntazar to come to earth **4.6** billion years in the future.

Well, this is the result of Shia Ali not understanding about "*...My spirit... (Shaad: 38: 72)* or "*...Allah's spirit... (Shaad: 38: 72)* which is breathed into every human body that is born into the world.

In fact, Imam number 12 Muhammad al Muntazar has died, then "*...My spirit... (Shaad: 38: 72)* or "*...Allah's spirit... (Shaad: 38: 72)* came out of the body of Muhammad al Muntazar who had died.

30 days since Muhammad al Muntazar died, "*...My spirit... (Shaad: 38: 72)* or "*...Allah's spirit... (Shaad: 38: 72)* came out of the body of Muhammad al Muntazar.

So, actually, Muhammad al Muntazar with the form of "*...My spirit... (Shaad: 38: 72)* or "*...Allah's spirit... (Shaad: 38: 72)* which is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms. Because the human body is built with **7 0000000000 000000000 000000000** atoms including hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Because the human eye is limited to only seeing light in the electromagnetic spectrum area between **430** and **740** nanometers. If there is a light ray in the electromagnetic spectrum area below **430** nanometers and light in the electromagnetic spectrum area above **740** nanometers, then the human eye cannot see the light.

Or in other words, Shia Ali could not see Muhammad al Muntazar in the form of "*...My spirit... (Shaad: 38: 72)* or "*...Allah's spirit... (Shaad: 38: 72)* which is built from hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.
