ABSTRACT

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of the greatness of Allah SWT regarding the secret about, since when did Allah actually exist in the universe, from the point of view of photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).

Signs of the greatness of Allah SWT regarding, since when did Allah actually exist in the universe, are found in several verses, namely:

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"The angels and Gabriel ascended to Allah in a day the measure of which was fifty thousand years (Al Ma'aarij: 70:4)

"He is the First and the Last, the Outward and the Inward, and He is All-Knowing of all things. (Al Hadid: 57:3)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And Maryam, the daughter of Imran, who kept her honor, so We breathed into her some part of Our spirit, and she confirmed the words of her Lord and His Books, and she was one of the obedient ones. (At Tahrir: 66:12)

"Allah is the light of the skys and the earth...Light upon light...(An Nuur: 24:35)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when he asks Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth (Al Baqarah: 2: 186)

"... We are closer to him than his jugular vein, (Qaf: 50:16)

"He is Allah, Who made all that is on earth for you and He willed the heavens, then He made seven skys. And He is All-Knowing of all things. (Al Baqarah: 2:29)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

In an effort to unmask the greatness of Allah SWT regarding, since when did Allah actually exist in the universe, I use the basis of photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

HYPOTHESIS

Here I propose the hypothesis that Allah existed in the universe before quarks were formed, judging from the photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA)?

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms which is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

SINCE WHEN ACTUALLY ALLAH WAS IN THE UNIVERSE

Now, we are still concentrating on uncovering the secret behind the verse: *"He is the First...(Al Hadiid: 57:3) "Angels and Gabriel ascend to Allah in a day whose levels are fifty thousand years (Al Ma'arij :70:4)*

It turns out, Allah is *"... the First... (Al Hadiid: 57: 3)*

Now the question arises, since when did Allah actually exist in the universe?

The answer is,

It is hidden in the secret behind the verse: *"He is Allah, who made all that is on earth for you and He willed the skys, then He made the seven skys... (Al Baqarah: 2: 29)*

Well, it turns out that Allah made *"... the seven skys... (Al Baqarah: 2: 29)* , meaning the seven skys which are now called the universe with its contents consisting of billions of galaxies, where each galaxy consists of billions of the stars, planets and moon.

Now, the question arises again,

When was this universe created?

The answer is,

Hidden behind a secret in the verse: *"He is the First... (Al Hadid: 57: 3)*

It turns out that Allah existed before the universe was created.

When was the universe created?

The answer is,

The universe was created about 13 800 000 000 years ago according to human calculations. Meanwhile, according to Allah's reckoning it was about 756 years ago, because according to Allah's reckoning 1 day is 50 000 according to human reckoning.

So if it is calculated according to Allah's calculations, then in fact the universe is still young, which is about 756 years ago.

ALLAH EXISTS NOT SINCE THE QURAN WAS DESCRIBED, BUT SINCE BEFORE THE UNIVERSE WAS CREATED 13 800 000 000 AGO

Now, in what form does Allah actually exist?

The answer is hidden behind the secret contained in the verse: *"... then He made seven skys... (Al Baqarah: 2: 29)*

Now, Allah made *"...seven skys...(Al Baqarah: 2:29)* as it is today, before, the seven skys did not exist, what existed from the beginning were quarks.

Quarks are the origin of the formation of this universe. Where the universe is filled with atoms. Hydrogen atoms, helium atoms, carbon atoms, oxygen atoms, nitrogen atoms, neon atoms. Where these quarks are formed with Allah's energy that comes from Allah.

Now, Allah has existed since the formation of quarks, which are the core of this universe, which is about 13 800 000 000 years ago, according to human calculations, or about 756 years ago, according to Allah's calculations.

Now the secret hidden behind the verse has been revealed: *"He is the First ... (Al Hadiid: 57: 3)* namely Allah has existed since the universe was created, about 13 800 000 000 years ago, according to human calculations, or about 756 years ago, according to Allah's reckoning.

CONCLUSION

Based on the description above, we can conclude that the secret behind the verse: *"He is the First... (Al Hadiid: 57:3)* *"Angels and Gabriel ascend to Allah in a day whose levels are fifty thousand years (Al Ma'aarij :70:4)*

It turns out, Allah is *"... the First... (Al Hadid: 57: 3)*

Now the question arises, since when did Allah actually exist in the universe?

The answer is,

It is hidden in the secret behind the verse: ***"He is Allah, who made all that is on earth for you and He willed the skys, then He made the seven skys... (Al Baqarah: 2: 29)***

Well, it turns out that Allah made ***"... the seven skys... (Al Baqarah: 2: 29)*** , meaning the seven skys which are now called the universe with its contents consisting of billions of galaxies, where each galaxy consists of billions of the stars, planets and moon.

Now, the question arises again,

When was this universe created?

The answer is,

Hidden behind a secret in the verse: ***"He is the First... (Al Hadiid: 57: 3)***

It turns out that Allah existed before the universe was created.

When was the universe created?

The answer is,

The universe was created about 13 800 000 000 years ago according to human calculations. Meanwhile, according to Allah's reckoning it was about 756 years ago, because according to Allah's reckoning 1 day is 50 000 according to human reckoning.

So if it is calculated according to Allah's calculations, then in fact the universe is still young, which is about 756 years ago.

Now, in what form does Allah actually exist?

The answer is hidden behind the secret contained in the verse: ***"... then He made seven skys... (Al Baqarah: 2: 29)***

Now, Allah made ***"...seven skys...(Al Baqarah: 2:29)*** as it is today, before, the seven skys did not exist, what existed from the beginning were quarks.

Quarks are the origin of the formation of this universe. Where the universe is filled with atoms. Hydrogen atoms, helium atoms, carbon atoms, oxygen atoms, nitrogen atoms, neon atoms. Where these quarks are formed with Allah's energy that comes from Allah.

Now, Allah has existed since the formation of quarks, which are the core of this universe, which is about 13 800 000 000 years ago, according to human calculations, or about 756 years ago, according to Allah's calculations.

Now the secret hidden behind the verse has been revealed: ***"He is the First ... (Al Hadiid: 57: 3)*** namely Allah has existed since the universe was created, about 13 800 000 000 years ago, according to human calculations, or about 756 years ago, according to Allah's reckoning.
