ABSTRACT

Before the author writes about the problem, some people believe that humans are created from stars, stars die because they burn, humans die must be burned, what about Allah's spirit, first the author asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret about some people believe that humans are created from stars, stars die because they burn, humans die must be burned, what about Allah's spirit, based on the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that open Allah's secrets about some people believe that humans are created from stars, stars die because they burn, humans die must be burned, what about Allah's spirit, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when he asks Me, then let them fulfill (all My commands) and let them believe in Me. Me, that they may always be in the truth.(Al Baqarah: 2:186)

"Allah did not create and resurrect you except like one soul. Indeed, Allah is All-Hearing, All-Seeing. (Luqman: 31:28)

"And among His signs is that you see the earth dry and arid, so when We send down water on it, it will surely move and thrive. Verily, God Who gives life to it, surely can bring back the dead... (Fushshilat: 41: 39)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)

"It is He Who created the skys and the earth in six days: Then He resides on the Throne. He knows what enters the earth and what comes out of it and what descends from the heavens and what ascends to Him. And He is with you in wherever you are. And Allah is All-Seeing of what you do. (Al Hadid: 57:4)

"O mankind, if you are in doubt about the resurrection, then verily We have created you from soil, then from a drop of semen, then from a clot of blood, then from a lump of flesh which is perfect and imperfect, so that We may explain it to you and determine in the womb, what We will until a predetermined time, then We bring you out as babies, then you come to maturity, and some of you are passed away and some of you are extended to the point of senility, so that he will no longer know anything that is wrong. he knew before. And you see the earth is dry, then when We send down water on it, the earth lives and is fertile and grows all kinds of beautiful plants. (Al Hajj: 22: 5)

And He who created the skys and the earth in six days, and is His throne over the water, so that He may test which of you is better in deed, and if you say: "Indeed, you will be raised after death", surely those who the disbeliever will say: "This is nothing but real magic." (Huum: 11:7)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

In an effort to open the veil of Allah's secret about some people believe that humans are created from stars, stars die because they burn, humans die must be burned, what about Allah's spirit, the author uses the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here the author puts forward the hypothesis that humans believe humans were created from stars, stars die because of fire, humans die by burning, "...my spirit...(Shaad: 38:72) or "...Allah's spirit...(Shaad: 38:72) quickly out of the body, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

SOME PEOPLE BELIEVE HUMANS ARE CREATED FROM STARS, STARS DIE BY BURN, DEAD HUMANS MUST BE BURNED, WHAT ABOUT ALLAH'S SPIRIT

Well now, we are still concentrating on unraveling the secrets contained behind the verse: *"... We have made you from clay... (Al Hajj: 22: 5)*

It turns out that here Allah has declared man was created *"... from the soil... (Al Hajj: 22: 5)*

Now, the question arises,

What's really in the soil ?

The answer is,

It is hidden in the secret behind the verse: *"...see this earth is dry, then when We send down water on it, the earth lives and is fertile and grows all kinds of beautiful plants. (Al Hajj: 22:5)*

Well, it turns out that the earth after getting water whose water is a combination of oxygen atoms and hydrogen atoms, then meets with nitrogen atoms and carbon atoms in the earth, then *"...live the earth and be fertile...(Al Hajj :22:5)*

So, actually, humans were created from soil because soil contains hydrogen atoms, oxygen atoms, nitrogen atoms and carbon atoms.

Or in other words *"...I perfected the event and I breathed into it my spirit...(Shaad: 38:72)* where *"...my spirit...(Shaad: 38:72)* or *"...Allah's spirit...(Shaad: 38:72)* is made up of hydrogen atoms, oxygen atoms, nitrogen atoms and carbon atoms present in the soil.

Now, some people believe that humans were created from stars.

The question arises,

What's up with the stars?

The answer is in the secret behind the verse: *"...He who created the skys and the earth in six days, and is His throne on the water...(Huud: 11:7)*

Well, *"...His throne is on the water...(Huud: 11:7)*. Apparently, water is a combination of hydrogen atoms and oxygen atoms.

Well, the star or sun lives because of the hydrogen atom, as its fuel, so that the star or sun shines.

Actually, if some people believe that humans were created from stars, because stars contain hydrogen atoms as their fuel, it is true. No different from humans created from soil. Because soil contains hydrogen atoms.

So, some people believe that humans were created from stars, where when stars die because they run out of fuel for hydrogen atoms, stars explode and crumble, where the shards of stars are attracted by the attraction of the earth, or by the earth's gravity, so that they are in the bowels of the earth.

Or in other words, a star is the same as soil, because it contains hydrogen atoms.

The problem now is, according to some people who believe that humans were created from stars, when humans die they must be burned, because when stars die, stars explode and burn.

When a star explodes, energy is released in the form of various rays of light, appearing to be like a burst of fire and vomit.

Well, the overflowing and spitting fire that comes out of a dead star is considered by some people who believe in humans being created from stars, as a symbol that dead humans must emit fire, that is how the corpses are burned.

Now, because the human body is made up of oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms, when a dead human is burned, carbon dioxide or carbon dioxide is released from the corpse quickly.

Or in other words, with the corpse burned, then "*...my spirit...(Shaad: 38:72)* or "*...Allah's spirit...(Shaad: 38:72)* which is built by hydrogen atoms, oxygen, nitrogen atoms and carbon atoms quickly escape from the body of the burned corpse. Besides, carbon atoms and oxygen atoms form carbon dioxide molecules that come out of the burned corpse. If there are no trees, plants and flowers around the burning corpse, then the carbon dioxide released from the burned corpse will not absorb it. So that carbon dioxide will pollute the environment and destroy ozone.

Although the burning of corpses, which is carried out by most of the humans in the world, has nothing to do with the belief that humans were created from stars, but actually, originally, corpses were burned because there were some humans who believed that humans were created from stars. When humans die they must be burned, because when stars die, stars explode and burn.

However, now, when humans die and are buried in the earth, then "*...my spirit...(Shaad: 38:72)* or "*...Allah's spirit...(Shaad: 38:72)* comes out of the body after 30 days. Where the process of exiting "*...my spirit...(Shaad: 38:72)* or "*...Allah's spirit...(Shaad: 38:72)* and carbon dioxide that comes out of the bodies of dead bodies in the grave follows the law nature and will not pollute the environment and damage the ozone.

CONCLUSION

The conclusions that can be drawn from the above explanation are the secrets contained behind the verse: "*... We have made you from clay... (Al Hajj: 22: 5)*

It turns out that here Allah has declared man was created "*... from the soil... (Al Hajj: 22: 5)*

Now, the question arises,
