ABSTRACT

Before I write down the problem of speaking Allah is the same as speaking of Allah's energy, speaking of Allah's energy is the same as speaking of Allah, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret about speaking of Allah is the same as speaking of Allah's energy, speaking of Allah's energy is the same as speaking of Allah, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about speaking Allah is the same as speaking Allah's energy, speaking Allah's energy is the same as speaking Allah, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a man and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth.(Al Baqarah: 2:186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"Allah did not create and resurrect you except as one soul. Indeed, Allah is All-Hearing, All-Seeing. (Luqman: 31: 28)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

"Angels and spirits ascend to God in a day the measure of which is fifty thousand years (Al Ma'aarij: 70: 4)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in

that are signs of Allah's power for a people who think (Az Zumar : 39: 42)

And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Wise and All-Knowing. (Al Baqarah: 2: 115)

"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And when Moses came at our appointed time and the Lord had spoken to him, Moses said: "My Lord, show me so that I can see You." The Lord said: "You will never be able to see Me, but behold. to the hill, then if it stays where it is you will surely see me." When his Lord appeared to the mountain, he made the mountain crumble and Moses fell unconscious. So when Moses regained consciousness, he said: "Glory be to you. , I repent to You and I am the first to believe." (Al A'raaf: 7: 143)

"The seven skys, the earth and all that is in it glorify Allah. And there is nothing but glorify Him by praising Him, but you all do not understand their prayer beads. Indeed, He is Most Forbearing, Most Forgiving. (Al Israa': 17 :44)

"And when you said: "O Moses, we will not believe in you until we see Allah in the light, so you are struck by lightning while you are witnessing it." (Al Baqarah: 2:55)

"And the thunder glorifies in praise of Allah, the angels fear Him, and Allah sends thunderbolts and strikes them upon whom He wills, and they argue about Allah, and He is the Lord, the Most severe in torment. (Ar Ra'd: 13:13)

"or like heavy rain from the sky accompanied by darkness, thunder and lightning; they plug their ears with their fingers, because of the lightning, for fear of death. And Allah covers those who disbelieve (Al Baqarah: 2: 19)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

In an effort to open the veil of Allah's secret about Allah and Allah's energy, two become one, one becomes two, inseparable, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I put forward the hypothesis of Allah and Allah's energy, two become one, one becomes two, cannot be separated, Allah gives Allah energy, Allah's energy returns to Allah, seen from the perspective of Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

SPEAKING ALLAH IS SAME AS SPEAKING ALLAH'S ENERGY

Now, we are still focusing our minds on uncovering the secrets contained behind the verse: *"... like heavy rain from the sky accompanied by darkness, thunder and lightning, they plug their ears with their fingers, because of lightning, for fear of death... (Al Baqarah: 2: 19) "... Allah releases lightning, then falls on whom He wills ... (Ar Ra'd: 13: 13) "... therefore you are struck by lightning, while you are witnessing it (Al Baqarah : 2: 55) "...When his Lord appeared to the mountain, he made the mountain crumble... (Al A'raaf: 7: 143)*

It turns out that here Allah has clearly described to humans how Allah's energy forms lightning, thunder or thunderbolt and thunder clap and shatters mountains.

So, here Allah has declared that if you want to understand and realize the true form of Allah, then humans must understand how Allah's energy actually forms lightning, thunder or thunderbolt and thunder clap

Lightning, thunder or **thunderbolt** and thunder clap are descriptions of how the real form of Allah is incarnated into the form of Allah's energy.

So, if humans want to understand the real Allah, then humans must understand Allah's energy which is manifested in the form of lightning, thunder or thunderbolt and thunder clap.

Lightning, lightning or thunder and thunder is something that does not need to be feared, but humans should be grateful for the presence of lightning, thunder or thunderbolt and thunder clap. Because with lightning, thunder or thunderbolt and thunder clap, it is a sign that the blessings and sustenance of Allah given through rain will be sent down to the earth, in order to make the earth fertile, and the plants also produce fruit.

Now, humans cannot distinguish and separate between Allah and Allah's energy, because when humans speak Allah is the same as humans speak Allah's energy. Likewise, if humans talk about Allah's energy, it is the same as humans talk about Allah.

So, Allah and Allah's energy cannot be separated.

ALLAH'S ENERGY IS IN THE HUMAN BODY

Now, the human body is full of Allah's energy, why?

Because, with humans living, moving, thinking, talking, it all requires Allah's energy.

Where does Allah's energy come from in the human body?

Most of the food eaten by humans.

Now, the food eaten is all coming from Allah, through Allah's energy. The food obtained from the crops grown, the food obtained from the domesticated animals, all of these are the result of the energy of Allah.

In this case it is Allah's energy that forms rainwater, which is a combination of oxygen atoms with hydrogen atoms. Rainwater that is sent down to the earth, to drink animals, humans and plants.

Whatever is eaten by humans, it is all the result of the formation of Allah's energy. Or in other words, whatever is eaten by humans and animals is a sustenance from Allah for humans and animals.

So, the human body is full of Allah's energy. Or in other words in the human body there is Allah *"...I am near...(Al Baqarah: 2:186) "...closer to him than his jugular vein." (Qaf: 50:16)*

Now, because humans do not understand and do not realize about Allah and the energy of Allah, humans are blind to see and feel Allah and the energy of Allah that is in the human body.

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verse: *"... like heavy rain from the sky accompanied by darkness, thunder and lightning, they plug their ears with their fingers, because of lightning, for fear of death... (Al Baqarah: 2: 19) "... Allah releases lightning, then falls on whom He wills ... (Ar Ra'd: 13: 13) "... therefore you are struck by lightning, while you are witnessing it (Al Baqarah : 2: 55) "...When his Lord appeared to the mountain, he made the mountain crumble... (Al A'raaf: 7: 143)*
