ABSTRACT

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of Allah SWT's greatness regarding the spirits being reunited, rainwater revives the earth, after death, viewed from the point of view of photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).

The signs of Allah's greatness regarding the spirits being brought together, rain water revives the earth, after death, from the verses:

"So pay attention to the traces of Allah's mercy, how Allah gives life to the dead earth. Indeed, this really brings life to those who have died. And He has power over all things. (Ar Ruum: 30: 50)

"And when the spirits are met (At Takwiir: 81: 7)

"And Allah sends down water from the sky and with it He gives life to the earth after its death. Verily in that are signs for those who listen (lessons). (An Nahl: 16: 65)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"...And you see the earth is dry, then when We have sent down water on it, the earth lives and is fertile and grows all kinds of beautiful plants. (Al Hajj: 22: 5)

In an effort to unveil the greatness of Allah SWT regarding the meeting of spirits, rainwater revives the earth, after death, I use the basis of photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

HYPOTHESIS

Here I propose the hypothesis that spirits meet, rain water revives the earth, after death, where spirits do not die, judging from photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms. 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms,

2 oxygen atoms and 8 hydrogen atoms.

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

MY SPIRIT, HYDROGEN ATOM, CARBON ATOM, NITROGEN ATOM AND OXYGEN ATOM IS NEVER DIE

Now, we are still focusing our minds on uncovering the secrets hidden in the verse: *"And when the spirits are met (At Takwîr: 81: 7)*

It turns out, *"... my spirit... (Al Hijr: 15: 29)* since Allah *"...blows into it my spirit... (Al Hijr: 15: 29)* never dies.

Now the question arises,

What's dead?

The answer is

Hidden in the secret behind the verse: *"...you see the earth is dry, then when We have sent down water on it, the earth lives... (Al Hajj: 22: 5)*

Well, what is called death is *"... the earth is dry... (Al Hajj: 22: 5)*

Why *"...the earth is dry...(Al Hajj: 22:5) ?*

Because it runs out of hydrogen atoms and oxygen atoms.

Where did *"...the earth is dry...(Al Hajj: 22:5)* get hydrogen atoms and oxygen atoms?

The answer is

Hidden in the secret behind the verse: *"... when We sent down water on it, the earth lived... (Al Hajj: 22: 5)*

So, actually the earth is not dead, because the nitrogen atoms and carbon atoms, which are in the earth are not dead. When rain falls, where water containing oxygen atoms and hydrogen atoms meet with nitrogen atoms and carbon atoms, the earth becomes fertile. Because the earth is fertile, trees, flowers and vegetables grow.

THE HUMAN BODY IS NOT DEAD

Well, then we will unpack the secrets that are hidden behind the verse: *"And when the spirits are met*

(At Takwiir: 81: 7)

It turns out that what is meant by "...spirits are met *(At Takwiir: 81: 7)* is "... my spirit... *(Al Hijr: 15: 29)*

Why not the body of a person who used to live, in which there is "... my spirit...*(Al Hijr : 15: 29)* which is met with "... my spirit... *(Al Hijr : 15: 29)* ?

The answer is

Hidden in the secret behind the verse: "... the earth is dry... *(Al Hajj: 22: 5)*

That is, the body whose heart function is no longer running, becomes rotten, which causes "...my spirit...*(Al Hijr: 15: 29)* to come out and live on.

The body and "... my spirit... *(Al Hijr: 15: 29)* are one. Talking about the body is the same as speaking "... my spirit... *(Al Hijr: 15: 29)* . Speaking "... my spirit... *(Al Hijr: 15: 29)* is the same as talking about the body.

So, if the body is rotting and dry, then still, speaking "... my spirit... *(Al Hijr: 15: 29)* is the same as talking about the body.

Or in other words, "... the spirits are brought together *(At Takwiir: 81: 7)*

"... my spirit... *(Al Hijr: 15: 29)* this is the one who is responsible and who will be questioned, tortured or rewarded with paradise.

CONCLUSION

Based on the description above, we can conclude that the secrets hidden in the verse: "*And when the spirits are met (At Takwiir: 81: 7)*

It turns out, "... my spirit... *(Al Hijr: 15: 29)* since Allah "...blows into it my spirit... *(Al Hijr: 15: 29)* never dies.
