ABSTRACT

Before the author writes about the conception of the one Almighty God in Pancasila the result of secularist Soekarno's thought which has nothing to do with Allah, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the true secret about the conception of the one Almighty God in Pancasila the result of secularist Soekarno's thought which has nothing to do with Allah, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secret about the conception of the one Almighty God in Pancasila the result of secularist Soekarno's thought which has nothing to do with Allah, namely the verses:

"Say: "He is Allah, the Almighty (Al Ikhlaash: 112: 1).

"The parable of those who take protectors other than Allah is like a spider who makes a house. And indeed the weakest house is the house spiders if they knew. (Al 'Ankabuut: 29: 41)

"Allah has sent down the best words of Quran which are similar again and again, trembling because of them the skin of those who fear their God, then the skin becomes calm and their hearts when remembering Allah. That is Allah's guidance, with that book He shows whom He wills. And whoever Allah leads astray, surely there will be no leader for him (Az Zumar: 39: 23).

In an effort to uncover the secret of Allah, the conception of the one Almighty God in Pancasila the result of secularist Soekarno's thought which has nothing to do with Allah, the author bases it on deoxyribonucleic acid.

HYPOTHESIS

Here the author proposes hypothesis the conception of the one Almighty God in Pancasila the result of secularist Soekarno's thought which has nothing to do with Allah, based on deoxyribonucleic acid.

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a place to store genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. These nucleotides consist of folate, 5-carbon sugar and one of the nitrogen bases. The nitrogen bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine (A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. As for 5-carbon sugar, it has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms, and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are abundant around us and in the atmosphere.

THE CONCEPTION OF THE ONE ALMIGHTY GOD IN PANCASILA THE RESULT OF SECULARIST SOEKARNO'S THOUGHT WHICH HAS NOTHING TO DO WITH ALLAH

Now, we are still concentrating on uncovering the secret behind the verse: *"Say: "He is Allah, the Almighty (Al Ikhlah: 112: 1).*

As it turned out, it was immediately revealed that, who is *"...The Almighty (Al Ikhlah: 112: 1)?*

The answer is

"He is Allah... (Al Ikhlah: 112: 1)

However, if we ask, who is the "The One Almighty God" which is one of the five precepts?

The answer is,

What is clear is not *"...He is Allah, the Almighty (Al Ikhlah: 112: 1) "Allah has sent down the best words of Quran... (Az Zumar: 39: 23).*

So, it is now revealed that "The One Almighty God" which is one of the five precepts is not *"Allah has sent down the best words of the Qur'an...(Az Zumar:39:23)* but rather "The One Almighty God" according to human views, understandings and ideals.

It means, "The One Almighty God" according to the notion of socialism, according to the notion of democracy, according to the notion of human rights and according to the notion of the rights of justice.

Well, it could be, one big tree, one big rock, one big statue, one big mountain which refers to "The One Almighty God" according to the ideology of socialism, according to the ideology of democracy, according to the ideology of human rights and according to the ideology of justice rights.

So, because "The One Almighty God" according to the ideology of socialism, according to the notion of democracy, according to the notion of human rights and according to the notion of the rights of justice is not *"... Allah, the Almighty (Al Ikhlah: 112: 1)* and not *"Allah has sent down the best words of the Qur'an ... (Az Zumar: 39: 23)* , then "The One Almighty God" which is one of the five precepts was the result of secular people's thinking pioneered by secularist Soekarno.

This means that secular people are people who do not want and do not aim to make the laws that exist in religion, in this case Islam, become a source of law in the state.

So, now it has been revealed, that "The One Almighty God" which is one of the five precepts is the result of secular people's thinking pioneered by secularist Soekarno.

"The One Almighty God" which is one of the five precepts is outside of Islam.

Now, let's unveil the secret behind the verse: *"Allah has sent down the best words of the Qur'an which are similar again and again... That is Allah's guidance, with that book He shows whom He wills... (Az*

Zumar: 39 :23).

It turns out, "The One Almighty God" which is one of the five precepts was the result of the thinking of secular people pioneered by secularist Soekarno was not *"...guidance of Allah ... (Az Zumar: 39: 23).*

So, if there are people who develop the Islamic creed under the auspices of the concept of "The One Almighty God" which is one of the five precepts is the result of secular people's thinking pioneered by secularist Soekarno, then the result is like *"...a spider that builds a house. And indeed the weakest house is the spider's house... (Al 'Ankabuut: 29: 41).*

So, if there are people who develop Islamic beliefs under the auspices of the concept of "The One Almighty God" which is one of the five principles resulting from the thinking of secular people pioneered by the secularist Soekarno, then the results will be like *"...a spider that builds a house. And indeed the weakest house is the spider's house... (Al 'Ankabuut: 29: 41).*

KESIMPULAN
