ABSTRACT

Before the author writes about the judgment day = the sun will die in 251.8 years according to Allah calculations, 4.6 billion years according to human calculations, when the sun is rolled, because Allah's spirit or hydrogen atom runs out, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secrets about the judgment day = the sun will die in 251.8 years according to Allah calculations, 4.6 billion years according to human calculations, when the sun is rolled, because Allah's spirit or hydrogen atom runs out, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secrets about the judgment day = the sun will die in 251.8 years according to Allah calculations, 4.6 billion years according to human calculations, when the sun is rolled, because Allah's spirit or hydrogen atom runs out, namely the following verses:

"Angels and spirits ascend to God in a day worth fifty thousand years. (Al Ma'aarij : 70: 4).

"And they do not glorify Allah with proper exaltation when the whole earth is in His hands on the judgment day and the sky are rolled up with His right hand. Glory be to God and exalted is He above what they associate. (Az Zumar: 39: 67).

"It is Allah who sent down the book with truth and balance. And do you know that the judgment day may be near? (Ash Shuura: 42:17).

"People ask you about the judgment day. Say: "Indeed, the knowledge of the judgment day is only with Allah."

"When the sun is rolled up (At Takwiir: 81:1).

"And when the star fall (At Takwiir: 81: 2).

"The judgment day is near (An Najm: 53: 57).

"Indeed, the judgment day will come. I keep it a secret so that each person will be rewarded with what he has earned." (Thaahaa: 20:15).

"And to Allah belongs all that is hidden in the sky and in the earth. There is no such thing as the Hour, but like the twinkling of an eye or sooner. Verily, Allah has power over all things. (An Nahl: 16: 77).

In an effort to open the veil about the judgment day = the sun will die in 251.8 years according to Allah calculations, 4.6 billion years according to human calculations, when the sun is rolled, because Allah's spirit or hydrogen atom runs out, the author bases it on deoxyribonucleic acid.

HYPOTHESIS

Here the author proposes hypothesis the judgment day = the sun will die in 251.8 years according to Allah calculations, 4.6 billion years according to human calculations, when the sun is rolled, because Allah's spirit or hydrogen atom runs out, based on Deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms, and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are abundant around us and in the atmosphere.

THE JUDGMENT DAY = THE SUN WILL DIE IN 251.8 YEARS ACCORDING TO ALLAH CALCULATIONS, 4.6 BILLION YEARS ACCORDING TO HUMAN CALCULATIONS, WHEN THE SUN IS ROLLED, BECAUSE ALLAH'S SPIRIT OR THE HYDROGEN ATOM RUNS OUT

Well now, we continue to try to focus our minds to reveal the secrets hidden in the verse: *"...maybe the judgment day is near (Asy Syuura: 42:17) "When the sun is rolled (At Takwiir: 81: 1)"... when the star fall (At Takwiir: 81: 2)"...a day worth fifty thousand years. (Al Ma'aarij : 70: 4).*

Apparently, here Allah declared that *"...maybe the judgment day is near (Asy Shuura: 42:17).*

But according to Allah the judgment day will occur *"When the sun is rolled (At Takwiir: 81: 1)"... when the star fall (At Takwiir: 81: 2).*

Well, *"...the sun is rolled (At Takwiir: 81: 1)* means, the sun will run out of hydrogen atomic fuel, when the hydrogen atomic fuel runs out, the sun will die. The hydrogen atomic fuel will run out **4600000000** years according to human calculations. If it is calculated according to Allah

calculations, the hydrogen atomic fuel will run out $4600000000 : 18262980 = 251.8$ years, based on *"...a day worth fifty thousand years. (Al Ma'aarij: 70: 4)* means 1 day according to Allah = 18262980 days according to humans.

So, actually the judgment day will occur when *"...the sun is rolled (At Takwiir: 81:1)* i.e. 4600000000 years to come.

Not as propagated by some humans, the judgment day is near, humans live at the end of time, Allah's knowledge is lost, ignorance about Allah is everywhere, slander is rampant, which makes other humans confused. Those who propagate the judgment day is near are people who do not understand the real Allah.

Some people who propagate the judgment day is near do not understand how to calculate when the judgment day will occur according to Allah and when the judgment day will occur according to human calculations. If according to Allah, the judgment day will occur 251.8 years in the future *"...a day worth fifty thousand years. (Al Ma'aarij: 70: 4)*, while according to human calculations based on facts and evidence when the hydrogen atom in the sun runs out is 4.6 billion years to come.

CONCLUSION

Based on the description above, we can conclude that the secrets hidden in the verse: *"...maybe the judgment day is near (Asy Syuura: 42:17) "When the sun is rolled (At Takwiir: 81: 1)"... when the star fall (At Takwiir: 81: 2)"...a day worth fifty thousand years. (Al Ma'aarij : 70: 4).*

Apparently, here Allah declared that *"...maybe the judgment day is near (Asy Shuura: 42:17).*

But according to Allah the judgment day will occur *"When the sun is rolled (At Takwiir: 81: 1)"... when the star fall (At Takwiir: 81: 2).*

Well, *"...the sun is rolled (At Takwiir: 81: 1)* means, the sun will run out of hydrogen atomic fuel, when the hydrogen atomic fuel runs out, the sun will die. The hydrogen atomic fuel will run out 4600000000 years according to human calculations. If it is calculated according to Allah calculations, the hydrogen atomic fuel will run out $4600000000 : 18262980 = 251.8$ years, based on *"...a day worth fifty thousand years. (Al Ma'aarij: 70: 4)* means 1 day according to Allah = 18262980 days according to humans.

So, actually the judgment day will occur when *"...the sun is rolled (At Takwiir: 81:1)* i.e. 4600000000 years to come.

Not as propagated by some humans, the judgment day is near, humans live at the end of time, Allah's knowledge is lost, ignorance about Allah is everywhere, slander is rampant, which makes other humans confused. Those who propagate the judgment day is near are people who do not understand the real Allah.

Some people who propagate the judgment day is near do not understand how to calculate when the judgment day will occur according to Allah and when the judgment day will occur according to human calculations. If according to Allah, the judgment day will occur 251.8 years in the future *"...a day worth fifty thousand years. (Al Ma'aarij: 70: 4)*, while according to human calculations based on facts and evidence when the hydrogen atom in the sun runs out is 4.6 billion years to come.
