ABSTRACT

First of all, by asking Allah's forgiveness, here I am trying to reveal the signs of Allah's greatness regarding Allah's secret about the Prophet Muhammad not flying, walking into Sidratil Muntaha seen from the point of photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA)

Signs of Allah's greatness regarding Allah's secret about the Prophet Muhammad not flying, walking into sidratil Muntaha, namely in the verses:

"He is Allah, Who created all that is on earth for you and He willed (created) the sky, then He made seven skys. And He is All-Knowing of all things "(Al Baqarah: 2:29)

"So He made it seven skys in two periods. He revealed in each sky its affairs. And We adorn the near sky with bright stars and We take care of it as well as possible. Such is the provision of the Mighty, All-Knowing. (Fushshilat : 41:12)

"And indeed Muhammad saw Gabriel at another time, (An Najm: 53:13) in Sidratil Muntaha (An Najm: 53:14)

"Nearby there is a paradise to live in, (An Najm: 53:15)

"when Sidratil Muntaha was overwhelmed by something that encompassed him. (An Najm: 53:16)

"His sight did not turn away from that which he saw and did not go beyond it. (An Najm: 53:17)

In an effort to open the veil of Allah SWT's greatness regarding Allah's secret about the Prophet Muhammad not flying, walked into Sidratil Muntaha, I am using photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

HYPOTHESIS

Here I propose the hypothesis that the Prophet Muhammad entered the Sidartil Muntah through a symmetrical universe seen from photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T)

contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

A SYMMETRY UNIVERSE

Now, we continue to focus our minds on unlocking the secret behind the verse: *"...He made the seven skys in two times. He revealed in each sky his affairs. And We decorated the sky that was close to the bright stars...(Fushshilat : 41:12)*

Apparently, now it is revealed that *"...the seven skys..."* are seven universes or seven universes that are symmetrical. Where our universe is now in *"...decorate the near sky with bright stars...(Fushshilat : 41:12)*

Now, of these seven universes, only one universe is visible to the human eye, namely the universe in which there are atoms, plants, animals, humans, and other living organisms, earth, moon, planets, stars, galaxy.

While the other six universes are translucent.

Why is this universe only seven?

The answer is

Our present universe that is visible to our eyes, is only 5% of the mass consisting of atoms of the existing mass.

Where the 5% atoms can be further divided according to the division based on gases and chemicals consisting of 74% hydrogen gas, 23% helium gas, 1% oxygen gas, 0.5% carbon, 0.5% neon gas, 0.1% iron and 0.9% other elements.

While the other mass consists of mass in the form of dark matter which amounts to 23%.

Where this dark matter is still not widely known and understood, but this dark matter functions as a gravitational force that binds objects around it.

Also this dark matter is a large part of the mass that exists in galaxies, collections of galaxies and in the universe as a whole.

The remaining 72% is in the form of dark energy which until now is still not widely known and understood.

Where this dark energy causes the universe to accelerate, meaning that the speed of the universe is increasing.

Now, we focus our attention only on the mass in our universe which is 5% of the mass consisting of atoms and the mass is dark matter which is 23%.

THE SEVEN UNIVERSES ARE SYMMETRY

Now, let's unravel the secret behind the verse: *"...He made it seven skys...(Fushshilat: 41:12)*

It turns out that if we add up the mass that is 5% of our universe with the mass of 23% dark matter,

the number becomes 28% of the mass.

Then we divide that 28% mass by 7 universes, then each universe has the same 4% mass.

Now it's been answered, the secret behind the verse "*...He made the seven skys...(Fushshilat: 41:12)* namely Allah created 7 universes which have the same mass, that is, each universe has 4% mass which makes 7 universes. it becomes symmetrical.

Or in other words, the 7 universes created by Allah are in balance with each other.

OUR UNIVERSE IS VIEWABLE, THE OTHER SIX UNIVERSES ARE INVISIBLE

Now, let's unveil the secret behind the verses: "*And indeed Muhammad saw Gabriel at another time, (An Najm: 53:13) in Sidratil Muntaha (An Najm: 53:14) Nearby there is a paradise to live in, (An Najm: 53:15)*

It turns out that now the secret has been revealed, how exactly did the Prophet Muhammad perform mi'raj?

The answer is,

Prophet Muhammad did not fly to ascend to the 7th heaven, but on foot into a symmetrical, transparent universe, in which there is "*Sidratil Muntaha (An Najm: 53:14)* and "*Nearby is a paradise to live in, (An Najm: 53:14)*

The way, Allah brings the symmetrical universe, which is transparent, in which there is "*Sidratil Muntaha (An Najm: 53:14)* with our universe which can be seen by our eyesight.

Well, the meeting place of our universe room with a transparent symmetrical universe room in which there is "*Sidratil Muntaha (An Najm: 53: 14)* is around **the Al Masjidil Aqsa** place.

So, one night on the 27th of Rajab in the 11th year of the prophethood coincided with the 8th of March 620 AD Prophet Muhammad mi'raj.

PROPHET MUHAMMAD MI'RAJ, DON'T FLY, BUT FOOT ENTERS INTO A UNIVERSITY OF SYMMETRY WHICH IS INSIDE OF SIDRATIL MUNTAHA

Well, because of the symmetrical universe, which is transparent, in which there is "*Sidratil Muntaha (An Najm: 53:14)* brought near by Allah with our universe which can be seen by our eyesight, then the Prophet Muhammad easily walked, straight into a symmetrical, transparent universe in which there is "*Sidratil Muntaha (An Najm: 53:14)* which "*Nearby is a paradise to live in, (An Najm: 53:15)*

In this symmetrical universe, the Prophet "*...Muhammad has seen Gabriel...(An Najm : 53:13)* in *Sidratil Muntaha (An Najm : 53:14)*

JIBRIL IS A MAN

Now, because Jibril is a human type, "*... We made the apostle an angel, ... he was a man ... (Al An'aam: 6: 9)*, who can't fly, of course Jibril and Prophet Muhammad was able to enter the transparent symmetrical universe, no need to fly, in which there is "*Sidratil Muntaha (An Najm: 53:14)* which "*Nearby is a paradise to live in, (An Najm: 53:15)*

Now, finally it was revealed how the Prophet Muhammad mi'raj and met Jibril in a transparent

symmetrical universe, in which there is *"Sidratil Muntaha (An Najm: 53:14)* which *"Nearby is a paradise to live in, (An Najm :53:15)*

PROPHET MUHAMMAD HAS SEEN THE MOST GREAT SIGN OF ALLAH

Well, finally, the secret behind the verse has been revealed: Prophet Muhammad *"...has seen some of the greatest signs (power) of his Lord". (An Najm: 53:13-18)* by being entered into a transparent symmetrical universe, there is no need to fly, in which there is *"Sidratil Muntaha (An Najm: 53:14)* which *"Nearby is a paradise to live in, (An Najm: 53:14)*

CONCLUSION

From what has been described above we can now conclude that the secret behind the verse: *"...He made the seven skys in two times. He revealed in each sky his affairs. And We decorated the sky that was close to the bright stars...(Fushshilat : 41:12)*

Apparently, now it is revealed that *"...the seven skys..."* are seven universes or seven universes that are symmetrical. Where our universe is now in *"...decorate the near sky with bright stars... (Fushshilat : 41:12)*

Now, of these seven universes, only one universe is visible to the human eye, namely the universe in which there are atoms, plants, animals, humans, and other living organisms, earth, moon, planets, stars, galaxy.
