ABSTRACT

Before the author writes about the Prophet Muhammad saw's spirit is in paradise on earth and near us, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret about the Prophet Muhammad saw's spirit is in paradise on earth and near us, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secret about the Prophet Muhammad saw's spirit is in paradise on earth and near us, namely the following verses:

"And indeed Muhammad saw Gabriel at another time (An Najm: 53: 13).

"in Sidratil Muntaha (An Najm : 53: 14).

"Nearby there is paradise place to live (An Najm: 53: 15).

"... We made the apostle an angel... We made him a man...(Al An'aam: 6: 9).

"And hurry to forgiveness from your God and to paradise as wide as the sky and the earth prepared for the pious (Ali 'Imran: 3: 133).

"O Adam, you and your wife will live in paradise and you will both eat wherever you like, and do not approach this tree, and you will both be among the wrongdoers." (Al A'raaf : 7: 19).

"Then both of them were derailed by satan from paradise and removed from their original state and We said: "Come down! some of you are enemies to others, and for you there is a residence on earth, and enjoyment of life until the appointed time." (Al Baqarah: 2: 36).

"Those who were earlier, were first from the emigrants and the Ansar and those who followed them well, Allah is pleased with them and they are pleased with Allah and Allah has provided for them paradises where rivers flow in them. forever. They will abide in it. That is a great victory. (At Taubah : 9: 100).

"So when I have perfected the life of Adam and breathed into Adam my spirit, then you will fall down and prostrate to him." (Shaad: 38: 72).

In an effort to reveal the greatness of Allah SWT regarding Islamic scholars in the world do not see paradise before their eyes through Allah's spirit, the author uses the basis of deoxyribonucleic acid (DNA).

HYPOTHESES

Here the author proposes hypothesis the Prophet Muhammad saw's spirit is in paradise on earth and near us, based on deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARKS

If we want to know quarks then we pay attention to one of the hydrogen atoms which is a building element of the human body, animals, plants and fruit as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Next, if this proton is split, we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a storage place for genetic information that has a double structure forms a double helix and contains structured polynucleotide macromolecules repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5 carbon sugar and one of the nitrogen bases. Nitrogen bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 nitrogen atom oxygen and 5 hydrogen atoms. Adenine (A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are found in abundance around us and in the atmosphere.

THE PROPHET MUHAMMAD SAW'S SPIRIT IS IN PARADISE, ON EARTH AND NEAR US

Now, we continue to focus our minds on unlocking the secret behind the verse: *"...a paradise whose breadth is as wide as the sky and the earth...(Ali 'Imran: 3: 133) "O Adam, stay for you and your wife in Paradise...(Al A'raaf: 7: 19) "... We say: "Come down!...for you there is a dwelling place on earth..." (Al Baqarah: 2:36).*

Apparently, here Allah has clearly declared, that paradise is on our earth.

Why was paradise created on our earth?

Well, the answer is

Hidden in the secret behind the verse: *"...We say: "Come down!...for you there is a dwelling place on earth..." (Al Baqarah: 2:36).*

Well, *"... We say: "Come down! ... (Al Baqarah: 2: 36)* or in other words, "come out", illustrates to humans, that sky is in the expanse of space on our earth.

This situation is as declared by Allah *"...a paradise as wide as the sky and the earth... (Ali 'Imran: 3: 133).*

That is, here, the sky is an expanse of space, where the earth is above it, and on the earth there is an expanse of the paradise.

So the sky which is the expanse of the room is the place where the earth and paradise are located.

For this reason, Allah describes paradise as the picture on our earth *"... paradise with rivers flowing in it... (At Taubah: 9: 100).*

Where in the water contains oxygen atoms and hydrogen atoms. Atoms of oxygen and atoms of hydrogen are indispensable for life in paradise.

Now, until this moment, most of the Islamic scholars in the world still think and believe that paradise is above the sky, just as if Islamic scholars want to look for paradise, they must look up at the air in the sky.

When in fact, paradise is around Islamic scholars living right now, on our earth.

As Allah explains *"...Muhammad saw Gabriel at another time (An Najm : 53:13) at Sidratil Muntaha (An Najm : 53:14) " Nearby is a paradise to live in (An Najm : 53:15).*

Well, because Jibril is a kind of human *"...an angel...a man...(Al An'aam: 6:9)* who can't fly, so Prophet Muhammad saw can't fly, so when *"...Muhammad... saw Jibril...(An Najm : 53:13) "...in Sidratil Muntaha (An Najm : 53:14),* then actually, Prophet Muhammad saw saw Jibril in *"...in Sidratil Muntaha (An Najm: 53:14)* that is on our earth.

Well, now it's been revealed, the secret that is stored in the verse: *"...paradise whose breadth is as wide as the sky and the earth... (Ali 'Imran: 3: 133).*

That is, paradise on our earth, is above the expanse of the room called the sky.

Now, the Prophet Muhammad saw died at the age of 63 on Monday 12 Rabi'ul Awwal 11 H (8 June 632 AD) buried in the house of 'Aisyah where the Prophet Muhammad saw breathed his last. Where currently the room is known as "Raudhatan Nabawi", the sacred burial place of a Prophet and the last Messenger.

Now, 30 days after the Prophet Muhammad saw was buried, the Prophet Muhammad saw's spirit or *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* came out of the body of the Prophet Muhammad saw who had died and entered paradise.

Now because paradise is on our earth, above the expanse of space called the sky, then the Prophet Muhammad saw's spirit or *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* is on earth near us now.

Although the Prophet Muhammad saw was buried in the house of ' Aisyah where the Prophet Muhammad saw breathed his last, known as "Raudhatan Nabawi" in the Prophet's Mosque in Medina, Saudi Arabia, but because the Prophet Muhammad saw's spirit or *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* is in paradise, and hparadise is around us on this earth, then the Prophet Muhammad saw's spirit or *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* is near us.

Therefore, wherever, whenever we convey sholawat for the Prophet Muhammad saw will directly reach the Prophet Muhammad saw.

Only because our sight can only see light in the electromagnetic spectrum area between 430 and 740 nanometers. If there is a light ray in the electromagnetic spectrum area below 430 nanometers and light in the electromagnetic spectrum area above 740 nanometers, then our eyes cannot see the light.

So, we cannot see the Prophet Muhammad saw's spirit or "*...my spirit...(Shaad: 38: 72)*" or "*...Allah's spirit...(Shaad: 38: 72)*" that is near us, because the spirit of the Prophet Muhammad saw's spirit or "*...my spirit...(Shaad: 38: 72)*" or "*...Allah's spirit...(Shaad: 38: 72)*" is in the electromagnetic spectrum area below 430 nanometers and in the electromagnetic spectrum area above 740 nanometers.

Now this is what is still not understood by all Islamic scholars and all Muslims in the world.

CONCLUSION

From what has been described above we can now conclude that the secret behind the verse: "*...a paradise whose breadth is as wide as the sky and the earth...(Ali 'Imran: 3: 133)*" "*O Adam, stay for you and your wife in Paradise...(Al A'raaf: 7: 19)*" "*...
