## ABSTRACT

Before the author writes the problem, there are similarities between humans and pigs, based on the DNA, the protein composition in the pig's body is the same as the protein composition in the human body, first the author asks forgiveness from Allah SWT. Here the author tries to open the veil that hides the secret that there are similarities between humans and pigs, based on the DNA, the protein composition in the pig's body is the same as the protein composition in the human body,, based on the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that open the secret about there are similarities between humans and pigs, based on the DNA, the protein composition in the pig's body is the same as the protein composition in the human body, namely the verses:

*"Indeed, Allah only forbids you (eating) carrion, blood, pork and what is slaughtered in the name of other than Allah; but whoever is compelled to eat it without persecuting and not transgressing, then indeed Allah is Forgiving, Most Merciful. Nahl: 115:16)*

*"Say: "I did not find in the revelation that was revealed to me, something that is forbidden for those who want to eat it, except for food ... pork .. (Al An'aam: 6: 145)*

*"Today...the food of those who were given Taurat, Zabur, Bible is lawful for you, and your food is lawful for them...(Maa'idah: 5:5)*

*"Forbidden to you... pork... (Al Maa'idah: 5:3)*

In an effort to unmask the secret that there are similarities between humans and pigs, based on the DNA, the protein composition in the pig's body is the same as the protein composition in the human body, the author uses the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## HYPOTHESIS

Here the author proposes the hypothesis that there are similarities between humans and pigs, based on the DNA, the protein composition in the pig's body is the same as the protein composition in the human body, based on Deoxyribonucleic acid (DNA).

## DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C)

contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

**THERE ARE SIMILARITY, BETWEEN HUMANS AND PIGS, SEEN FROM THE DNA, THE PROTEIN COMPOSITION IN THE PIG'S BODY IS THE SAME AS THE PROTEIN COMPOSITION IN THE HUMAN BODY**

Now, we are still trying to focus our minds to reveal the secrets stored in the verses: *"Indeed Allah only forbids you ... pork ... (An Nahl: 115:16)*

Apparently, here Allah has declared *"... Allah... forbids you... pork... (An Nahl: 115:16)*

Now the question arises,

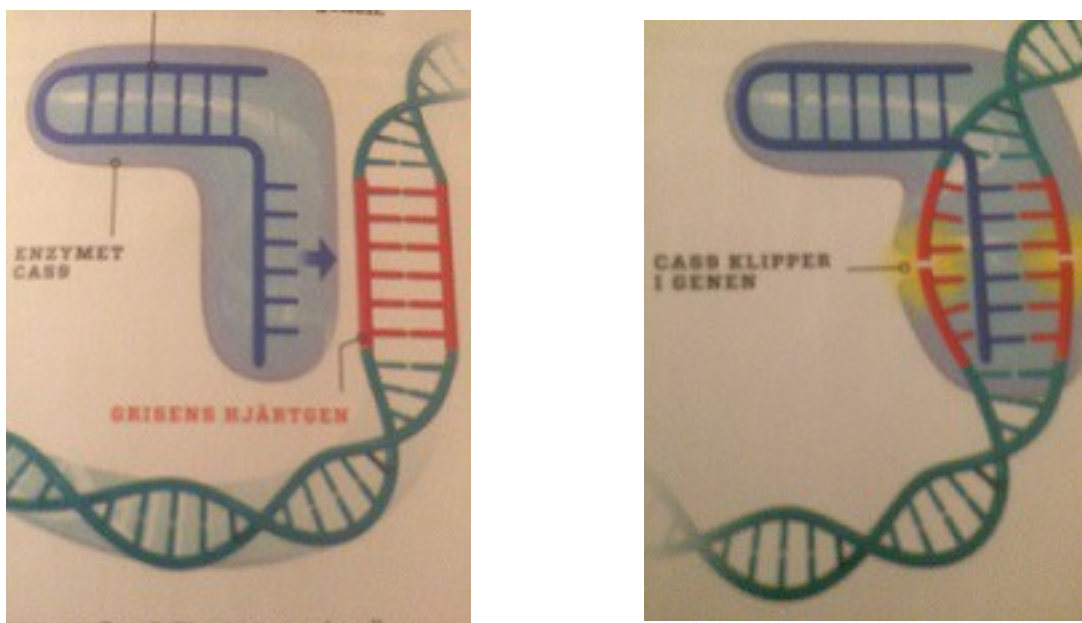

Why *"... Allah... forbids... pork... (An Nahl: 115:16) ?*

Well, the answer is, if we study the similarities between humans and pigs based on the structure of DNA, then the similarities are very close. Where in the composition of protein in the body of pigs is the same as in the composition of proteins in the human body. Therefore, once made from small piglets, the protein composition was taken to make insulin.

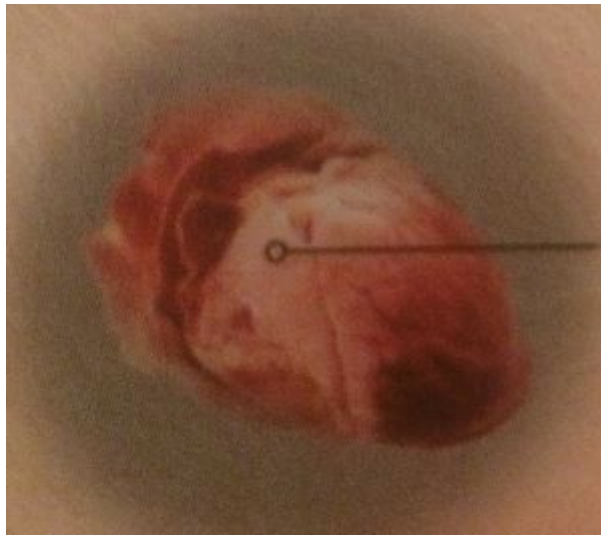

So, actually between pork and human flesh there are similarities.

This is the real secret, why *"... Allah... forbids... pork... (An Nahl: 115:16)*

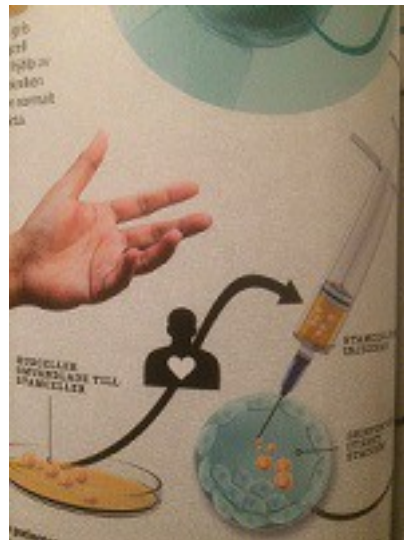

Now, the pig's body can be used to plant the heart, liver, lungs, kidneys. With the help of Cas9 enzymes injected into pig cells and with Cas9 scissors, human DNA can be implanted in pig DNA fetuses.

**Figure 1: With the help of Cas9 Enzyme injected into pig cells and with Cas9 scissors**

**Figure 2: A human heart grows in a pig's body**

**Figure 3: Human stamens injected into a young pig fetus.**

Now it is revealed, why Allah forbids eating pork, because pork is the same as human flesh "... *Allah... forbids... pork... (An Nahl: 115:16)*

Now, we are still trying to squeeze our minds to reveal the secret behind the verse: "... *those who were given Taurat, Zabur, Bible... (Maa'idah: 5: 5)*

It turned out that the people who were given *Taurat, Zabur, Bible* were some of the prophets whose ancestors were Jews. From Prophet Noah to Prophet Isa, based on Deoxyribonucleic acid (DNA).

So, if we dig deeper into the lineage from Prophet Noah to Prophet Isa, based on Deoxyribonucleic acid (DNA), it will be revealed that haplogroup J gave birth to J1 and J2, which are the ancestors of the Jews.

Where haplogroup J was formed 25000 years ago, in the border area between Saudi Arabia, Jordan and Egypt. Jews, haplogroup J, from the border between Saudi Arabia and Jordan into Egypt and into Iraq (Familytreedna)

Now if we examine the descendants of Prophet Noah, namely Prophet Ibrahim came from Ur, in

Iraq. Also Prophet Moses came from Egypt.

Now another question arises,

Why was Prophet Ibrahim in Ur and Prophet Moses in Egypt?

The answer is

Because the ancestors of these Jews who came from the border between Saudi Arabia and Jordan emigrated to Egypt and Iraq, around **2000-1500 BC**

Now, let's continue to uncover the secret behind the verse: *"Today...the food of those who were given Taurat, Zabur, Bible is lawful for you, and your food is lawful for them...(Maa'idah: 5:5)*

It turned out that the food eaten by the Jewish prophets was allowed to be eaten by Muslims *"On this day ... (Maa'idah: 5: 5)*, namely after the Prophet Muhammad saw performed the wada pilgrimage, namely the last pilgrimage, before the Prophet Muhammad saw left the world.

Well, there's another question,

Why did the prophets of the Jews not eat pork?

The answer is hidden behind the verse: *"Today... the food of those who were given Taurat, Zabur, Bible is lawful for you... (Maa'idah: 5:5)*

That is, the foods that are forbidden in the Qur'an include eating pork, it is also forbidden in *Taurat, Zabur, Bible*.

So actually, *"...Allah...forbids...pork...(An Nahl: 115:16)* because, indeed pork is the same as human flesh based on the DNA structure.

## CONCLUSION

Based on the description above, we can conclude that the secrets stored in the verses: *"Indeed Allah only forbids you ... pork ... (An Nahl: 115:16)*

Apparently, here Allah has declared *"... Allah... forbids you... pork... (An Nahl: 115:16)*

Now the question arises,

Why *"... Allah... forbids... pork... (An Nahl: 115:16) ?*

Well, the answer is, if we study the similarities between humans and pigs based on the structure of DNA, then the similarities are very close. Where in the composition of protein in the body of pigs is the same as in the composition of proteins in the human body. Therefore, once made from small piglets, the protein composition was taken to make insulin.

So, actually between pork and human flesh there are similarities.

This is the real secret, why *"... Allah... forbids... pork... (An Nahl: 115:16)*

Now, the pig's body can be used to plant the heart, liver, lungs, kidneys. With the help of Cas9 enzymes injected into pig cells and with Cas9 scissors, human DNA can be implanted in pig DNA

fetuses.

Now it is revealed, why Allah forbids eating pork, because pork is the same as human flesh "... *Allah... forbids... pork... (An Nahl: 115:16)*

Now, we are still trying to squeeze our minds to reveal the secret behind the verse: "... *those who were given Taurat, Zabur, Bible... (Maa'idah: 5: 5)*

It turned out that the people who were given *Taurat, Zabur, Bible* were some of the prophets whose ancestors were Jews. From Prophet Noah to Prophet Isa, based on Deoxyribonucleic acid (DNA).

So, if we dig deeper into the lineage from Prophet Noah to Prophet Isa, based on Deoxyribonucleic acid (DNA), it will be revealed that haplogroup J gave birth to J1 and J2, which are the ancestors of the Jews.

Where haplogroup J was formed **25000** years ago, in the border area between Saudi Arabia, Jordan and Egypt. Jews, haplogroup J, from the border between Saudi Arabia and Jordan into Egypt and into Iraq (Familytreedna)

Now if we examine the descendants of Prophet Noah, namely Prophet Ibrahim came from Ur, in Iraq. Also Prophet Moses came from Egypt.
