ABSTRACT

Before I write the problem, there are still some people who believe that my spirit is a ghost, a jurig that needs to be feared, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret that there are still some people who believe that my spirit is a ghost, a jurig to be feared, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about there are still some people who believe that my spirit is a ghost, a jurig that needs to be feared, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a male and, of course, We would have doubted about them what they doubted about themselves." (Al An'aam: 6:9)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth.(Al Baqarah: 2:186)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"Allah did not create and resurrect you except as one soul. Indeed, Allah is All-Hearing, All-Seeing. (Luqman: 31: 28)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

"And among His signs is that you see the earth dry and arid, so when We send down water on it, it will surely move and thrive. Indeed, God Who gives life to it, surely can bring back the dead... (Fushshilat: 41: 39)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)

"It is He Who created the skys and the earth in six days: Then He resides on the Throne. He knows what enters the earth and what comes out of it and what descends from the heavens and what ascends to Him. And He is with you in wherever you are. And Allah is All-Seeing of what you do. (Al Hadid: 57:4)

"And verily We have created man from an essence from clay. (Al Mu'minuun: 23:12)

"He is Allah, Who created all that is on earth for you and He willed the skys, then He made the seven skys. And He is All-Knowing of all things. (Al Baqarah: 2:29)

"Who has created the seven skys in layers. You do not see in the creation of the Most Gracious God anything that is not balanced. So look again and again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"Then let them remove the dirt that is on their bodies and let them complete their vows and let them perform tawaf around the old house (Baitullah). (Al Hajj: 22: 29)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2:115)

"It is He who makes the night into the day and the day into the night. And He is All-Knowing of all the hearts. (Al Hadid: 57: 6)

"God who preserves the two places where the sun rises and God who preserves the two places where it sets." (Ar Rahman: 55:17)

"Indeed We see your face looking up to the sky, then We will turn you to the Qibla that you like. Turn your face towards the Grand Mosque. And wherever you are, turn your face towards it. And indeed those who were given the Book do know , that turning to the Grand Mosque is true from their Lord, and Allah is never unaware of what they do.(Al Baqarah: 2:144)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

In an effort to open the veil of Allah's secret about there are still some humans who believe that my spirit is a ghost, a jurig to be feared, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose a hypothesis that there are still some people who believe that my spirit is a ghost, a jurig that needs to be feared because they do not know that in living and non-living things there is *"...my spirit...(Shaad: 38:72)*, from the point of view of Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks

of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

THERE ARE SOME PEOPLE WHO STILL BELIEVE THAT MY SPIRIT IN THE BODY OF LIFE AND OBJECTS HAS POWER AND SHOULD BE FEARED

Now, we are still focusing our minds on uncovering the secrets contained behind the verse: *"...I breathed into him my spirit...(Shaad: 38:72)*

Apparently, Allah breathed *"... My spirit... (Shaad: 38: 72)* to every living thing and all inanimate objects in the universe.

Why does Allah breathe *"...My spirit...(Shaad: 38:72)* into every living thing and all inanimate things in the universe?

The answer is

It is hidden in the secret behind the verse: *"... Allah who made everything on earth... He willed the heavens, then He made seven skys... (Al Baqarah: 2: 29)*

Whatever is on earth, Allah has breathed into it *"... my spirit... (Shaad: 38: 72)*

Where *"... my spirit...(Shaad : 38: 72)* is made up of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Because the universe and everything in it is built with hydrogen, carbon atoms, nitrogen atoms and oxygen atoms, it is actually Allah who breathed *"... My spirit... (Shaad: 38: 72)* into every human being, animal, plant and into other objects in this universe.

Well, some humans still believe in *"...my spirit...(Shaad: 38:72)* which is in the human body, animals, plants and other objects that exist in this universe.

According to some people who believe in *"... my spirit... (Shaad: 38: 72)* which is in the human body, animals, plants, objects, all of which need to be feared, so there is ghosts and jurgs that need to be feared. .

BASED ON WHAT REASONS ARE MOST PEOPLE BELIEVE IN MY SPIRIT THAT IS IN THE BODY OF LIFE AND DEAD THINGS WITH THE CALLS OF GHOSTS AND JURIG

Well, it turns out that it has been 232 500 years since Adam entered the world, Adam's descendants believe in "... *My spirit...* (*Shaad: 38: 72*) which is in the bodies of living and inanimate things as something that must be worshiped and feared.

So, indeed the belief in "...*my spirit...*(*Shaad: 38:72*) has been passed down from generation to generation, even to this very moment.

The call to "... *my spirit...* (*Shaad: 38: 72*) which is in the bodies of living and non-living things as ghosts and jurigs has been going on for tens of thousands of years.

That's, all because humans do not understand and do not realize about "... *my spirit...* (*Shaad: 38: 72*) which is blown by Allah to every human being, and other creatures of Allah, as well as to objects in nature. universe and its contents.

ACTUALLY HUMANS DON'T NEED TO FEAR OF MY SPIRIT THAT IS WITHIN HUMANS AND OTHER ALLAH'S CREATURES ALSO OF OBJECTS IN THE UNIVERSE WHICH IS IN THERE IS MY SPIRIT

Well, if humans have understood and realized actually about "...*my spirit...*(*Shaad: 38:72*) which is blown by Allah, then humans do not need to worship "...*my spirit...*(*Shaad: 38 : 72*) in the bodies of Allah's creatures and other inanimate objects.

Just imagine "... *my spirit...* (*Shaad: 38: 72*) which is in our own body, by taking a breath.

Well, when oxygen atoms enter our nose and lungs, that's what is called "... *my spirit...* (*Shaad: 38: 72*)

Likewise, when we exhale, carbonic acid or carbon atoms and oxygen atoms come together. Now hydrogen atoms and carbon atoms and oxygen atoms are the building blocks of "... *my spirit...* (*Shaad: 38: 72*)

CONCLUSION

The conclusions that can be drawn from the explanation above are the secrets contained behind the verse: "...*I breathed into him my spirit...*(*Shaad: 38:72*)

Apparently, Allah breathed "... *My spirit...* (*Shaad: 38: 72*) to every living thing and all inanimate objects in the universe.
