**ABSTRACT**

Before I write down the problem to meet Allah, humans must understand Allah, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret about to meet Allah, humans must understand Allah, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about to meet Allah, humans must understand Allah, namely the following verses:

*"Those who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)*

*"And We did not create the skys and the earth and everything between them by playing around. (Al Anbiyaa ': 21:16)*

*"Then do you think that We created you in a playful way, and that you will not be returned to Us? (Al Mu'minun: 23:115)*

*"To Him belongs the kingdom of the skys and the earth, and He has no children, and He has no partner in power, and He has created all things, and He sets its measurements as neatly as possible. (Al-Furqaan: 25: 2)*

*"Surely We see your face looking up to the sky, then We will surely turn you to the Qibla that you like... (Al Baqarah: 2: 144)*

*"And when Moses came for an appointed time and the Lord had spoken to him, Moses said: "My Lord, show me so that I can see You." The Lord said: "You will never be able to see Me, but look at the hill, then if it stays in its place you will surely see Me... (Al A'raaf: 7: 143)*

*"And it is not possible for a man of Allah to speak to him except by revelation or behind a veil or by sending an apostle, then it is revealed to him with His permission what He wills. Verily He is Most High. , Most Wise. (Ash Shuura: 42:51)*

*"Allah said: "O Moses, verily I chose you and other humans to carry My message and to speak directly with Me...(Al A'raaf: 7:144)*

*"When I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)*

*"So when I have perfected the show and breathed into it my skirt; then you must prostrate to him." (Shaad: 38:72)*

*"And We made before them a wall and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)*

*"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)*

*“Then He perfected and breathed into it His spirit and He made for you hearing, sight, and heart; you are very little grateful.” (As Sajdah: 32: 9)*

*"And We put before them a wall and behind them a wall, and We covered them so that they could not see. (Yaasiin: 36: 9)*

In an effort to open the veil of Allah's secret about meeting Allah, humans must understand Allah, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## **HYPOTHESIS**

Here I propose a hypothesis to meet Allah, humans must understand Allah, by *“...thinking about the creation of the skys and the earth...(Ali 'Imran: 3:191)* seen from the point of view of Deoxyribonucleic acid (DNA)

## **DEOXYRIBONUCLIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **HOW TO UNDERSTAND ALLAH**

Now, we are still trying to focus our minds, in order to reveal the secrets hidden behind the verse: *"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth... (Ali 'Imran: 3:191)*

Apparently, humans to understand Allah, here Allah has declared: *"...they think about the creation of the heavens and the earth ... (Ali 'Imran: 3: 191)*

Then the question arises,

Why do humans to understand Allah have to *“...think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)?*

The answer is

Hidden in the secret behind the verse: *"...Our Lord, you did not create this in vain...(Ali 'Imran: 3:191)*

Well, it turns out, whatever Allah has created in this universe, through Allah's law, it means that Allah created the universe and its contents are no joke. (Al Anbiyaa ': 21:16)

Whatever objects or living things, visible or invisible to the human eye, all of them were created not *“...by playing. (Al Anbiyaa ': 21:16)*

That is, Allah created everything that is in the universe *"...and He determined its measurements as neatly as possible. (Al Furqaan: 25:2)*

Now, with humans remembering and thinking *"...about the creation of the skys and the earth...(Ali 'Imran: 3:191)* , where Allah *"... did not...create the skys and the earth and everything between them. by playing around. (Al Anbiyaa ': 21:16)* and Allah *"...sets the measurements as neatly as possible. (Al Furqaan: 25: 2)* , then humans will understand Allah.

If humans have understood Allah, then humans can easily meet Allah, anywhere and anytime.

Allah is near, if man understands Allah, for Allah is *"...closer to him than his jugular vein."* (Qaf: 50:16)

That is, humans are close to Allah because in the human body there is *"... my spirit... (Al Hijr: 15: 29)* which Allah *"...has blown into it... (Al Hijr: 15: 29)*

So, now, it has been revealed that man will not meet Allah, as long as man does not understand Allah, even though Allah is *"...closer to him than his jugular vein."* (Qaf: 50:16)

## CONCLUSION

Based on the description above, we can conclude that the secrets hidden behind the verse: *"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth... (Ali 'Imran: 3:191)*

Apparently, humans to understand Allah, here Allah has declared: *"...they think about the creation of the heavens and the earth ... (Ali 'Imran: 3: 191)*
