ABSTRACT

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of Allah SWT's greatness regarding to understand the energy of Allah and my spirit through excavation of the skys and the earth, based on photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).

There are several verses that are the key to unlocking the secret of understanding the energy of Allah and my spirit through excavation of the skys and the earth, namely the verses:

"And Abraham said: "Indeed, I am going to my Lord, and He will guide me. (Ash Shaaffaat: 37:99)

"When his Lord said to him: "Submit obediently!" Ibrahim replied: "I submit to the Lord of the worlds". (Al Baqarah: 2:131)

"And when Ibrahim said: "O my Lord, show me how You bring the dead to life." Allah said: "Are you not convinced yet?" Ibrahim replied: "I have convinced him, but so that my heart remains steady (with my faith) Allah said : "(Then) take four birds, then chop them all up by you. (Allah says): "Then put on each hill one part of the parts, then call them, surely they will come to you quickly." And know that Allah is Mighty, Most Wise.(Al Baqarah: 2:260)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"And thus We showed Abraham the signs of majesty in the heavens and the earth and that he might be of those who believe. (Al An'aam: 6:75)

"When the night was dark, he saw a star he said: "This is my Lord", but when the star set he said: "I do not like the sinking." (Al An'aam: 6: 76)

"Then when he saw the moon rising he said: "This is my Lord." But after the moon had set, he said: "Indeed, if my Lord had not guided me, I would have been one of those who went astray." (Al An'aam: 6:77))

"Then when he saw the sun rising, he said: "This is my Lord, this is greater." So when the sun was setting, he said: "O my people, indeed I am free from what you associate with. (Al An'aam: 6: 78)

"And (remember the story of) Maryam, who kept her honor, then We breathed into her a spirit from Us and We made her and her child a great sign (of Allah's power) for the worlds. (Al Anbiyaa ': 21: 91)

In an effort to open the veil regarding to understand the energy of Allah and my spirit through excavation of skys and earth, based on photons, quarks and deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I put forward the hypothesis that Allah's energy and my spirit exist in the universe and all its contents, based on photons, quarks and Deoxyribonucleic acid (DNA).

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

As for if we want to know quarks, then we pay attention to one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects.

Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

THROUGH THE STAR, MOON AND SUN HUMANS WILL UNDERSTAND THE ENERGY OF ALLAH AND MY SPIRIT

Well, now we are back together to explore the secret hidden behind the verse: *"...We showed Ibrahim the signs of majesty in the skys and the earth and that he might be one of those who believe. (Al An'aam: 6:75)*

Apparently, Allah has described to humans that what is in the skyss and on earth are signs for humans to understand the energy of Allah and my spirit.

Now, when Ibrahim was still in his teens, he was trying with his mind to find out who Allah was.

Well, here Allah has declared *"... We showed Abraham signs of majesty in the skys and the earth... (Al An'aam: 6: 75)*

The question is

Why did Allah show *"...signs of majesty in the skys and the earth...(Al An'aam: 6:75)* to young Ibrahim ?

The answer is

Hidden in the secret that lies behind the verse: *"...so that he is one of those who believe. (Al An'aam: 6:75)*

Now, when Allah showed the stars, moon and sun to young Ibrahim, it turned out that young Ibrahim used his mind to make an analysis of the stars.

When the young Ibrahim *"... saw a star he said: "This is my Lord", but when the star set he said: "I do not like the sinking." (Al An'aam : 6: 76)*

Here young Ibrahim understands that because the earth rotates on its axis, then at night, where the earth is facing away from the sun, the stars appear.

However, when the earth is facing the sun, the stars are not visible because they are blocked by the sunlight. Yet the stars remain in place.

Well, here, young Ibrahim, doesn't want Allah to change, sometimes it's visible and sometimes it's invisible.

Likewise, when young Ibrahim *"...saw the moon rising he said: "This is my Lord." But after the moon had set, he said: "If my Lord had not guided me, I would have been one of those who went astray." (Al An'aam: 6: 77)*

It turned out that it was the same here too, when young Ibrahim saw the moon, it turned out that the moon was circling the earth, when the moon had been around for 28-29 days, the moon was not visible from the earth's surface.

Now, according to the thought of young Ibrahim, it is impossible for Allah, first to be seen, then after 28-29 days, the hidden moon is not visible.

Furthermore, young Ibrahim *"...saw the sunrise, he said: "This is my Lord, this is the greater one." So when the sun was setting, he said: "O my people, indeed I am free from what you associate with. (Al An'aam: 6: 78)*

Here too young Ibrahim, saw and thought, maybe Allah is great and shining like the sun. But when the earth turned his back to the sun, young Ibrahim did not see the sun, and it was pitch dark outside.

Now, young Ibrahim, thought, it is impossible for Allah to disappear in just a few hours.

STAR, MOON AND SUN BORN BECAUSE OF MY SPIRIT

Now, it turns out that young Ibrahim understood and realized the existence of Allah using the symbols of the star, moon and sun.

Why did young Ibrahim to understand and realize the existence of Allah used the way of thinking about *"...signs of majesty in the skys and the earth...(Al An'aam: 6: 75)?*

The answer is

Hidden in the secret behind the verse: *"...I go to my Lord, and He will guide me. (Ash Shaaffaat: 37:99)*

Now, the guidance that comes from Allah is so that young Ibrahim *"...including those who believe. (Al An'aam: 6:75)*

So, Allah's instructions are presented as symbols in the form of stars, moons and suns.

What exactly is inside the stars, moon and sun?

The answer is,

Hidden in the secret behind the verse: *"...I breathed into him my spirit...(Shaad: 38: 72)*

So, actually what is in the stars, moon and sun is *"...my spirit...(Shaad: 38:72)* Because *"...my spirit...(Shaad: 38:72)* is built from hydrogen atoms, oxygen atoms, nitrogen atoms and carbon atoms.

Where *"...My spirit...(Shaad : 38:72)* is born through the energy of Allah.

Without hydrogen atoms, oxygen atoms, nitrogen atoms and carbon atoms there would be no stars, moon and sun.

Or in other words without *"... my spirit... (Shaad: 38: 72)* it is impossible to create stars, moons and suns.

So, to understand about Allah, humans must understand about Allah's energy and *"...my spirit...(Shaad: 38: 72)*

PROPHET IBRAHIM UNDERSTAND ABOUT ALLAH THROUGH ALLAH'S ENERGY AND MY SPIRIT

Well, now it has been revealed, where the youth of Abraham has reached the level of surrender to Allah *"... his Lord said to him: "Submit, be obedient!" Ibrahim replied: "I submit obediently to the Lord of the worlds". (Al Baqarah: 2:131)*

Why did young Ibrahim *"... submit obediently to the Lord of the worlds". (Al Baqarah: 2:131) ?*

The answer is

Hidden in the secret behind the verse: *"... We showed Abraham signs of majesty in the skys and the earth... (Al An'aam: 6: 75)* finally young Ibrahim *"... including those who believe. (Al An'aam: 6:75)*
An'am : 6:75)

CONCLUSION

Based on the description above, we can conclude that the secret hidden behind the verse: *"...We showed Ibrahim the signs of majesty in the skys and the earth and that he might be one of those who believe. (Al An'aam: 6:75)*

Apparently, Allah has described to humans that what is in the skyss and on earth are signs for humans to understand the energy of Allah and my spirit.
