**ABSTRACT**

Before the author writes down the issue of whether Adam was created in paradise on this earth, if it is true, in which part of the earth, paradise where Adam was created, the writer first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret of whether Adam was created in paradise on this earth, if it is true, in which part of the earth, paradise where Adam was created, based on the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that open Allah's secrets about whether Adam was created in paradise on this earth, if it is true, in which part of the earth, paradise where Adam was created, namely the verses:

*"And verily We have created man from dry clay from black mud which was given shape. (Al Hijr: 15: 26)*

*"(And Allah said): "O Adam, dwell you and your wife in Paradise and both of you eat (fruit) wherever you like, and do not both of you approach this tree, then both of you become of those who unjust." (Al A'raaf: 7: 19)*

*"Then both of them were derailed by the devil from paradise and brought out from their original state and We said: "Come down! some of you are enemies to others, and for you there is a dwelling place on earth, and the pleasures of living to an appointed time." (Al Baqarah: 2:36)*

*And We said: "O Adam, dwell in this paradise for you and your wife, and eat from its abundant good food wherever you like, and do not approach this tree, which causes you to be among the wrongdoers. (Al Baqarah: 2:35)*

*"So both of them ate from the fruit of the tree, then their nakedness became visible to both of them and they began to cover them with the leaves of paradise, and Adam disobeyed God and went astray (Thaahaa: 20:121)*

*"So We said: "O Adam, verily this is an enemy to you and to your wife, so do not let him bring you both out of Paradise, which will cause you harm (Thaahaa: 20: 117)*

*"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)*

*"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)*

*"so that He may admit the believing men and women into Paradise under which rivers flow, they will abide therein and so that He may cover their faults. And that is a great advantage in the sight of Allah (Al-Qur'an). Fath : 48: 5)*

*"Allah is the light of the skys and the earth...Light upon light...(An Nuur: 24:35)*

In an effort to open the veil of Allah's secret about whether Adam was created in paradise on this earth, if it is true, in which part of the earth, paradise where Adam was created, the author uses the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## **HYPOTHESIS**

Here the author puts forward the hypothesis that Adam was created in heaven on earth, in a beautiful place near a lake whose water is fresh and clear and wide, Lake Victoria, the largest lake in East Africa on the border between Tanzania, Uganda and Kenya, which has a vast area. 68,870 square kilometers, is the largest lake in Africa and fresh water, the second largest in the world, based on Deoxyribonucleic acid (DNA)

## **DEOXYRIBONUCLEIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **WAS ADAM REALLY CREATED IN PARADISE ON THIS EARTH, IF TRUE, IN WHICH PARTS OF EARTH, PARADISE WHERE ADAM WAS CREATED**

Well now, we are still trying to focus our minds to reveal the secret hidden behind the verse: *"... We have created man from dry clay from black mud... (Al Hizr: 15: 26) "...We say : "O Adam, dwell by you and your wife this paradise, and eat the food is much more good wherever you like ... (Al Baqarah: 2: 35)*

Apparently, here, Allah has declared *"... We have created humans from dry clay from black mud... (Al Hizr: 15: 26)*

That is, Allah has created man from *"...soil...(Al Hizr: 15: 26)*, where in *"...soil...(Al Hizr: 15: 26)* contains hydrogen atoms, carbon atoms, nitrogen and oxygen atoms.

Now, it turns out that in paradise there are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

If in paradise there are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then on earth there are also hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Or in other words, in paradise and on earth there are similarities in terms of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Now, the question arises,

What exactly is the difference between paradise and earth?

The answer is hidden in the secret behind the verse: *"... I have perfected the event, and have breathed into it my spirit... (Al Hijr: 15: 29)*

Well, it turns out that in paradise, humans can live, by having a body, where the human body is made up of 7 000000000 000000000 000000000 atoms, including hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

But to live billions of billions of billions of billions of billions of years in paradise, only *"...my spirit...(Al Hijr: 15: 29)* or *"...Allah's spirit...(Al Hijr: 15: 29)* alone can live.

So, actually, because paradise and earth contain hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, there is actually a similarity between life in paradise and on earth. Only life on earth, humans have a body that is made up of 7 000000000 000000000 000000000 atoms and *"...my spirit...(Al Hijr: 15: 29)* or *"...Allah's spirit...(Al Hijr: 15: 29)*. Whereas in paradise only *"...my spirit...(Al Hijr: 15: 29)* or *"...Allah's spirit...(Al Hijr: 15: 29)*.

So, now revealed the secret of why Adam was created in paradise, then why Adam was brought out of paradise.

Well, Adam was created in paradise, because in paradise has hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, only to live billions of billions of billions of billions of billions of years in paradise, only *"...my spirit...(Al Hijr: 15: 29)* or *"...Allah's spirit...(Al Hijr: 15: 29)* only can live.

Then Adam had to come out of paradise, because Adam still had a body built by 7 000000000 000000000 000000000 atoms and *"...my spirit...(Al Hijr: 15: 29)* or *"...Allah's spirit...(Al Hijr: 15: 29)* Adam's body which was built by 7 000000000 000000000 000000000 atoms did not last long.

So, actually, Adam and his wife were expelled from paradise because Adam and his wife had a body made up of 7 000000000 000000000 000000000 atoms and *"...my spirit...(Al Hijr: 15: 29)* or *"...Allah's spirit...(Al Hijr: 15: 29)*

So, not because Adam and his wife *"...eat from the fruit of the tree...(Thaahaa: 20:121)* which Allah forbade *"...to approach the tree...(Al Baqarah: 2:35)*, Adam and his wife were expelled from heaven.

Adam and his wife eat or not eat *"...the fruit of the tree...(Thaahaa: 20:121)* finally Adam and his wife have to come out of paradise too, because Adam and his wife still have a body built by 7 000000000 000000000 000000000 atoms and *"...my spirit...(Al Hijr: 15: 29)* or *"...Allah's spirit...(Al Hijr: 15: 29)*

Then the question is,

Where exactly is paradise where Adam was created?

Well, based on Allah's declaration about the state of paradise *"... We say: "O Adam, dwell in this paradise with you and your wife, and eat more good food wherever you like... (Al Baqarah: 2: 2: 35) "... which flows beneath it rivers... (Al Fath: 48: 5)*

It turns out that Adam was estimated to have lived 236000 years ago, when Allah *"...said: "Come down!...for you there is a dwelling place on earth...(Al Baqarah: 2:36)*

Well, it turns out that the paradise left by Adam and his wife is on earth in a beautiful place near a lake where the water is fresh and clear and wide.

If now the lake is called Lake Victoria, the largest lake in East Africa on the border between Tanzania, Uganda and Kenya, which covers an area of 68,870 square kilometers. This lake is the largest lake in Africa and the water is fresh, the second largest in the world.

The place around Lake Victoria is like paradise. Lake with fresh water, trees and plants with various kinds of fruits.

## CONCLUSION

Based on the description above, we can conclude that the secret hidden behind the verse: *"... We have created man from dry clay from black mud... (Al Hjr: 15: 26) "...We say : "O Adam, dwell by you and your wife this paradise, and eat the food is much more good wherever you like ... (Al Baqarah: 2: 35)*

Apparently, here, Allah has declared *"... We have created humans from dry clay from black mud... (Al Hjr: 15: 26)*

That is, Allah has created man from *"...soil...(Al Hjr: 15: 26)*, where in *"...soil...(Al Hjr: 15: 26)* contains hydrogen atoms, carbon atoms, nitrogen and oxygen atoms.

Now, it turns out that in paradise there are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

If in paradise there are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then on earth there are also hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

So, actually, Adam and his wife were expelled from paradise because Adam and his wife had a body made up of **7 000000000 000000000 000000000** atoms and *"...my spirit...(Al Hijr: 15: 29)* or *"...Allah's spirit...(Al Hijr: 15: 29)*
