ABSTRACT

First of all, by asking Allah's forgiveness, here I am trying to reveal the signs of Allah's greatness regarding Allah's secret, what about Allah, Allah alone, if my spirit, paradise, hell, seven skys disappear, because the atomic energy that binds quarks disappears, seen from the point of view of photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA)

The signs of Allah's greatness regarding Allah's secrets, what about Allah, Allah alone, when my spirit, paradise, hell, seven skys disappear, because the atomic energy that binds quarks disappears, is found in several verses, namely:

"Allah, there is no god but He Who Lives eternally and continually takes care of; neither sleeps nor sleeps. To Him belongs what is in the heavens and the earth. No one can intercede with Allah without His permission? Allah knows what is before them and behind them, and they know nothing of Allah's knowledge except what He wills. Allah's seat covers the heavens and the earth. And Allah does not find it difficult to maintain them, and Allah is Most High, Most Merciful. Great.(Al Baqarah: 2:255)

"He is Allah, Who created all that is on earth for you and He willed the heavens, then He made the seven skys. And He is All-Knowing of all things. (Al Baqarah: 2:29)

"... Allah creates what He wills, indeed Allah has power over all things. (An Nuur: 24: 45)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"The angels and the spirit ascend to God in a day whose levels are fifty thousand years Al Ma'aarij (70:4)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"Indeed, the worst of animals in the sight of Allah are those who are deaf and deaf who do not understand anything. (Al Anfaal: 8: 22)

In an effort to open the veil of Allah's greatness regarding Allah's secrets, what about Allah, Allah alone, if my spirit, paradise, hell, and seven skys disappear, because the atomic energy that binds quarks disappears, I use the basis of photons, quarks and the molecular structure of nucleic acids or nucleic acids. deoxyribonucleic acid (DNA).

HYPOTHESES

Here I propose a hypothesis if my spirit, paradise, hell, seven skys disappear, because the atomic energy that binds quarks disappears, then Allah with Allah's energy will create a new sky with all its contents, judging from the photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms. 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

MY SPIRIT, PARADISE, HELL, THE SEVEN SKYS AND ALL THEIR CONTENTS AFTER REACHING THE AGE OF 10 00000000 00000000 00000000 00000000 00000000 00000000 00000000 YEARS WILL DISAPPEAR, BECAUSE THE NUCLEAR ENERGY THAT BINDS QUARKS DISAPPEARS

Now, we are still concentrating on trying to uncover the secrets that are stored in the verse: *"Allah, there is no God but He Who Lives eternally... (Al Baqarah: 2:255)*

It turns out *"Allah... Life is eternal... (Al Baqarah: 2:255)*

So, now the question arises,

After *"...my spirit... (Shaad : 38:72)*, hell, paradise, the seven skys and everything in them reaches the age of 10 00000000 00000000 00000000 00000000 00000000 00000000 00000000 00000000 years, it will disappear due to nuclear power. the binding of the quarks in the atom disappears, leaving only the quarks.

Or in other words, the nuclear energy that binds the quarks in the atom, returns to Allah's energy

and Allah's energy returns to Allah.

HOW TO ACTUALLY WITH ALLAH AFTER ALLAH'S CREATION IS GONE, THAT LEFT ALLAH'S ENERGY AND QUARK

Now, let's unveil the secret behind the verse: Allah *"...The Everlasting Life...(Al Baqarah: 2:255) "He is the One...The End...(Al Hadiid: 57:3)"...Allah creates what He wills, verily Allah has power over all things. (An Nur: 24:45)*

Apparently, Allah will not be alone, even though Allah's creation, the seven skys, paradise, hell and *"... My spirit... (Shaad: 38: 72)* disappears, what remains is only quarks and Allah's energy, then Allah will create the sky again. new one with Allah's energy *"... Allah creates what He wills... (An Nuur: 24: 45)*

IF ALLAH CREATES A NEW SKY, AFTER THE SEVEN SKYS THAT NOW DISAPPEAR, THEN MEANS THE NEW SKY IS THE INCARNATION OF THE OLD SKY

Now, if Allah creates a new sky, after the seven skys that have now disappeared, it means that in fact, the seven skys that exist now are, incarnations of the previously existing skys that have disappeared.

Or in other words, the sky disappears, a new sky is created, then a new sky disappears, a new sky is created, and so on.

Now the question arises,

Why does Allah keep creating new skies when the old sky disappears?

The answer is hidden in the secret behind the verse: *"...He Who Lives eternally and continuously takes care of... (Al Baqarah: 2: 55)*

So, Allah will not be alone, *"... Allah creates what He wills... (An Nuur: 24: 45)*

CONCLUSION

Based on the description above, we can conclude that the secrets that are stored in the verse: *"Allah, there is no God but He Who Lives eternally... (Al Baqarah: 2:255)*

It turns out *"Allah... Life is eternal... (Al Baqarah: 2:255)*

So, now the question arises,

After *"...my spirit... (Shaad : 38:72)*, hell, paradise, the seven skys and everything in them reaches the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years, it will disappear due to nuclear power. the binding of the quarks in the atom disappears, leaving only the quarks.

Or in other words, the nuclear energy that binds the quarks in the atom, returns to Allah's energy and Allah's energy returns to Allah.

Now, let's unveil the secret behind the verse: Allah *"...The Everlasting Life...(Al Baqarah: 2:255) "He is the One...The End...(Al Hadiid: 57:3)"...Allah creates what He wills, verily Allah has power over all things. (An Nur: 24:45)*

Apparently, Allah will not be alone, even though Allah's creation, the seven skys, paradise, hell and *"... My spirit... (Shaad: 38: 72)* disappears, what remains is only quarks and Allah's energy, then Allah will create the sky again. new one with Allah's energy *"... Allah creates what He wills... (An Nuur: 24: 45)*

Now, if Allah creates a new sky, after the seven skys that have now disappeared, it means that in fact, the seven skys that exist now are, incarnations of the previously existing skys that have disappeared.

Or in other words, the sky disappears, a new sky is created, then a new sky disappears, a new sky is created, and so on.

Now the question arises,

Why does Allah keep creating new skies when the old sky disappears?

The answer is hidden in the secret behind the verse: *"...He Who Lives eternally and continuously takes care of... (Al Baqarah: 2: 55)*

So, Allah will not be alone, *"... Allah creates what He wills... (An Nuur: 24: 45)*
