ABSTRACT

Before I write down the problem of what is actually revealed by Allah to each sky to regulate their respective interests, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret of what is actually revealed by Allah to each sky to regulate their own interests, based on Deoxyribonucleic acid (DNA)

There are several verses that become Allah's secret unlocking tool about what Allah actually revealed to each sky to regulate their respective interests, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)

"And verily We have created man from an essence from clay. (Al Mu'minuun: 23:12)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a man and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth.(Al Baqarah: 2:186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"And when We said to the angels: "Prostrate to Adam," then they bow down except Satan; he is reluctant and arrogant and is one of the disbelievers. (Al Baqarah: 2:34)

"He arranges affairs from the skys to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)

"Angels and spirits ascend to God in a day whose measure is fifty thousand years." (Al Ma'aarij: 70:4)

"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2:115)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)

"Angels and spirits descend with the permission of their Lord to manage all affairs (Al Qadr: 97: 4)

"And they ask you about the spirit. Say: "The spirit belongs to my Lord, and knowledge is not given to you but a little." (Al Israa ': 17: 85)

"Indeed, We have adorned the skys near the stars, and We have made the stars casters of the devil, and We have prepared for them the torment of a fiery hell. (Al Mulk: 67: 5)

"And We did not create the skys and the earth and everything between them by playing around (Al Anbiyaa': 21:16)

"So He made it seven skys in two periods. He revealed in each sky its affairs. And We adorn the near sky with bright stars and We take care of it as well as possible. Such is the provision of the Mighty, All-Knowing. (Fushshilat :41:12)

"Allah created the heavens and the earth with rights. Verily in that are the signs of Allah's power for the believers (Al 'Ankabuut: 29: 44)

"It is He Who created the skys and the earth in six days: Then He resides on the Throne. He knows what enters the earth and what comes out of it and what descends from the heavens and what ascends to Him. And He is with you in wherever you are. And Allah is All-Seeing of what you do. (Al Hadid: 57:4)

"The seven skys, the earth and all that is in it glorify Allah. And there is nothing but glorify Him by praising Him, but you all do not understand their prayer beads. Indeed, He is Most Forbearing, Most Forgiving. (Al Israa': 17 :44)

"And the thunder glorifies in praise of Allah, the angels fear Him, and Allah sends thunderbolts and strikes them upon whom He wills, and they argue about Allah, and He is the Lord, the Most severe in torment. (Ar Ra'd: 13:13)

"It is not possible for the sun to find the moon and the night cannot precede the day. And each one revolves in its orbit. (Yaasiin: 36:40)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

In an effort to open the veil of Allah's secret about what is actually revealed by Allah to each sky to regulate their respective interests, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid

or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose a hypothesis revealed by Allah to each sky to regulate their respective interests, is to maintain "... *balance (Al Mulk: 67: 3)* among the stars and galaxies, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

ALLAH REVEALS TO EVERY SKY TO KEEP THE BALANCE BETWEEN THE MOON, PLANET, STARS AND GALAXY IN EVERY SKY WITH ATTRACTION OR GRAVITY

Now, we are still concentrating on uncovering the secrets contained behind the verses: "... *the seven skys in layers... which are... balanced... (Al Mulk: 67: 3)*".. *He reveals in each sky his affairs ... (Fushshilat: 41: 12)* "... *the bright stars... We take care of them as well as possible... (Fushshilat: 41: 12)*" *seven, the earth and all that is in it glorify Allah...(Al Israa': 17:44)*"...*the thunder glorifies with the praise of Allah...(Ar Ra'd: 13:13)*

It turns out that every sky above which there is a moon around the planet, the planets around the stars, the stars form a collection of stars, into galaxies. Galaxies form clusters of galaxies into galaxy clusters.

Well, this is what is called the sky, which is actually the sky is a stretch of space above which there are galaxies, each galaxy consists of millions of stars, each star is surrounded by planets, each

planet is surrounded by the moon.

So each sky has billions of galaxies and in the seven skys there are **100 000 000 000** galaxies and **15 010 000 000 000 000 000** stars,

With billions of galaxies and billions of billions of stars, everything must be arranged, so as not to collide with one star with another star.

Well, this is where Allah *"...reveals in each sky his interest...(Fushshilat: 41:12)* namely in the form of gravity, meaning the attraction of the moon, the attraction of the planets, the attraction of the stars and the attraction of the galaxy.

With the existence of gravity, the moon and stars orbit in their respective paths regularly, not colliding with each other."*...bright stars...We take good care of them...(Fushshilat : 41: 12)"...each one circulates in its own orbit (Yaasiin: 36: 40)*

IN EVERY SKY IS KEEP BALANCE IN THE USE OF HYDROGEN ATOMS, FOR FUEL BILLIONS OF BILLION STARS

Well, with the existence of *"...bright stars...(Fushshilat: 41:12)* require hydrogen atoms to fuel *"...the bright stars...(Fushshilat: 41:12)* it is.

THE MOON, PLANET, STARS ALL PRAISE ALLAH, IN THE FORM OF KEEPING BALANCE WITH GRAVITY AND KEEPING IN THEIR CIRCULAR LINE

Well, *"The seven skys, the earth and all that is in it glorify Allah ... (Al Israa ': 17: 44)*

Of course, the way the moon, planets and stars glorify in the form of maintaining balance and staying in their respective orbits.

Including *"... the thunder glorifies by praising Allah... (Ar Ra'd: 13: 13)*

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verses: *"... the seven skys in layers... which are... balanced... (Al Mulk: 67: 3)".. He reveals in each sky his affairs ... (Fushshilat: 41: 12) "... the bright stars... We take care of them as well as possible... (Fushshilat: 41: 12)" seven, the earth and all that is in it glorify Allah...(Al Israa': 17:44)"...the thunder glorifies with the praise of Allah...(Ar Ra'd: 13:13)*

It turns out that every sky above which there is a moon around the planet, the planets around the stars, the stars form a collection of stars, into galaxies. Galaxies form clusters of galaxies into galaxy clusters.

Well, this is what is called the sky, which is actually the sky is a stretch of space above which there are galaxies, each galaxy consists of millions of stars, each star is surrounded by planets, each planet is surrounded by the moon.

So each sky has billions of galaxies and in the seven skys there are **100 000 000 000** galaxies and **15 010 000 000 000 000 000** stars,

With billions of galaxies and billions of billions of stars, everything must be arranged, so as not to

collide with one star with another star.

Well, this is where Allah “*...reveals in each sky his interest...(Fushshilat: 41:12)* namely in the form of gravity, meaning the attraction of the moon, the attraction of the planets, the attraction of the stars and the attraction of the galaxy.

With the existence of gravity, the moon and stars orbit in their respective paths regularly, not colliding with each other.”*...bright stars... We take good care of them...(Fushshilat : 41: 12)”...each one circulates in its own orbit (Yaasiin: 36: 40)*

Well, with the existence of “*...bright stars...(Fushshilat: 41:12)* require hydrogen atoms to fuel “*...the bright stars...(Fushshilat: 41:12)* it is.

Well, “*The seven skies, the earth and all that is in it glorify Allah ... (Al Israa ' : 17: 44)*

Of course, the way the moon, planets and stars glorify in the form of maintaining balance and staying in their respective orbits.

Including “*... the thunder glorifies by praising Allah... (Ar Ra'd: 13: 13)*
