**ABSTRACT**

Before I write down what problems are actually revealed by Allah to the skys to manage their respective affairs, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret of what is actually revealed by Allah to the skys to regulate their respective affairs, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that serve as tools for revealing Allah's secrets about what Allah actually revealed to the skys to regulate their respective affairs, namely the following verses:

*"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)*

*"Read in the name of your Lord Who created (Al 'Alaq: 96: 1) "He has created man from a clot of blood. (Al 'Alaq: 96: 2) "The one who teaches by means of kalam (Al 'Alaq: 96: 4)*

*"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)*

*"And verily We have created man from an essence from clay. (Al Mu'minuun: 23:12)*

*"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)*

*"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)*

*"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)*

*"And if We made the apostle an angel, We would certainly have made him a man and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)*

*"But Allah acknowledges the Qur'an which He has revealed to you. Allah has sent it down with His knowledge; and the angels are witnesses. It is enough for Allah to acknowledge it. (An Nisaa ': 4: 166)*

*"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)*

*"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)*

*"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth.(Al Baqarah: 2:186)*

*"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)*

*"And when We said to the angels: "Prostrate to Adam," then they bow down except Satan; he is reluctant and arrogant and is one of the disbelievers. (Al Baqarah: 2:34)*

*"He arranges affairs from the skys to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)*

*"Angels and spirits ascend to God in a day whose measure is fifty thousand years." (Al Ma'aarij: 70:4)*

*"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)*

*"It is He who has made the earth a bed for you and the sky a roof, and He sends down water from the sky, then He produces with it all the fruit as a sustenance for you; therefore do not establish partners with Allah, while you know. Al Baqarah : 2:22)*

*"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2:115)*

*"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)*

*"So He made it seven skys in two periods. He revealed in each sky its affairs. And We adorn the near sky with bright stars and We take care of it as well as possible. Such is the provision of the Mighty, All-Knowing. (Fushshilat :41:12)*

*"Angels and spirits descend with the permission of their Lord to manage all affairs (Al Qadr: 97: 4)*

*"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)*

In an effort to open the veil of Allah's secret about what is actually revealed by Allah to the skys to regulate their respective affairs, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## **HYPOTHESIS**

Here I propose the hypothesis that Allah revealed to the skys to regulate their respective affairs in the form of natural laws, which apply throughout the seven skys, from the point of view of Deoxyribonucleic acid (DNA).

## **PHOTON**

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## **QUARK**

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body

of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

## **DEOXYRIBONUCLIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

## **WHAT ALLAH REVEALS TO THE SKY TO TAKE CARE OF EACH ONE'S AFFAIRS**

Now, we are still focusing our minds on uncovering the secrets contained behind the verses: *"...He made it into the seven skys in two times. He revealed in each sky its affairs. And We adorn the sky that is close to the stars that brilliant and We take care of it as well as possible ... (Fushshilat: 41: 12) "... a day whose levels are fifty thousand years (Al Ma'aarij: 70:4)*

Apparently, here Allah has declared that every sky has received revelations to regulate their respective affairs, and *"... the sky that is near... (Fushshilat: 41: 12)* That is, the sky above which is the Milky Way galaxy, decorated with *"... with brilliant stars...(Fushshilat : 41:12)*

What is meant by *"...near sky...(Fushshilat: 41:12)* is the sky or expanse of space, where the Milky Way galaxy is located, in which there are stars, sun, planets, earth and moon where humans and other creatures live. others live and live.

In the Milky Way galaxy there are about 1000 star groups, each group consisting of 100 stars. And there are about 150 star clusters, each of which consists of 1000 000 stars.

So, actually, just now in the Milky Way galaxy there are already 150 100 000 stars, including the sun which the earth and other planets revolve around the sun.

While in the seven skys there are about 100 000 000 000 galaxies. If you count how many stars there are, you will find around 15 010 000 000 000 000 000 stars,

## **15 010 000 000 000 000 STARS HAVE GET REVELATION FROM ALLAH TO MANAGE EACH AFFAIRS**

Now, what is meant by the revelation delivered by Allah to the stars or to the seven skys or the expanse of the room above which there are 15 010 000 000 000 000 000 stars is that all these stars must submit and obey Allah's laws or natural laws.

Each star, planet, moon, has its own attraction or what is called gravity, so that they do not collide with each other. The stars form clusters and are at a distance that does not collide with each other. There are planets that revolve around the star, just like the planets and the earth around the sun.

All the stars, planets and the earth and the moon run according to the laws of Allah or the laws of nature.

This is what Allah means by "*...He reveals to the skys his affairs.... Fushshilat : 41:12*)

All galaxies in which there are stars, planets and the earth and the moon run according to the laws of Allah or the laws of nature.

## CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verses: "*...He made it into the seven skys in two times. He revealed in each sky its affairs. And We adorn the sky that is close to the stars that brilliant and We take care of it as well as possible ... (Fushshilat: 41: 12) "... a day whose levels are fifty thousand years (Al Ma'aarij: 70:4)*

Apparently, here Allah has declared that every sky has received revelations to regulate their respective affairs, and "*... the sky that is near... (Fushshilat: 41: 12)* That is, the sky above which is the Milky Way galaxy, decorated with "*... with brilliant stars...(Fushshilat : 41:12)*

What is meant by "*...near sky...(Fushshilat: 41:12)* is the sky or expanse of space, where the Milky Way galaxy is located, in which there are stars, sun, planets, earth and moon where humans and other creatures live. others live and live.

In the Milky Way galaxy there are about 1000 star groups, each group consisting of 100 stars. And there are about 150 star clusters, each of which consists of 1000 000 stars.

So, actually, just now in the Milky Way galaxy there are already 150 100 000 stars, including the sun which the earth and other planets revolve around the sun.

While in the seven skys there are about 100 000 000 000 galaxies. If you count how many stars there are, you will find around 15 010 000 000 000 000 000 000 stars,

Now, what is meant by the revelation delivered by Allah to the stars or to the seven skys or the expanse of the room above which there are 15 010 000 000 000 000 000 stars is that all these stars must submit and obey Allah's laws or natural laws.

Each star, planet, moon, has its own attraction or what is called gravity, so that they do not collide with each other. The stars form clusters and are at a distance that does not collide with each other. There are planets that revolve around the star, just like the planets and the earth around the sun.

All the stars, planets and the earth and the moon run according to the laws of Allah or the laws of nature.

This is what Allah means by "*...He reveals to the skys his affairs.... Fushshilat : 41:12*)

All galaxies in which there are stars, planets and the earth and the moon run according to the laws of Allah or the laws of nature.
