**ABSTRACT**

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of the greatness of Allah SWT regarding the secret of, what is actually meant by Allah, Allah created humans based on nature, from the point of view of photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (deoxyribonucleic acid). DNA

Signs of Allah's greatness regarding what Allah actually meant, Allah created man based on nature, are found in several verses, namely:

*"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)*

*"So turn your face straight to the religion of Allah; it is the nature of Allah who has created man according to that nature. There is no change in the nature of Allah. The religion is straight; but most people do not know (Ar Ruum: 30: 30)*

*"The angels and Gabriel ascended to God in a day the measure of which was fifty thousand years (Al Ma'aarij: 70:4)*

*"He is the First and the Last, the Outward and the Inward, and He is All-Knowing of all things. (Al Hadid: 57:3)*

*"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)*

*"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)*

*"And Mary, the daughter of Imran, who kept her honor, so We breathed into her some of Our spirits, and she confirmed the words of her Lord and His Books, and she was one of the obedient ones. (At Tahrir: 66:12)*

*"Allah is the light of the skys and the earth...Light upon light...(An Nuur: 24:35)*

*"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth (Al Baqarah: 2: 186)*

*"... We are closer to him than his jugular vein, (Qaf: 50:16)*

*"He is Allah, Who created all that is on earth for you and He willed the heavens, then He made the seven heavens. And He is All-Knowing of all things. (Al Baqarah: 2:29)*

*"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)*

In an effort to unveil the greatness of Allah SWT regarding what Allah actually means by Allah,

Allah created humans based on nature, I used the basis of photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

## **HYPOTHESIS**

Here the author proposes the hypothesis that Allah created humans based on nature where nature is *"... my spirit... (Al Hijr: 15: 29)* which is born from the energy of Allah that animates humans and all creatures, seen from photons, quarks and the molecular structure of acids. nucleic acid or deoxyribonucleic acid (DNA)?

## **PHOTON**

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## **QUARK**

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

## **DEOXYRIBONUCLEIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms. 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **FITRAH IS MY SPIRIT BORN FROM ALLAH'S ENERGY THAT IS THE SOURCE OF LIFE FOR THE UNIVERSE AND ALL ITS CONTENTS**

Now, we are still concentrating on uncovering the secret behind the verse: *"...it is the nature of Allah who has created man according to that nature. There is no change in the nature of Allah .. (Ar Ruum: 30: 30)*

It turns out that Allah has created humans and everything in this universe based on *"...fitrah of Allah...(Ar Ruum: 30:30)*

Now the question arises,

What exactly is meant by *"...fitrah of Allah...(Ar Ruum: 30:30)?*  
The answer is

Hidden in the secret behind the verse: *"...I perfected the scene and I breathed into him My spirit..." (Shaad: 38: 72)*

Well, it turns out that *"...fitrah of Allah...(Ar Ruum: 30:30)* is *"...my spirit..." (Shaad: 38:72)* which is the source of life for humans and other creatures of Allah.

## **MY SPIRIT IS THE FITRAH OF ALLAH AND THE SOURCE OF TAUHID AND RELIGION**

Now, hidden in the secret behind the verse: *"...He perfected and breathed into it His spirit and He made for you hearing, sight and heart... (As Sajdah: 32: 9)*

It turns out that *"... my spirit..." (Shaad: 38: 72)* which builds the human body *"... He made for you hearing, sight and heart... (As Sajdah: 32: 9)*

Or in other words, *"... my spirit..." (Shaad: 38: 72)* is Deoxyribonucleic acid (DNA), which based on human DNA is composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

So, in *"... my spirit..." (Shaad: 38: 72)* contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Now it's open, Allah's energy that gave birth to quarks, where quarks become the building of *"...my spirit..." (Shaad: 38: 72)* which contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

## **ALLAH'S ENERGY THAT MAKES HUMAN LIFE AND ALL CREATURES, THROUGH ALLAH'S ENERGY MY SPIRIT WAS BORN THROUGH THE FITRAH OF ALLAH**

Now, let's unveil the secrets that are hidden behind the verse: *"...We breathed into her womb some of our spirits...(At Tahrir: 66:12) "...I breathed into her my spirit...(Shaad: 38: 72)*

Apparently, here Allah has declared that Allah's energy that gave birth to *"... my spirit..." (Shaad: 38: 72)* revives humans who are still in the form of fetuses in the womb, *"... We breathed some of the soul into their wombs. We...(At Tahrir : 66:12)*

Now, it is increasingly being revealed that in fact Allah gives life to humans through Allah's energy, just as Allah revives quarks through Allah's energy.

Allah's energy is the source of life in the universe and all its contents.

Or in other words, Allah's energy gives birth to *"...my spirit..." (Shaad: 38: 72)* which becomes *"...fitrah of Allah... (Ar Ruum: 30: 30)* the source of monotheism and the source of human belief. to the One.

The One, because there is no more source of Allah's energy in this universe, except Allah's energy which comes from Allah.

## **CONCLUSION**

Based on the description above, we can conclude that the secret behind the verse: *"...it is the nature of Allah who has created man according to that nature. There is no change in the nature of Allah .. (Ar Ruum: 30: 30)*

It turns out that Allah has created humans and everything in this universe based on *"...fitrah of*

*Allah...(Ar Ruum: 30:30)*

Now the question arises,

What exactly is meant by "*...fitrah of Allah...(Ar Ruum: 30:30)*?"

The answer is

Hidden in the secret behind the verse: "*...I perfected the scene and I breathed into him My spirit...*" (*Shaad: 38: 72*)

Well, it turns out that "*...fitrah of Allah...(Ar Ruum: 30:30)* is "*...my spirit...*" (*Shaad: 38:72*) which is the source of life for humans and other creatures of Allah.

Now, hidden in the secret behind the verse: "*...He perfected and breathed into it His spirit and He made for you hearing, sight and heart...*" (*As Sajdah: 32: 9*)

It turns out that "*... my spirit...*" (*Shaad: 38: 72*) which builds the human body "*... He made for you hearing, sight and heart...*" (*As Sajdah: 32: 9*)

Or in other words, "*... my spirit...*" (*Shaad: 38: 72*) is Deoxyribonucleic acid (DNA), which based on human DNA is composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

So, in "*... my spirit...*" (*Shaad: 38: 72*) contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Now it's open, Allah's energy that gave birth to quarks, where quarks become the building of "*...my spirit...*" (*Shaad: 38: 72*) which contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Now, let's unveil the secrets that are hidden behind the verse: "*...We breathed into her womb some of our spirits...(At Tahrir: 66:12)*" "*...I breathed into her my spirit...(Shaad: 38: 72)*

Apparently, here Allah has declared that Allah's energy that gave birth to "*... my spirit...*" (*Shaad: 38: 72*) revives humans who are still in the form of fetuses in the womb, "*... We breathed some of the soul into their wombs. We...(At Tahrir : 66:12)*

Now, it is increasingly being revealed that in fact Allah gives life to humans through Allah's energy, just as Allah revives quarks through Allah's energy.

Allah's energy is the source of life in the universe and all its contents.

Or in other words, Allah's energy gives birth to "*...my spirit...*" (*Shaad: 38: 72*) which becomes "*...fitrah of Allah... (Ar Ruum: 30: 30)* the source of monotheism and the source of human belief. to the One.

The One, because there is no more source of Allah's energy in this universe, except Allah's energy which comes from Allah.
