UNLOCKING ALLAH'S SECRETS, WHAT ALLAH REALLY MEANS,
THEY ARE ETERNALLY IN PARADISE AND IN HELL

ABSTRACT

First of all, by asking Allah's forgiveness, here I am trying to reveal the signs of Allah's greatness regarding the secret of what Allah actually means, they are eternal in paradise and in hell, seen from the point of view of photons, quarks and the molecular structure of nucleic acids. or deoxyribonucleic acid (DNA)

Signs of the greatness of Allah SWT regarding, what exactly is meant by Allah, they are eternal in paradise and in hell, are found in several verses, namely:

"Allah, there is no god but He Who Lives eternally and continually takes care of; neither sleeps nor sleeps. To Him belongs what is in the heavens and the earth. No one can intercede with Allah without His permission? Allah knows what is before them and behind them, and they know nothing of Allah's knowledge except what He wills. Allah's seat covers the heavens and the earth. And Allah does not find it difficult to maintain them, and Allah is Most High, Most Merciful. Great.(Al Baqarah: 2:255)

"He is Allah, Who created all that is on earth for you and He willed the skys, then He made the seven skys. And He is All-Knowing of all things. (Al Baqarah: 2:29)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"The angels and the spirit (Gabriel) ascend to God in a day whose levels are fifty thousand years Al Ma'aarij (70:4)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"And those who disbelieve and deny Our signs, they are the inhabitants of Hell, they will abide in it forever. And that is the worst place to return. (At Taghaabun: 64:10)

"The day Allah gathers you on the day of gathering, that is the day your faults will be revealed. And whoever believes in Allah and does righteous deeds, Allah will cover his faults and admit them to Jannah under which rivers flow, they will abide therein forever. . That is the great fortune.(At Taghaabun : 64: 9)

"And they do not glorify Allah with proper exaltation, even though the whole earth is in His hands on the Day of Resurrection and the heavens are rolled up with His right hand. Glory be to God and exalted is He above what they associate. (Az Zumar: 39: 67) Indeed, the Day of Judgment will surely come, there is no doubt about it, but most people do not believe (Al Mu'min: 40: 59)

In an effort to open the veil of the greatness of Allah SWT regarding, what is really meant by Allah, they are eternal in paradise and in hell, I use the basis of photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

THE ETERNAL ARE QUARKS

Now, after the atoms that exist in the universe are included in paradise and in hell are gone, because of the nuclear power that binds the quarks in the atoms, what remains are the quarks.

Where is Allah's energy that gave birth to quarks which are the nucleus of atoms, which exist in the universe today.

Because Allah's energy comes from Allah *"He is the First ... (Al Hadiid: 57: 3)* who gave birth to quarks and so on into atoms, then when atoms disappear, there are only quarks.

THE RESIDENTS OF PARADISE AND HELL LOST, ONLY THE ENERGY OF ALLAH AND QUARK REMAIN

Now, why did Allah declare: *"... those who believe in Allah and do good deeds... Allah... will enter them into Jannah... they will abide therein... (At Taghaabun: 64: 9)*

"... the inhabitants of hell, they will abide in it... (At Taghaabun: 64:10) ?

The answer is,

It is hidden in the secret behind the verse: *"... I have perfected the event, and have breathed into it my spirit... (Al Hijr: 15: 29) "He is... the Last... (Al Hadiid: 57: 3)*

Well, here Allah declares that whatever is in this universe, is included in *"... my spirit... (Al Hijr: 15: 29)* all that comes from Allah's energy, where Allah's energy comes from Allah.

Within each atom there is Allah's energy, when the atom disappears after reaching the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years from now, then what remains is the quarks and Allah's energy.

So, what is in the atom, returns to the energy of Allah and this is what Allah means *"...they eternal in it...(At Taghaabun : 64:10)*

Or in other words,

Verily we are from Allah and we return to Allah.

CONCLUSION

From what has been described above we can now conclude that the secret behind the verse: *"He is the one who is the last... (Al Hadiid: 57: 3)*

It turns out that *"...my spirit...(Al Hijr: 15: 29)* which is the inhabitants of paradise and hell after paradise and hell in this universe is 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years from now , then the atoms that are in paradise and in hell and in this universe are lost, because the nuclear force that binds the quarks that are in the atoms, is lost.

Well, because *"...my spirit...(Al Hijr : 15: 29)* which is made up of oxygen atoms, hydrogen atoms, carbon atoms and nitrogen atoms, then *"...my spirit...(Al Hijr : 15 : 29)* after reaching the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000

000000000 000000000 000000000 years from now, then "... *my spirit...*(*Al Hijr : 15: 29*) is gone.

Why "*... my spirit... (Al Hijr: 15: 29)* will disappear from paradise and from hell?

Because the nuclear power that holds the quarks in the atom is lost.

Now, after the atoms that exist in the universe are included in paradise and in hell are gone, because of the nuclear power that binds the quarks in the atoms, what remains are the quarks.

Where is Allah's energy that gave birth to quarks which are the nucleus of atoms, which exist in the universe today.

Because Allah's energy comes from Allah "*He is the First ... (Al Hadiid: 57: 3)* who gave birth to quarks and so on into atoms, then when atoms disappear, there are only quarks.

Now, why did Allah declare: "*... those who believe in Allah and do good deeds... Allah... will enter them into Jannah... they will abide therein... (At Taghaabun: 64: 9)*

"... the inhabitants of hell, they will abide in it... (At Taghaabun: 64:10) ?

The answer is,

It is hidden in the secret behind the verse: "*... I have perfected the event, and have breathed into it my spirit... (Al Hijr: 15: 29) "He is... the Last... (Al Hadid: 57: 3)*

Well, here Allah declares that whatever is in this universe, is included in "*... my spirit... (Al Hijr: 15: 29)* all that comes from Allah's energy, where Allah's energy comes from Allah.

Within each atom there is Allah's energy, when the atom disappears after reaching the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years from now, then what remains is the quarks and Allah's energy.

So, what is in the atom, returns to the energy of Allah and this is what Allah means "*...they eternal in it...(At Taghaabun : 64:10)*

Or in other words,

Verily we are from Allah and we return to Allah.
