ABSTRACT

Before I write down what problem Allah really means, wherever people face, that's where Allah's face is, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret of what Allah really means, wherever humans turn, there is Allah's face, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that serve as tools for revealing Allah's secrets about what Allah really means, wherever people turn, there is Allah's face, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a male and, of course, We would have doubted about them what they doubted about themselves." (Al An'aam: 6:9)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth.(Al Baqarah: 2:186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"Allah did not create and resurrect you except as one soul. Indeed, Allah is All-Hearing, All-Seeing. (Luqman: 31: 28)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

"Angels and spirits ascend to God in a day the measure of which is fifty thousand years (Al Ma'aarij: 70: 4)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)

And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily

Allah is All-Wise and All-Knowing. (Al Baqarah: 2: 115)

"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

In an effort to open the veil of Allah's secret about what Allah really means, wherever humans turn, there is Allah's face, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here the author proposes a hypothesis that wherever humans face, that is the face of Allah, because Allah gives Allah's energy, Allah's energy returns to Allah, seen from the point of view of Deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

ALLAH GIVES ALLAH'S ENERGY, ALLAH'S ENERGY FORMS QUARKS AND ATOMS, ATOMS BECOME THE BUILDING OF THE UNIVERSE AND ALL ITS CONTENTS

Now, we are still focusing our minds on uncovering the secrets contained behind the verse:
"...wherever you turn, there is the face of Allah... (Al Baqarah: 2: 115)

It turns out that here Allah has declared that wherever humans look, then *"... there is the face of Allah... (Al Baqarah: 2: 115)*

What does Allah really mean "*...that is the face of Allah...(Al Baqarah: 2: 115)?*

The answer is

Hidden in the secret behind the verse: "*Who has created the seven skys in layers ... (Al Mulk: 67: 3)*

How Allah created "*... the seven skys in layers... (Al Mulk: 67: 3)*

Allah created "*... the seven skys in layers... (Al Mulk: 67: 3)* with Allah's energy.

The energy of Allah that forms quarks and then becomes atoms which then becomes the universe and everything in it, including humans.

Or in other words, Allah's energy forms atoms, and atoms become the building blocks of the universe and everything in it.

ALLAH'S FACE IS ALLAH'S ENERGY, ALLAH'S ENERGY COMES FROM ALLAH AND BACK TO ALLAH

Well, Allah's energy comes from Allah and returns to Allah. Allah's energy is not lost.

Or it could be said, Allah and Allah's energy are united. Where there is Allah's energy, there is Allah's face.

Now one might say, the energy of Allah is the face of Allah.

Where by using Allah's energy can reach speeds of 18 262 980 km per second "*... a day whose levels are fifty thousand years (Al Ma'aarij: 70: 4)*

So wherever the human eye is directed, there is the energy of Allah and there is the face of Allah.

THE EXISTENCE OF ALLAH IN THE FORM OF ALLAH'S ENERGY, ALLAH'S ENERGY IS EVERYWHERE INCLUDING IN THE HUMAN BODY

Now, Allah has declared: "*...I breathed into him my spirit...(Shaad: 38:72)*

It turned out that what Allah breathed "*...my spirit...(Shaad: 38:72)* is built by hydrogen atoms, oxygen atoms, carbon atoms and nitrogen atoms.

Whereas hydrogen atoms, oxygen atoms, carbon atoms and nitrogen atoms are formed by the energy of Allah, through quarks. Allah's energy comes directly from Allah.

ALLAH AND ALLAH'S ENERGY CANNOT BE SEPARATED

Now, it has been revealed, the secret behind the verse: "*...wherever you turn there is the face of Allah... (Al Baqarah: 2: 115)*

This means that the face of Allah is the energy of Allah, while the energy of Allah comes from Allah.

So, actually what is meant by Allah, "*...wherever you face there is the face of Allah...(Al Baqarah: 2:*

115) is *"...wherever you face there (Allah's energy)...(Al Baqarah: 2:115)*

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verse: *"...wherever you turn, there is the face of Allah... (Al Baqarah: 2: 115)*

It turns out that here Allah has declared that wherever humans look, then *"... there is the face of Allah... (Al Baqarah: 2: 115)*
