ABSTRACT

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of the greatness of Allah SWT regarding what Allah reasons, that Allah always far above, even though Allah is very close, closer than the human jugular vein, seen from the photon angle, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA)

The signs of Allah's greatness regarding Allah's secret about what Allah reasons, that Allah always far above, even though Allah is very close, closer than the human jugular vein, namely in the verses:

"Angels and spirits ascend to God in a day the measure of which is fifty thousand years (Al Ma'aarij: 70: 4)

"...We made the apostle an angel, ...he was a man...(Al An'aam: 6: 9)

"Who has created the seven heavens in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And if We wish, We have indeed made in your place on earth angels that have been passed down from generation to generation. (Az Zukhruf: 43:60)

"And it is not possible for any human being that Allah can speak to him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Indeed, He is Most High, Most Wise. (Ash Syuura: 42:51)

"So when I have perfected the event and I have breathed into it My spirit; then you should fall down prostrating to it." (Shaad: 38:72)

"On that night the angels and the angel Gabriel descended with the permission of his Lord to manage all affairs (Al Qadr: 97: 4)

"He arranges affairs from the heavens to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when he asks Me, then let them fulfill and let them believe in Me, so that they will always be in truth.(Al Baqarah: 2:186)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2:115)

"It is He who has made the earth a bed for you and the sky a roof, and He sends down water from the sky, then He produces with it all the fruit as a sustenance for you; therefore do not establish partners with Allah, while you know. Al Baqarah : 2:22)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein (Qaf: 50:16)

"When his Lord said to him: "Submit obediently!" Ibrahim replied: "I submit obediently to the Lord of the worlds". (Al Baqarah: 2:131)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

In an effort to open the veil of the greatness of Allah SWT regarding what Allah reasons, that Allah always far above, even though Allah is very close, closer than the human jugular vein, I use the basis of photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).).

HYPOTHESES

Here I propose the hypothesis that Allah always far above, even though Allah is very close, closer than the human jugular vein, because the problem of distance does not mean anything to Allah, judging from the photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DNA

Deoxyribonucleic acid (DNA) is a long strand that wraps around chromosomes. Human deoxyribonucleic acid (DNA) is composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

WHY ALLAH' FORM IS FAR ABOVE, WHEN ACTUALLY ALLAH IS VERY CLOSE, CLOSER THAN HUMAN'S JUGULAR VEIN

Now, we are still trying to focus our minds to reveal the secret hidden behind the verse: *"Angels and spirits ascend to God in a day whose levels are fifty thousand years (Al Ma'aarij: 70: 4)" He manages affairs from the sky to earth, then it ascends to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)*

Apparently, here Allah has declared that Allah's form is far above, meaning above according to the human eye from where humans are.

Now, the question arises, why does Allah always declare: *"...go up to God...(Al Ma'aarij: 70:4)* or *"...go up to Him...(As Sajdah: 32:5)* when Allah *"...is near...(Al Baqarah: 2: 186) ?*

The answer is

It is hidden in the secret behind the verse: *"...to Allah belongs the east and the west... wherever you face there is the face of Allah... (Al Baqarah: 2: 115)*

So, actually, the problem of distance, is meaningless to Allah, because Allah's energy, Allah's particles and *"...my spirit...(Shaad: 38:72)* are everywhere"*...wherever you turn there is face of Allah... (Al Baqarah: 2: 115)* even Allah is in the human body *"...I am near...(Al Baqarah: 2:186)"... We are closer to him than his jugular vein (Qaaf:50:16)*

ALLAH DESCRIBING ALLAH'S FORM IS IN THE SKY, ARE ABOVE, EVERYWHERE, THAT ALL ARE SYMBOLS THAT REFERENCE TO ALLAH'S ENERGY, ALLAH PARTICLES AND MY SPIRIT THAT ARE AROUND THE SEVEN SKY

Actually, when humans pray to Allah, there is no need to look up at the sky, because Allah is not in the sky, but is near in the human body itself, Allah is *"...closer... than the jugular vein" (Qaaf: 50:16)*

So, if Allah declares *"...managing affairs from heaven to earth...(As Sajdah: 32: 5)" Angels and spirits ascend to God... (Al Ma'aarij: 70: 4)* That's all is because of Allah's energy, Allah's particles and *"...my spirit...(Shaad: 38:72)* is in all the seven skys.

With Allah's particle having the speed of light **5 475 103 664 604.84** km per second, before the human mouth finishes saying the word "one", Allah's particle has already reached the sun and returned to earth again.

So distance is nothing to Allah.

Because most people still think that Allah's form is far above, far in the sky, so if you pray to Allah you have to look up to the sky.

This is because, humans do not understand the distance according to Allah's calculations. If according to Allah the distance is 1 meter, it means that if it is calculated according to human calculations it becomes **18 262 980** meters or **18 262, 980** km *"... a day which is fifty thousand years (Al Ma'aarij: 70: 4)*

Well, with humans understanding about the real Allah, then when Allah *"...said to (Ibrahim): "Submit, obey!" Ibrahim replied: "I submit to the Lord of the worlds". (Al Baqarah: 2:131)*

So, those who really *"...submit obediently to the Lord of the worlds". (Al Baqarah: 2:131)* as Abraham, *"...submit obediently to the Lord of the worlds". (Al Baqarah: 2:131)* is after humans understand the real Allah, the energy of Allah, the particles of Allah and *"...my spirit...(Shaad: 38:72)*

CONCLUSION

From what has been described above we can now conclude that the secret hidden behind the verse: *"Angels and spirits ascend to God in a day whose levels are fifty thousand years (Al Ma'aarij: 70: 4)" He manages affairs from the sky to earth, then it ascends to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)*

Apparently, here Allah has declared that Allah's form is far above, meaning above according to the human eye from where humans are.

Now, the question arises, why does Allah always declare: *"...go up to God...(Al Ma'aarij: 70:4)* or *"...go up to Him...(As Sajdah: 32:5)* when Allah *"..is near...(Al Baqarah: 2: 186) ?*

The answer is

It is hidden in the secret behind the verse: *"...to Allah belongs the east and the west... wherever you face there is the face of Allah... (Al Baqarah: 2: 115)*

So, actually, the problem of distance, is meaningless to Allah, because Allah's energy, Allah's particles and *"...my spirit...(Shaad: 38:72)* are everywhere *"...wherever you turn there is face of Allah... (Al Baqarah: 2: 115)* even Allah is in the human body *"...I am near...(Al Baqarah: 2:186)"...We are closer to him than his jugular vein (Qaaf :50:16)*

Actually, when humans pray to Allah, there is no need to look up at the sky, because Allah is not in the sky, but is near in the human body itself, Allah is *"...closer... than the jugular vein" (Qaaf: 50:16)*

So, if Allah declares *"...managing affairs from heaven to earth...(As Sajdah: 32: 5)" Angels and spirits ascend to God... (Al Ma'aarij: 70: 4)* That's all is because of Allah's energy, Allah's particles and *"...my spirit...(Shaad: 38:72)* is in all the seven skys.

With Allah's particle having the speed of light **5 475 103 664 604.84** km per second, before the human mouth finishes saying the word "one", Allah's particle has already reached the sun and returned to earth again.

So distance is nothing to Allah.

Because most people still think that Allah's form is far above, far in the sky, so if you pray to Allah you have to look up to the sky.

This is because, humans do not understand the distance according to Allah's calculations. If according to Allah the distance is 1 meter, it means that if it is calculated according to human calculations it becomes **18 262 980** meters or **18 262, 980** km *"... a day which is fifty thousand years (Al Ma'aarij: 70: 4)*

Well, with humans understanding about the real Allah, then when Allah *"...said to (Ibrahim): "Submit, obey!" Ibrahim replied: "I submit to the Lord of the worlds". (Al Baqarah: 2:131)*

So, those who really *"...submit obediently to the Lord of the worlds". (Al Baqarah: 2:131)* as Abraham, *"...submit obediently to the Lord of the worlds". (Al Baqarah: 2:131)* is after humans understand the

real Allah, the energy of Allah, the particles of Allah and “...*my spirit...*(*Shaad: 38:72*)
