ABSTRACT

Before the author writes down the problem what is actually meant by Allah, Allah protects the stars from satan, first the writer asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret of what Allah actually means, Allah protects the stars from satan, based on Deoxyribonucleic acid (DNA)

There are several verses that become Allah's secret unlocking tool about what Allah really means, Allah guarding the stars from satan, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"Read in the name of your Lord Who created (Al 'Alaq: 96: 1) "He has created man from a clot of blood. (Al 'Alaq: 96: 2) "The one who teaches by means of kalam (Al 'Alaq: 96: 4)

"And verily We have created in the sky the stars and We have adorned the heavens for those who look (Al-Hijr: 15:16)

"And We guard him from every accursed devil (Al Hijr: 15:17)

"Except for the devil who steals audible and then he is chased by a bright burst of fire." (Al-Hijr: 15: 18)

Allah said: "What prevented you from prostrating when I commanded you?" The devil replied "I am better than him: You created me from fire while You created him from clay." (Al A'raaf: 7:12)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)

"And verily We have created man from an essence of clay. (Al Mu'minuun: 23:12)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a man and, of course, We would have doubted about them what they doubted about themselves." (Al An'aam: 6:9)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when he asks Me, then let them fulfill (all My commands) and let them believe in Me. Me, that they may always be in the truth.(Al Baqarah: 2:186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"And when We said to the angels: "Prostrate yourselves to Adam," then they prostrate except Satan; he is reluctant and arrogant and is one of the disbelievers. (Al Baqarah: 2:34)

"He arranges affairs from the skys to the earth, then it ascends to Him in one day whose level is a thousand years according to your reckoning (As Sajdah: 32: 5)

"Angels and spirits ascend to God in a day whose measure is fifty thousand years." (Al Ma'aarij: 70:4)

"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2:115)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)

"Angels and spirits descend with the permission of their Lord to manage all affairs (Al Qadr: 97: 4)

"And they ask you about the spirit. Say: "The spirit belongs to my Lord, and knowledge is not given to you but a little." (Al Israa ': 17: 85)

"Indeed, We have adorned the skys near the stars, and We have made them instruments for throwing the devils, and We have prepared for them the torment of a blazing hell. (Al Mulk: 67: 5)

Allah said: "What prevented you from prostrating when I commanded you?" The devil replied "I am better than him: You created me from fire while You created him from clay." (Al A'raaf: 7:12)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

In an effort to open the veil of Allah's secret about what Allah really means, Allah guarding the stars from satan, the author uses the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here the author proposes the hypothesis that Allah protects the stars from satan, because the hydrogen atoms in stars can be used by satan, based on Deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

WHY ALLAH KEEPS THE STARS FROM SATAN, WHAT'S WHAT IS WITH THE SATAN

Now, we are still focusing our minds on uncovering the secrets contained behind the verses: "*... We have created in the sky the stars... (Al Hijr: 15:16) "... We guard them from every every satan...(Al Hijr: 15:17) "...Answers the devil "I am better than him: You created me from fire while You created him from clay." (Al A'raaf: 7:12)*

It turns out, here God has declared, that "*... Allah has created in the sky the stars... (Al Hijr: 15:16) "...Allah protects it from every satan...(Al-Hijr: 15 : 17)*

Now the question arises,

Why does Allah have to protect the stars from Satan, what's wrong with Satan?

Well, the answer is in the secret behind the verse: "*...Answers devil "I am better than him: You created me from fire while you created him from clay." (Al A'raaf: 7:12)*

It turns out that devil, who is also a type of satan, has assumed that he was made of "*... fire... (Al A'raaf: 7:12)*

From what exactly is "*...fire...(Al A'raaf: 7:12) ?*

It turns out that the fire contains oxygen atoms and hydrogen atoms.

Now, because satan in his body contains hydrogen atoms and oxygen atoms, then for the survival of satan requires oxygen atoms and hydrogen atoms.

Well, if satan is connected to a star, it will be revealed that the star contains hydrogen atoms. Because hydrogen atoms are the fuel for stars. Stars without hydrogen atoms, will not live, stars are alive and glowing because of the hydrogen atomic fuel.

Now, Satan whose survival depends on hydrogen atoms, where hydrogen atoms are in stars, so Satan is trying his best to get hydrogen atoms in stars.

Well, for this reason, why *"... Allah protects the stars from every satan... (Al Hijr: 15:17)*

Because if the star runs out of hydrogen atomic fuel, the star will die.

Now the secret is revealed, why satan are trying to *"...steal...(Al Hijr: 15: 18)* hydrogen atoms from inside stars. Because Satan really needs a hydrogen atom to survive.

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verses: *"... We have created in the sky the stars... (Al Hijr: 15:16)"... We guard them from every every satan...(Al Hijr: 15:17)"...Answers the devil "I am better than him: You created me from fire while You created him from clay." (Al A'raaf: 7:12)*

It turns out, here God has declared, that *"... Allah has created in the sky the stars... (Al Hijr: 15:16)"...Allah protects it from every satan...(Al-Hijr: 15 : 17)*

Now the question arises,

Why does Allah have to protect the stars from Satan, what's wrong with Satan?

Well, the answer is in the secret behind the verse: *"...Answers devil "I am better than him: You created me from fire while you created him from clay." (Al A'raaf: 7:12)*

It turns out that devil, who is also a type of satan, has assumed that he was made of *"... fire... (Al A'raaf: 7:12)*

From what exactly is *"...fire...(Al A'raaf: 7:12) ?*

It turns out that the fire contains oxygen atoms and hydrogen atoms.

Now, because satan in his body contains hydrogen atoms and oxygen atoms, then for the survival of satan requires oxygen atoms and hydrogen atoms.

Well, if satan is connected to a star, it will be revealed that the star contains hydrogen atoms. Because hydrogen atoms are the fuel for stars. Stars without hydrogen atoms, will not live, stars are alive and glowing because of the hydrogen atomic fuel.

Now, Satan whose survival depends on hydrogen atoms, where hydrogen atoms are in stars, so Satan is trying his best to get hydrogen atoms in stars.

Well, for this reason, why *"... Allah protects the stars from every satan... (Al Hijr: 15:17)*

Because if the star runs out of hydrogen atomic fuel, the star will die.

Now the secret is revealed, why satan are trying to “...steal...(Al Hijr: 15: 18) hydrogen atoms from inside stars. Because Satan really needs a hydrogen atom to survive.
