ABSTRACT

First of all, by asking forgiveness from Allah SWT, here the author tries to reveal the signs of the greatness of Allah SWT regarding what Allah actually means is pleasure in paradise, such as the description of pleasure on earth, what is in paradise is on earth, based on photons, quarks and structures. molecular nucleic acid or deoxyribonucleic acid (DNA)

In the Qur'an, several verses are found that are the key to unlocking the secrets of What does Allah mean by pleasures in paradise as the description of pleasures on earth, what is in paradise is on earth, namely the verses:

"Verily Allah will admit those who believe and do righteous deeds into Paradises beneath which rivers flow. In Paradise they will be adorned with bracelets of gold and pearls, and their clothing is silk. (Al Hajj :22:23)

"Indeed, those who are pious will be in paradise and enjoyment." (Ath Thuur: 52:17)

"In Paradise there are many fruits for you, some of which you eat. (Az Zukhruf: 43: 73)

"And give good tidings to those who believe and do good, that for them there are provided gardens with rivers flowing in them. Every time they are given sustenance of fruit in those paradises, they say: "This is what was given to them. us first." They are given similar fruits and for them are pure wives and they will abide therein (Al-Baqarah: 2:25)

"And if the People of the Book had believed and were pious, We would have covered their faults and We would have admitted them to heavens full of pleasure. (Al Maa'idah: 5:65)

"Allah promises the believers, male and female, paradise under which rivers flow, they will abide therein, and good places in paradise 'Adn. And Allah's pleasure is greater; that is great fortune. (At Taubah : 9:72)

"Glory be to Him who, if He willed, He would have made for you something better than this, gardens beneath which rivers flow, and He made for you palaces (Al-Furqaan: 25:10)

"Those who were earlier, were first from the emigrants and the Ansar and those who followed them well, Allah is pleased with them and they are pleased with Allah and Allah has provided for them paradises where rivers flow in them. forever. They abide in it. That is the great victory. (At Taubah: 9: 100)

"They are for them the paradise of 'Adn, where rivers flow beneath; in that paradise they are adorned with gold bracelets and they wear green clothes of fine silk and thick silk, while they sit reclining on beautiful couches. the best reward, and a beautiful resting place (Al Kahf: 18: 31)

"Indeed, those who believe and do righteous deeds, for them is the Paradise of Paradise as a place to

live." (Al Kahf: 18:107)

"In Paradise they will fight for the cup, which contains neither useless words nor sinful deeds. (Ath Thuur: 52:23)

"They were passed around plates of gold and cups, and in heaven is everything the heart desires and is pleasing to the eye and you will abide in them forever." (Az Zukhruf: 43:71)

"In it they reclined, asking for lots of fruit and drink in Paradise. (Shaad: 38: 51)

"And hasten to forgiveness from your Lord and to Paradise, whose breadth is as wide as the heavens and the earth, which is prepared for those who are pious." (Ali 'Imran: 3:133)

"And the shade is near over them and their fruit is easy to pick them up as easily as possible (Al Insaan: 76:14)

"Glory be to Him who, if He willed, He would have made for you something better than this, gardens beneath which rivers flow, and He made palaces for you (Al-Furqaan: 25:10)

"Beside them are nymphs who are not wild in their eyes and beautiful in their eyes (Ash Shaaffaat: 37: 48)

"They reclined on couches in a row and We married them to beautiful nymphs with sharp eyes (Ath Thuur: 52:20)

"In heaven there are fair nymphs who lower their gaze, never touched by humans before them, nor by jinn (Ar Rahmaan: 55: 56)

"In paradise there are good and beautiful angels. (Ar Rahmaan: 55: 70)

"(The nymphs) are beautiful, pure white, secluded in the house. (Ar Rahmaan: 55: 72)

"It is as if the nymphs were gems of yakut and marjan." (Ar Rahmaan: 55: 58)

"And there are jelly-eyed angels (Al Waaqi'ah: 56: 22)

"Indeed We created them (angel) directly (Al Waaqi'ah: 56: 35)

"Indeed We have adorned the skys near the stars... (Al Mulk: 67: 5)

"By the sky which has clusters of stars, (Al Buruj: 85: 1)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"It is He who makes the night into the day and the day into the night. And He is All-Knower of all the hearts (Al Hadid: 57: 6)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

In an effort to open the veil about what Allah really means pleasure in paradise as the picture of pleasure on earth, what is in paradise is on earth, based on photons, quarks and deoxyribonucleic acid or deoxyribonucleic acid or nucleic acid molecular structures.

HYPOTHESIS

Here the author proposes a hypothesis whether pleasure in heaven is like a picture of pleasure on earth, what is in heaven is on earth, because actually life in heaven is life.

"... my spirit...(Shaad : 38: 72) or "...spirit of Allah...(Shaad : 38: 72), based on photons, quarks and Deoxyribonucleic acid (DNA)

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

To find out quarks, we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

SO HUMANS ON EARTH UNDERSTAND HOW LIFE IS IN PARADISE, THEN ALLAH GIVES PICTURES OF PLEASURE IN PARADISE AS PLEASURE ON EARTH, THERE ARE GOLD BRACELES, FRUITS, RIVERS, PLATES, PALACES, BEAUTIFUL NYMPHS, MARRIAGES

Now, we are still trying to focus our minds in order to uncover the secrets stored in the verse:
"Indeed, those who are pious are in paradise and enjoyment, (Ath Thuur: 52:17)

Well, it turns out that paradise is associated with *"...enjoyment, (Ath Thuur: 52:17)*, but what Allah describes is a picture of pleasure as well as enjoyment on earth.

Now the question arises,

Why did Allah declare to humans that the pleasures in paradise are like the pleasures that are on earth today?

The answer is

Hidden in the secret behind the verse: *"... I breathed into him my spirit... (Shaad: 38: 72)*

Well, apparently *"...my spirit...(Shaad: 38:72)* or *"...Allah's spirit...(Shaad: 38:72)* which is in every human body that is still alive in the world, because *"...Allah's spirit...(Shaad: 38:72)* is breathed into the human body by Allah, who already understands how pleasures and pleasures are on earth.

With the reason, *"...Allah's spirit...(Shaad: 38:72)* which is in the human body, Allah gives a picture of life and enjoyment in paradise.

When in fact, life and pleasure in paradise are life and pleasures that are in accordance with the life of *"...Allah's spirit...(Shaad: 38:72)* which has no body anymore.

That is, pleasure that is not caused by the impulses and desires of the body, as when *"...Allah's spirit...(Shaad: 38:72)* is still in the human body who is still alive in the world.

This is the real secret of Allah, how life in paradise really is.

Atomic life, rivers and water contain oxygen atoms and hydrogen atoms. Fruits contain carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms. Silk contains protein fibers, contains nitrogen atoms, hydrogen atoms and oxygen atoms, and the amino acid composition is very similar to human skin. The gold bracelet contains aurum atoms that do not combine or react with oxygen atoms and hydrogen atoms, so that oxygen atoms and hydrogen atoms will not be lacking in heaven.

So, in fact, the life in paradise that is described is according to the image of humans who are still living on earth. When in fact is the life of the atoms as *"...Allah's spirit...(Shaad: 38:72)* which is built by hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

CONCLUSION

Based on the description above, we can conclude that the secrets stored in the verse: *"Indeed, those who are pious are in paradise and enjoyment, (Ath Thuur: 52:17)*

Well, it turns out that paradise is associated with *"...enjoyment, (Ath Thuur: 52:17)*, but what Allah describes is a picture of pleasure as well as enjoyment on earth.
