ABSTRACT

Before I write down what the problem is, what is meant by Allah, Allah gives life, Allah causes death, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret of what it really means, Allah gives life, Allah causes death, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about what Allah really means, Allah gives life, Allah causes death, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a man and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth.(Al Baqarah: 2:186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"Allah did not create and resurrect you except as one soul. Indeed, Allah is All-Hearing, All-Seeing. (Luqman: 31: 28)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

"And among His signs is that you see the earth dry and arid, so when We send down water on it, it will surely move and thrive. Indeed, God Who gives life to it, surely can bring back the dead... (Fushshilat: 41: 39)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)

"And Mary, the daughter of Imran, who kept her honor, so We breathed into her some of Our spirits, and she confirmed the words of her Lord and His Books, and she was one of the obedient ones. (At Tahrīm: 66:12)

"The angels and spirit ascended to God in a day the measure of which was fifty thousand years (Al Ma'aarij: 70:4)

"That is, for verily Allah, He is the Truth, and verily He is the One who gives life to all that dies, and verily Allah has power over all things." (Al Hajj: 22:6)

"On the day the earth will be replaced with another earth and sky, and they will all gather before the presence of Allah, the One, the All-Mighty (Ibrahim: 14:48)

"He arranges affairs from the heavens to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)

"O mankind, if you are in doubt about the resurrection, then indeed We have created you from clay, then from a drop of semen, then from a clot of blood, then from a lump of flesh which is perfect and imperfect, so that We may explain it to you and determine in the womb, what We will until a predetermined time, then We bring you out as babies, then you come to maturity, and some of you are passed away and some of you have extended their life to senility, so that he will no longer know anything that is wrong. he knew before. And you see the earth is dry, then when We send down water on it, the earth lives and is fertile and grows all kinds of beautiful plants. (Al Hajj: 22: 5)

"Didn't We create you from despicable water (Al Mursalaat: 77:20)

"Then We made the essence of semen in a solid place. (Al Mu'minuun: 23:13)

"And verily We have created man from an essence from clay. (Al Mu'minuun: 23:12)

"And does man not notice that We created him from a drop of water, then suddenly he becomes a real challenger (Yaasiin: 36: 77)

"And it is Allah Who has brought you to life, then caused you to die, then brought you to life, verily the human being is very much denying the favor. (Al Hajj: 22: 66)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

In an effort to open the veil of Allah's secret about what is actually meant by Allah, Allah gives life, Allah causes death, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose a hypothesis that what Allah means, Allah gives life, Allah causes death, is a function of the body which as long as it survives it continues to live, if the function of the body does not survive, it dies immediately, while "... my spirit ... (Shaad: 38: 72) continues to live, from the point of view of Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

THAT ALIVE AND DEATH IS A FUNCTION OF THE BODY, WHILE THAT ALIVES IS MY SPIRIT

Now, we are still focusing our minds on uncovering the secrets contained behind the verse: *"It was not Allah who created and resurrected you but only like one soul... (Luqman: 31: 28)*

Here, Allah has clearly described how Allah actually created the seven skies and all their contents, including humans, with Allah's energy and atoms. Likewise, Allah has explained to humans how Allah brings out *"...my spirit... (Shaad: 38: 72)* from a dead body.

Next, we uncover the secret behind the verse: *"Allah did not create and resurrect you but only like one soul... (Luqman: 31: 28)*

That is, what Allah actually created atoms with through Allah's energy, wherein these atoms continued to live until the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years.

Well, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms are the building blocks of man and the building of the seven heavens and all that is in them.

Or in other words, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms are the building blocks of *"... my spirit... (Shaad: 38: 72)*

ALLAH TURNING AND ALLAH TURNING OFF

Now what exactly is meant by Allah, Allah who gives life and Allah who causes death?

Now, what is meant by Allah, Allah gives life is that Allah gives life to the functions of the bodies of His creatures. That is, only the functions of the human body are turned on, because *"... my spirit... (Shaad : 38: 72)* hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms continue to live.

When Allah breathed "...to him my spirit...(Shaad: 38:72) and kept "...in a solid place. (Al Mu'minuun: 23:13)

The meaning here is "... my spirit... (Shaad: 38: 72) which is a building "... the essence of the soil. (Al Mu'minuun: 23: 12) and "... the essence is semen (stored) in a secure place. (Al Mu'minun: 23:13)

So, actually, "...my spirit... (Shaad : 38:72) which is made up of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms continues. "... my spirit... (Shaad : 38: 72) is also a building of Deoxyribonucleic acid (DNA) which consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35 .59% hydrogen atoms. Where "... my spirit... (Shaad: 38: 72) is also a building "... the essence of soil (Al Mu'minuun: 23: 12) in the form of "... semen...(Al Mu'minuun: 23: 12) Mu'minuun: 23: 13) or sperm.

Well, because "... my spirit... (Shaad : 38: 72) is a building of Deoxyribonucleic acid (DNA) and DNA is stored in "... semen...(Al Mu'minuun : 23: 13) or sperm, then actually, "...My spirit... (Shaad : 38:72) lives on, never dies, until the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years.

BODY FUNCTIONS THAT TURN ON AND OFF, WHILE MY SPIRIT ALIVES ON

Now, let's unveil the secrets that are kept in the verse: "... Allah who gave you life, then caused you to die, then gave you life... (Al Hajj: 22: 66)

It turns out that here, Allah declares that "... Allah who has brought you to life... (Al Hajj: 22: 66) means, "... my spirit... (Shaad: 38: 72) has been blown since Adam, become the building of Deoxyribonucleic acid (DNA) and stored in "...semen...(Al Mu'minuun: 23:13) or sperm.

So "... my spirit... (Shaad: 38: 72) has lived and continues to live, which is the building of Deoxyribonucleic acid (DNA) which is stored in "...semen...(Al Mu'minuun: 23:13) from the paternal side, where DNA is passed on to the offspring.

Well, because "...my spirit... (Shaad: 38:72) continues to live, then what dies is a function of the body.

So, actually, when Allah explains: "...Allah has brought you to life, then caused you to die, then brought you to life...(Al Hajj: 22:66) it refers to the function of the body.

When the sperm in which there is DNA and "... my spirit... (Shaad: 38: 72) from the father's side meets the egg which also contains DNA and "... my spirit... (Shaad: 38: 72) from the mother, which forms the fetus and is stored in "...a solid place. (Al Mu'minuun: 23: 13) or in the womb. It's called "... Allah who gave you life... (Al Hajj: 22: 66)

Then, when the fetus grows up in the mother's womb, and is born into the world, then after how long it has lived on earth, Allah withholds "...my spirit... (Shaad: 38:72) from its body. This condition, is called "...Allah...turns you to death...(Al Hajj: 22: 66) So what is dead is a function of the body, while "... my spirit... (Shaad: 38: 72) stay alive.

Then, after 30 days the dead person was buried in the ground, "...my spirit... (Shaad: 38:72) came out to appear before Allah. This condition is called "...Allah... gives life to you...(Al Hajj: 22: 66) But the truth is, "...my spirit... (Shaad: 38: 72) does not die. what dies is only the function of that person's body.

So, now it has been revealed, the secret behind the verse: *"... Allah who gave you life, then Allah causes death, then brought you to life... (Al Hajj: 22: 66)* namely *"... my spirit... (Shaad: 38:72)* continues to live, what dies is the function of the body.

“...My spirit... (Shaad : 38:72) continues to live until the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years.

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verse: *"It was not Allah who created and resurrected you but only like one soul... (Luqman: 31: 28)*

Here, Allah has clearly described how Allah actually created the seven skies and all their contents, including humans, with Allah's energy and atoms. Likewise, Allah has explained to humans how Allah brings out *"...my spirit... (Shaad: 38: 72)* from a dead body.
