**ABSTRACT**

Before I write down what is the problem that causes Allah to be closer than the jugular vein, I first ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret of what is the reason Allah is closer than the human jugular vein, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about what causes Allah to be closer than the jugular vein of man, namely the verses:

*"So when I have perfected the scene and I breathed into him My spirit; then you should fall down prostrating to him." (Shaad : 38:72)*

*"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)*

*"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)*

*"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts you have little gratitude. (As Sajdah: 32: 9)*

*"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)*

*"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when he asks Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth (Al Baqarah: 2: 186)*

*"So He made it seven skys in two periods. He revealed in each sky its affairs. And We adorn the near sky with bright stars and We take care of it as well as possible. Such is the provision of the Mighty, All-Knowing. (Fushshilat :41:12)*

*"He is the First and the Last, the Outward and the Inward, and He is All-Knowing of all things. (Al Hadid: 57:3)*

*"And it is not possible for a human being that Allah can speak with him except behind a veil... (Ash Shuura: 42: 51)*

*"And We put before them a wall and behind them a wall and We covered them so that they could not see. (Yaasiin: 36: 9)*

*"... Allah knows what is before them and behind them, and they know nothing of Allah's knowledge except what He wills... (Al Baqarah: 2:255)*

*"God said: "O Moses, verily I have chosen you and other humans to carry My message and to speak directly with Me, therefore hold fast to what I have given you and be among those who are*

*grateful." (Al A'raaf: 7:144)*

In an effort to open the veil of Allah's secret about what causes Allah to be closer than the human jugular vein, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## **HYPOTHESIS**

Here I put forward the hypothesis that Allah's energy is the reason Allah is closer than the human neck, seen from the basic point of Deoxyribonucleic acid (DNA).

## **DEOXYRIBONUCLEIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **PHOTON**

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## **QUARK**

As for if we want to know quarks, then we look at one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects.

Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

## **WITH WHAT ALLAH CREATED THE SEVEN SKYS**

Now, we are still concentrating on trying to uncover the secret hidden behind the verse: *"...He made the seven skys in two times...(Fushshilat: 41:12)*

Well, we uncover the secrets that are hidden behind the creation of *"... the seven skys... (Fushshilat: 41: 12)*

Apparently, the origin of the creation of *"...the seven skys...(Fushshilat: 41:12)* is that it begins with the creation of a single nucleus, which is called a quark. man.

Now, the question is,

What did Allah create quarks with?

Well, the answer is

Allah created quarks with Allah's energy.

Well, it is Allah's energy that is the source of life for the universe.

So, with humans understanding Allah's energy, then humans will understand about Allah.

Now, it has been revealed, where Allah: *"...make the seven skys in two times...(Fushshilat: 41:12)* by using Allah's energy.

Well, this Allah's energy is in every atom that is the building of the universe with all its contents, including humans.

## **ALLAH'S ENERGY**

Now, what is Allah's energy?

Allah's energy is power that comes from Allah and returns to Allah.

That is, Allah's energy is not lost. The energy of Allah that exists in the universe and in all its contents, including in humans, will not be lost.

When energy forms the atoms that are the building blocks of the contents of the universe, then the contents of the universe due to a period of time, return to Allah's energy.

In other words, Allah's energy becomes the content of the universe, then the contents of the universe return to Allah's energy.

Or with a simpler explanation, Allah's energy makes man alive, then man dies, back into Allah's energy.

Allah's energy comes from Allah, then Allah's energy returns to Allah.

## **THROUGH ALLAH'S ENERGY, ALLAH IS WITHIN HUMANS**

When Allah declared: *"... I breathed into him my spirit..." (Shaad: 38: 72)* it turns out that here it is actually Allah's energy that created human beings.

With Allah's energy, *".. my spirit ..." (Shaad: 38: 72)* is built throughout the human body.

Now, through Allah's energy, Allah is *"...closer to him than his jugular vein, (Qaaf: 50:16)*

## **CONCLUSION**

Based on the description above, we can conclude that the secret hidden behind the verse: *"...He made the seven skys in two times...(Fushshilat: 41:12)*

Well, we uncover the secrets that are hidden behind the creation of *"... the seven skys... (Fushshilat: 41: 12)*
