ABSTRACT

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of the greatness of Allah SWT regarding what is the real reason, angels are considered to be able to fly, even though angels are a kind of human, from the point of view of photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid. (DNA)

The signs of Allah's greatness regarding Allah's secret about what is actually the reason, angels are considered to be able to fly, even though angels are a kind of human, namely in the verses:

"Praise be to Allah, the Creator of the skys and the earth, Who made the angels as messengers with wings, two, three and four respectively. Allah adds to His creation what He wills. Verily, Allah has power over all things. (Faathir: 35:1)

"Angels and spirits ascend to God in a day the measure of which is fifty thousand years (Al Ma'aarij: 70: 4)

"...We made the apostle an angel, ...he was a man...(Al An'aam: 6: 9)

"Who has created the seven heavens in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And if We wish, We have indeed made in your place on earth angels that have been passed down from generation to generation. (Az Zukhruf: 43:60)

"And it is not possible for any human being that Allah can speak to him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Indeed, He is Most High, Most Wise. (Ash Syuura: 42:51)

"So when I have perfected the event and I have breathed into it My spirit; then you should fall down prostrating to it." (Shaad: 38:72)

"On that night the angels and the angel Gabriel descended with the permission of his Lord to manage all affairs (Al Qadr: 97: 4)

"He arranges affairs from the heavens to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)

"Indeed Allah has helped you in the battle of Badr, even though you are weak people. Therefore fear Allah, so that you give thanks to Him. (Ali 'Imran: 3:123)

"When you say to the believers: "Is it not enough for you Allah to help you with three thousand angels who have been sent down? (Ali 'Imran: 3:124)

"Say: "The angel of death entrusted to you will kill you, then only to your Lord you will be returned." (As Sajdah: 32:11)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

In an effort to open the veil of the greatness of Allah SWT regarding what is actually the reason, angels are considered to be able to fly, even though angels are a kind of human, I use the basis of photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

HYPOTHESES

Here I propose the hypothesis that angels are considered to be able to fly, even though angels are a kind of human being, because angels can use the particles of Allah and the particles of angels to make contact with Allah and with fellow angels as well as with "... My spirit... (Shaad: 38: 72), seen from photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA)

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

ANGELS GIVEN KNOWLEDGE BY ALLAH TO USE ALLAH PARTICLES AND ANGEL PARTICLES WHEN CONTACT WITH ALLAH AND WITH FRIENDLY ANGELS AND CONTACT WITH MY SPIRIT

Now, we are still trying to focus our minds to reveal the secret hidden behind the verse: *"Angels and spirits ascend to God in a day whose levels are fifty thousand years (Al Ma'aarij: 70: 4)" He manages affairs from the sky to earth, then it ascends to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)*

Apparently, here Allah has declared that angels are given knowledge to master the particles of Allah

and the particles of angels, to be used as a means of contact with Allah and with fellow angels and contact with "... *my spirit...* (Shaad: 38: 72)

Where is the particle of Allah which has the speed of light **5 475 103 664 604.84** km per second "... *a day whose levels are fifty thousand years* (Al Ma'aarij: 70: 4)

This Allah particle is used by angels to make contact with Allah "*Angels and spirits ascend to God...* (Al Ma'aarij: 70:4) and to take human life "...*Angel of death...will take your life ...*(As Sajdah : 32:11)

Where this particle of Allah is so tiny it's almost non-existent,
0.000000000 000000000 000000000 000000000 000000000 000000000 000000000 000 333 591 754 209 188 9 grams

While the angel particle has the speed of light **109 502 073 292.0968** km per second used as a means of contact with fellow angels and with "...*my spirit...*(Shaad: 38: 72)
"... *a day whose length is a thousand years...* (As Sajdah: 32: 5)

As for the angel particles, they are slightly larger than Allah's particles
0.000000000 000000000 000000000 000000000 833 979 385 522 972 2 grams

THE ANGEL'S WINGS IS A SYMBOL THAT REFERS TO THE FREQUENCY OF ALLAH'S LIGHT SPEED AND THE ANGELS' LIGHT SPEED FREQUENCY, ANGELS ARE A TYPE OF HUMANS CANNOT FLY

Now, Allah has declared that "...*angels as messengers who have wings, two, three and four each...* (Faathir: 35:1)

It turns out that the wings of an angel describe the frequency of the speed of light of Allah's particles **5 475 103 664 604.84** km per second and the frequency of the speed of light of angel particles **109 502 073 292.0968** km per second

So, now it has been revealed, where the secret hidden behind the verses "...*angels as messengers who have wings, two, three and four each...* (Faathir: 35: 1) "... *a day whose content is fifty thousand years* (Al Ma'aarij: 70: 4)" "... *a day whose length is a thousand years...* (As Sajdah: 32: 5)

Namely, Allah has given knowledge to angels to use Allah particles and angel particles as tools for contact with Allah and contact with fellow angels as well as contact with "...*my spirit...*(Shaad: 38:72)

So, because angels are a kind of human "...*an angel, ...he was a man...*(Al An'aam: 6: 9), angels cannot fly. The angel wings represent the frequency of the light speed of the Allah particle and the frequency of the light speed of the angel particle.

HUMANS ARE NOT GIVEN SCIENCE BY ALLAH TO CONTROL ALLAH PARTICLES AND ANGELS PARTICLES

Here, Allah only gives trust to angels, not to humans, to use the particles of Allah and the particles of angels to be used for contact with Allah, and with fellow angels, as well as contact with "...*my spirit...*(Shaad: 38:72) which is in the human body, and "...*my spirit...*(Shaad: 38:72) which is in heaven and in hell.

Human knowledge until now is only limited to the speed of light photon particles which have the speed of light **299 792, 458** km per second.

Now, with the speed of light, photons of 299 792, 458 km per second cannot be used for contact with Allah and with angels and with "...my spirit...(Shaad: 38: 72) who are in paradise and in hell. .

CONCLUSION

From what has been described above we can now conclude that the secret hidden behind the verse: "*Angels and spirits ascend to God in a day whose levels are fifty thousand years (Al Ma'aarij: 70: 4)*" *He manages affairs from the sky to earth, then it ascends to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)*

Apparently, here Allah has declared that angels are given knowledge to master the particles of Allah and the particles of angels, to be used as a means of contact with Allah and with fellow angels and contact with "... my spirit... (Shaad: 38: 72)

Where is the particle of Allah which has the speed of light 5 475 103 664 604.84 km per second "... a day whose levels are fifty thousand years (Al Ma'aarij: 70: 4)

This Allah particle is used by angels to make contact with Allah "*Angels and spirits ascend to God... (Al Ma'aarij: 70:4)* and to take human life "...*Angel of death...will take your life ... (As Sajdah : 32:11)*

Where this particle of Allah is so tiny it's almost non-existent,
0.00000000 00000000 00000000 00000000 00000000 00000000 00000000 000 333 591 754 209 188 9 grams

While the angel particle has the speed of light 109 502 073 292.0968 km per second used as a means of contact with fellow angels and with "...my spirit...(Shaad: 38: 72)
"... a day whose length is a thousand years... (As Sajdah: 32: 5)

As for the angel particles, they are slightly larger than Allah's particles
0.00000000 00000000 00000000 00000000 833 979 385 522 972 2 grams

Now, Allah has declared that "...*angels as messengers who have wings, two, three and four each... (Faathir: 35:1)*

It turns out that the wings of an angel describe the frequency of the speed of light of Allah's particles 5 475 103 664 604.84 km per second and the frequency of the speed of light of angel particles 109 502 073 292.0968 km per second

So, now it has been revealed, where the secret hidden behind the verses "...*angels as messengers who have wings, two, three and four each... (Faathir: 35: 1)*" "... a day whose content is fifty thousand years (Al Ma'aarij: 70: 4)" "... a day whose length is a thousand years... (As Sajdah: 32: 5)

Namely, Allah has given knowledge to angels to use Allah particles and angel particles as tools for contact with Allah and contact with fellow angels as well as contact with "...my spirit...(Shaad: 38:72)

So, because angels are a kind of human "...*an angel, ...he was a man... (Al An'aam: 6: 9)*, angels cannot fly. The angel wings represent the frequency of the light speed of the Allah particle and the frequency of the light speed of the angel particle.

Here, Allah only gives trust to angels, not to humans, to use the particles of Allah and the particles of angels to be used for contact with Allah, and with fellow angels, as well as contact with "...my spirit...(Shaad: 38:72) which is in the human body, and "...my spirit...(Shaad: 38:72) which is in heaven and in hell.

Human knowledge until now is only limited to the speed of light photon particles which have the speed of light **299 792, 458** km per second.

Now, with the speed of light, photons of **299 792, 458** km per second cannot be used for contact with Allah and with angels and with "*...my spirit...*(*Shaad: 38: 72*) who are in paradise and in hell. .
