ABSTRACT

Before I write down the problem of what is the reason, most people think, God is in human form, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret of what is the reason, most people think, God in human form, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about what is the reason, most people think, God in human form, namely the verses:

"... when Allah said: "O Isa, indeed I will kill you and raise you to Me and cleanse you from those who disbelieve, and make those who follow you above those who disbelieve until the Day of the Day of Resurrection. Then to Me is your return, then I will judge between you about things that you always disagree with." (Ali 'Imran: 3:55)

"And because of their saying: "Indeed we have killed the Al Masih, Isa son of Maryam, Allah's Apostle", even though they did not kill him and did not crucify him, but those who were likened to Jesus for them. -true in doubt about who was killed. They have no confidence about who was killed, except following mere suspicion, they are not sure that the one they killed was Isa. (An Nisaa ': 4: 157)

"But Allah has raised Jesus to Him. And Allah is Mighty, Most Wise. (An Nisa': 4: 158)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)

"Indeed, for example, Isa in the sight of Allah, is like Adam. Allah created Adam from clay, then Allah said to him: "Be", so he was. (Ali 'Imran : 3:59)

The Al Masih, the son of Maryam, was only an Apostle, in fact several messengers had passed before him, and his mother was a very righteous man, both of whom used to eat food. Watch how We explain to them the signs of power, then watch how they turn away. (Al Maa'idah: 5:75)

"O People of the Book, do not transgress in your religion, and say nothing of Allah except the truth. Verily, the Messiah, Isa, the son of Maryam, is the Messenger of Allah and His words which He conveyed to Mary, and a spirit from Him. So believe in Allah and His messengers and do not say: "three", stop. Better for you. Verily Allah is the One God, Glory be to Allah from having children, all that is in the heavens and on earth belongs to Him. It is enough for Allah to be the Sustainer. (An Nisaa ': 4: 171)

"And Maryam, the daughter of Imran, who kept her honor, so We breathed into her womb some of Our spirits, and she confirmed the words of her Lord and His Books, and she was one of the obedient. (At Tahrir: 66:12)

"Allah is the light of the skys and the earth...Light upon light...(An Nuur: 24: 35)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)

In trying to unmask Allah's secret about what is the reason, most people assume, god in human form, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose the hypothesis *"... my spirit... (Al Hijr: 15: 29)* which is in the entire human body including Isa son of Maryam, seen from the basic point of Deoxyribonucleic acid (DNA)

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms. 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

MY SPIRIT IS IN THE ENTIRE HUMAN BODY INCLUDING IN THE BODY OF ISA SON OF MARYAM

Now, we are still trying to focus our minds to reveal the secrets that are stored in the verse: *"And Maryam bint Imran who maintains her honor, then We breathed into her womb some of Our spirits... (At Tahrir: 66: 12)*

It turned out, *"...Our spirit...(At Tahrir: 66:12)* or *"...My spirit...(Al Hijr: 15:29)* which was blown into Maryam's womb. Then, Maryam became pregnant, and gave birth to Isa the son of Maryam.

Where, in fact, Allah breathed *"...Our spirit...(At Tahrir: 66:12)* or *"...My spirit...(Al Hijr: 15:29)* to all the wombs of women around the world.

BABIES THAT ARE BORN FROM THE MOTHER'S WOMEN, THAT MY SPIRIT HAS BEEN BREACHED INTO THEM, ARE NOT THE INCARNATION OF GOD, OR GOD IN HUMAN SHAPE

Now, the truth is, *"...Our spirit...(At Tahrir: 66:12)* or *"...My spirit...(Al Hijr: 15:29)* is the source of human life. Without *"...Our spirit...(At Tahrir: 66:12)* or *"...My spirit...(Al Hijr: 15:29)* there will be no human on this earth.

Now, if there are some humans on this earth, they think that the baby born to a mother, whom Allah has *"...blowed into her womb... (At Tahrir: 66: 12)* is an incarnation of god, or god. in human form, then the assumption of some humans is a wrong assumption and is contrary to Allah's law or natural

law.

Why do some people think that a baby born to a mother whom Allah has *"...blow into her womb... (At Tahrir: 66:12)* is an incarnation of god, or god in human form, is wrong and contradicts with Allah's law or natural law?

The answer is

It is hidden in the secret behind the verse: *"... I... have breathed into it my spirit... (Al Hijr: 15: 29) "... for example, Isa in the sight of Allah, is like Adam. Allah created Adam from clay... (Ali 'Imran: 3:59)*

Well, it turns out, *"... my spirit... (Al Hijr: 15: 29)* comes from the soil. That is, the soil contains carbon atoms, hydrogen atoms, nitrogen atoms and oxygen atoms. Or in other words, *"... mys spirit... (Al Hijr: 15: 29)* or *"... His spirit... (As Sajdah: 32: 9)* which is the source of the formation of *"... hearing, sight and heart... (As Sajdah : 32: 9)*

Or *"... my spirit... (Al Hijr : 15: 29)* or *"... His spirit... (As Sajdah : 32: 9)* which is the source of the formation of *"... hearing, sight and heart... (As Sajdah: 32: 9)* is Deoxyribonucleic acid (DNA) which according to human DNA is composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

So, if some people think that the baby or Isa, son of Maryam, was born because of Allah *"...blow into her womb... (At Tahrir: 66:12)* is god in human form, then the assumption of some humans is totally wrong and violate the laws of Allah or the laws of nature.

CONCLUSION

Based on the description above, we can conclude that the secrets that are stored in the verse: *"And Maryam bint Imran who maintains her honor, then We breathed into her womb some of Our spirits... (At Tahrir: 66: 12)*

It turned out, *"...Our spirit... (At Tahrir: 66:12)* or *"...My spirit... (Al Hijr: 15:29)* which was blown into Maryam's womb. Then, Maryam became pregnant, and gave birth to Isa the son of Maryam.

Where, in fact, Allah breathed *"...Our spirit... (At Tahrir: 66:12)* or *"...My spirit... (Al Hijr: 15:29)* to all the wombs of women around the world.

Now, the truth is, *"...Our spirit... (At Tahrir: 66:12)* or *"...My spirit... (Al Hijr: 15:29)* is the source of human life. Without *"...Our spirit... (At Tahrir: 66:12)* or *"...My spirit... (Al Hijr: 15:29)* there will be no human on this earth.

Now, if there are some humans on this earth, they think that the baby born to a mother, whom Allah has *"...blowed into her womb... (At Tahrir: 66: 12)* is an incarnation of god, or god. in human form, then the assumption of some humans is a wrong assumption and is contrary to Allah's law or natural law.

Why do some people think that a baby born to a mother whom Allah has *"...blow into her womb... (At Tahrir: 66:12)* is an incarnation of god, or god in human form, is wrong and contradicts with Allah's law or natural law?

The answer is

It is hidden in the secret behind the verse: *"... I... have breathed into it my spirit... (Al Hijr: 15: 29) "...*

for example, Isa in the sight of Allah, is like Adam. Allah created Adam from clay...(Ali 'Imran: 3:59)

Well, it turns out, "... *my spirit...* (Al Hijr: 15: 29) comes from the soil. That is, the soil contains carbon atoms, hydrogen atoms, nitrogen atoms and oxygen atoms. Or in other words, "... *mys spirit...* (Al Hijr: 15: 29) or "... *His spirit...* (As Sajdah: 32: 9) which is the source of the formation of "... *hearing, sight and heart...*(As Sajdah : 32: 9)

Or "... *my spirit...*(Al Hijr : 15: 29) or "... *His spirit...* (As Sajdah : 32: 9) which is the source of the formation of "... *hearing, sight and heart...* (As Sajdah: 32: 9) is Deoxyribonucleic acid (DNA) which according to human DNA is composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

So, if some people think that the baby or Isa, son of Maryam, was born because of Allah "...*blow into her womb...* (At Tahrin: 66:12) is god in human form, then the assumption of some humans is totally wrong and violate the laws of Allah or the laws of nature.
