ABSTRACT

Before I write down what is the real reason why most people think that when humans die they incarnate, I first ask forgiveness from Allah SWT. Here I try to unmask the secret of what is the real reason most humans assume when humans die incarnate, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about what exactly is the reason most people think when humans die incarnate, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a male and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when he asks Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth (Al Baqarah: 2: 186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"Allah did not create and resurrect you except as one soul. Indeed, Allah is All-Hearing, All-Seeing. (Luqman: 31:28)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

"And among His signs is that you see the earth dry and arid, so when We send down water on it, it will surely move and thrive. Indeed, God Who gives life to it, surely can bring the dead to life... (Fushshilat: 41: 39)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)

"It is He Who created the heavens and the earth in six days: Then He resides on the Throne. He knows what enters the earth and what comes out of it and what descends from the heavens and what ascends to Him. And He is with you in wherever you are. And Allah is All-Seeing of what you do. (Al Hadid: 57:4)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

In an effort to unmask Allah's secrets about what exactly is the reason most humans assume when humans die incarnate, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose a hypothesis when humans die incarnate because the oxygen atoms that build my spirit come out of the dead body and are then inhaled by humans and animals, seen from the point of view of Deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms which is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

WHAT IS ACTUALLY THE REASON MOST PEOPLE BELIEVE IN INCARNATION, HUMANS TRANSFORM BECOME OTHER CREATURES

Now, we are still focusing our minds on uncovering the secrets contained behind the verse: *"Allah holds the soul when it dies and the soul that has not died when it sleeps..." (Az Zumar: 39: 42)*

Apparently, Allah has declared that *"Allah holds the soul when it dies and the soul that has not died when it sleeps..." (Az Zumar: 39: 42)*

Now, the question arises,

What does Allah actually mean by "*...holding the soul...(Az Zumar: 39: 42)* ?

The answer is,

Hidden in the secret behind the verse: "*...I perfected the scene and I breathed into him My spirit...*" (*Shaad: 38: 72*)

Well, it turns out that what Allah means is "*...holding the soul...(Az Zumar: 39: 42)* is Allah holding "*... my spirit ...*" (*Shaad: 38: 72*) that is in humans.

Now, "*... my spirit ...*" (*Shaad: 38: 72*) this is what happens when humans die and are buried in the ground after 30 days out of the dead human body.

WHAT HAPPENED TO MY SPIRIT THAT WAS OUT OF THAT BURIED DEAD HUMAN BODY

Well, after 30 days the dead human body was buried, "*...my spirit...*" (*Shaad: 38:72*) "*It was not Allah... resurrecting you but only like one soul... (Luqman :31:28)*

Now, because "*...my spirit...*" (*Shaad: 38:72*) is made up of oxygen atoms, hydrogen atoms, carbon atoms and nitrogen atoms, then these atoms are what make up "*...my spirit..*" (*Shaad: 38:72*) gathered before Allah.

But of course there are oxygen atoms, hydrogen atoms, carbon atoms and nitrogen atoms that come out of the dead human body that is also sucked in by the plants and flowers around the grave.

Only oxygen atoms and carbon atoms that make up carbon dioxide are sucked in by plants and flowers around the graves.

Then plants and flowers only need carbon atoms to make glucose as food for plants and flowers. While the oxygen atom is released again.

Well, it turns out that the oxygen atom reacts with the carbon atom to become carbon dioxide that comes out of the dead human body which is then sucked in by the plants and flowers around the grave, but the oxygen atom is released back because it is not used as a source nourished by plants and flowers.

The oxygen atoms that come out of the dead human body are then inhaled by humans and animals.

Or in other words, the oxygen atoms that come out of the body of a dead person reincarnate into another human and become an animal.

So, actually what is reincarnated is the oxygen atom that comes out of this dead human body whether it incarnates into another human or becomes an animal.

Or in other words, the energy of Allah that gives birth to quarks and the atoms that make up the building "*... my spirit ...*" (*Shaad: 38: 72*) does not disappear, but continues to be the source of life for the universe and everything in it, including humans.

Well, now the secret hidden behind the verse has been revealed: *"...Indeed Allah...Certainly can bring the dead back to life...(Fushshilat: 41:39)*

That is, Allah through Allah's energy revives the dead and continues to be the source of life for the universe and everything in it, including humans.

CONCLUSION

The conclusions that can be drawn from the explanation above are the secrets contained behind the verse: *"Allah holds the soul when it dies and the soul that has not died when it sleeps... (Az Zumar: 39: 42)*
