**ABSTRACT**

First of all, by asking forgiveness from Allah SWT here I am trying to reveal the signs of Allah SWT's greatness regarding Allah's secret about what actually was in the stick of Prophet Musa, being a snake, based on photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA). )

In the Qur'an found several verses that are the key to unlocking the secret of Allah's secret, what actually was in the staff of the Prophet Moses, became a snake, namely the following verses:

*"So Moses threw his staff, then suddenly the stick was a real snake. (Ash Syu'araa': 26: 32)*

*"Then he threw the stick, and suddenly it became a snake that was crawling fast. (Thaahaa: 20:20)*

*"So Moses dropped his staff, and immediately the stick became a real snake. (Al A'raaf: 7:107)*

*"And throw down your wand." So when Moses saw him moving like he was a nimble snake, he ran and turned back without looking. "O Moses, do not be afraid. Verily, those who are made apostles are not afraid before Me. (An Naml: 27:10)*

*"And throw down your staff. So when Moses saw him moving as if he were a swift snake, he ran and turned back without looking. "O Moses, come to me and do not be afraid. Verily, you are among those who are safe. (Al Qashash: 28:31)*

*"Then Moses dropped his staff and suddenly he swallowed the fake things they had invented (Asy Syu'araa': 26:45)*

*"And throw what is in your right hand, surely he will swallow what they do. "Indeed what they do is the trick of sorcerers. And the sorcerer will not be victorious, wherever he comes from." (Thaahaa: 20: 69)*

*"Allah is the light of the heavens and the earth.*

*"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when he asks Me, then let them fulfill (all My commands) and let them believe in Me, that they may always be in the truth.(Al Baqarah: 2:186)*

*"And why don't they think about themselves? Allah did not make the heavens and the earth and what is between them except with the truth and at an appointed time. And indeed, most of the people really deny meeting their Lord. (Ar Ruum: 30:8)*

*"... We are closer to him than his jugular vein, (Qaaf: 50:16)*

*"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourselves (Al Hijr: 15: 29)*

In an effort to open the veil about Allah's secret, what was actually in the staff of Prophet Moses, being a snake, the author based on photons, quarks and deoxyribonucleic acid or the molecular

structure of nucleic acids.

## **HYPOTHESIS**

Here the author proposes a hypothesis, actually the stick of Prophet Musa and the snake are the same, which contains Deoxyribonucleic acid (DNA) from the point of view of photons, quarks and Deoxyribonucleic acid (DNA).

## **DEOXYRIBONUCLEIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **PHOTON**

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## **QUARK**

If we want to know quarks, then we consider one of the hydrogen atoms which is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

## **WHAT'S IN THE WOOD AND IN THE SNAKE**

Now, we are still concentrating on exploring the secret hidden behind the verse: *"and throw down your stick." So when Moses saw him moving like he was a swift snake, he ran and turned back without looking. "O Moses, do not be afraid. Verily, those who are made apostles are not afraid before Me. (An Naml: 27:10)*

It turned out that Allah commanded Moses: *"...throw your stick." So when Moses saw him moving like a nimble snake... (An Naml: 27:10)*

Apparently, it was revealed now, why Allah ordered Moses: *"...throw your stick"...(An Naml: 27:10)*

Because in the stick of Prophet Musa made of wood, it contains Deoxyribonucleic acid (DNA)

Likewise when the Prophet Musa *"... saw him moving like he was a nimble snake... (An Naml: 27:10)*

Because indeed in the snake's body there is Deoxyribonucleic acid (DNA) the source of snake life.

So actually, between the wooden stick belonging to the Prophet Moses and the snake are the same.

Why are Moses' wooden sticks and snakes the same?

The answer is

Hidden in the secret of the verse: *"...blow into it my spirit... (Al Hijr: 15: 29)*

It means, *"... the spirit of Ku... (Al Hijr: 15: 29)* which is the source of life for plants, animals, humans and other living organisms.

Where *"... the spirit of Ku... (Al Hijr: 15: 29)* which is the source of life for plants, animals, humans and other living organisms is Deoxyribonucleic acid (DNA)

So, in fact, between the wooden stick of Prophet Musa and the snake there is a common source of life, namely *"... the spirit of Ku... (Al Hijr: 15: 29)* which is the source of life for plants, animals, humans and other living organisms. .

Or in other words, between the wooden stick of Prophet Musa and the snake there is a common source of life, namely *"... the spirit of Ku... (Al Hijr: 15: 29)* or Deoxyribonucleic acid (DNA)."

Now the secret hidden behind the verse has been revealed: *"...throw down your stick." So when Moses saw him moving like a nimble snake... (An Naml: 27:10)*

Namely, between the wooden stick of Prophet Musa and the snake there is a common source of life, namely *"... the spirit of Ku... (Al Hijr: 15: 29)* or Deoxyribonucleic acid (DNA)

## **LAYER OF LIGHT THAT HUMAN EYES SEE, LOOK LIKE A SNAKE**

Well, now we reveal the secret behind the verse: "And throw what is in your right hand, surely he will swallow what they do. *"Indeed what they do is the deception of sorcerers... (Thaahaa: 20: 69)*

It turned out, *"...Indeed what they did was a trick of a sorcerer...(Thaahaa: 20: 69)*

Why is what the sorcerer created a trick?

The answer is

Hidden in the secret of the verse: *"...Light upon light (in layers)...(An Nuur: 24: 35)*

It turns out that the snake made by the sorcerer, which is visible to our eyes, is actually *"...Light upon light (in layers)...(An Nuur: 24: 35)*

Or in other words, the sorcerer uses the light of the sun in layers, where one of the layers of light is twisted or contorted like a snake.

Well, because the layers of sunlight can be bent, twisted and twisted, it looks like a living snake to our eyes.

And of course, the stick of Prophet Musa which has the same source of life, as the source of life for snakes, namely *"... the spirit of Ku... (Al Hijr: 15: 29)* or Deoxyribonucleic acid (DNA) when it meets *"... Light on light (in layers) ... (An Nuur: 24: 35)* can be absorbed as a source of life.

So, it is as if Moses' stick, which is a snake, because of the same Deoxyribonucleic acid (DNA),

swallowed a snake made by a sorcerer.

Or in other words, the oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms that are in the "... *Spirit Ku...* (*Al Hijr: 15: 29*) or Deoxyribonucleic acid (DNA) get photon energy from layers of sunlight. .

## CONCLUSION

Based on the description above, we can conclude that the secret hidden behind the verse: "*and throw down your stick. So when Moses saw him moving like he was a swift snake, he ran and turned back without looking. O Moses, do not be afraid. Verily, those who are made apostles are not afraid before Me. (An Naml: 27:10)*

It turned out that Allah commanded Moses: "...*throw your stick. So when Moses saw him moving like a nimble snake...* (*An Naml: 27:10*)

Where "... *the spirit of Ku...* (*Al Hijr: 15: 29*) which is the source of life for plants, animals, humans and other living organisms is Deoxyribonucleic acid (DNA)

Or in other words, between the wooden stick of Prophet Musa and the snake there is a common source of life, namely "... *the spirit of Ku...* (*Al Hijr: 15: 29*) or Deoxyribonucleic acid (DNA)."

Now the secret hidden behind the verse has been revealed: "...*throw down your stick. So when Moses saw him moving like a nimble snake...* (*An Naml: 27:10*)

Namely, between the wooden stick of Prophet Musa and the snake there is a common source of life, namely "... *the spirit of Ku...* (*Al Hijr: 15: 29*) or Deoxyribonucleic acid (DNA)
