ABSTRACT

Before I write down the problem if Allah travels between galaxies using the speed of light of Allah's particles, I first ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret about when Allah travels between galaxies using the speed of light of Allah's particles, from the point of view of the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about when Allah travels between galaxies using the speed of Allah's particles of light, namely the following verses:

"Allah... the light of the Skys and the earth... the light upon the light... (An Nuur: 24: 35)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a man and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)

"Praise be to Allah, the Creator of the skys and the earth, Who made the angels as messengers with wings, two, three and four respectively. Allah adds to His creation what He wills. Verily, Allah has power over all things. (Faathir: 35:1)

"But Allah acknowledges the Qur'an which He has revealed to you. Allah has sent it down with His knowledge; and the angels are witnesses. It is enough for Allah to acknowledge it. (An Nisaa': 4: 166)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth.(Al Baqarah: 2:186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"And when We said to the angels: "Prostrate to Adam," then they bow down except Satan; he is reluctant and arrogant and is one of the disbelievers. (Al Baqarah: 2:34)

"He arranges affairs from the skys to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)

"Angels and spirits ascend to God in a day whose measure is fifty thousand years." (Al Ma'aarij: 70:4)

"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2:115)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)

"Allah, there is no god but He Who Lives eternally and continually takes care of; neither sleeps nor sleeps. To Him belongs what is in the heavens and the earth. No one can intercede with Allah without His permission? Allah knows what is before them and behind them, and they know nothing of Allah's knowledge except what He wills. Allah's seat covers the heavens and the earth. And Allah does not find it difficult to maintain them, and Allah is Most High, Most Merciful. Great.(Al Baqarah: 2:255)

"Those are the ones who get a share of what they earn; and Allah is swift in reckoning. (Al Baqarah: 2: 202)

"Then they are returned to Allah, their true Ruler. Know that all the laws belong to Him. And He is the Quickest Maker of Accountants. (Al An'aam: 6: 62)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

In an effort to unmask Allah's secret about when Allah travels between galaxies using the speed of light of Allah's particles, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I put forward the hypothesis that Allah travels between galaxies using the speed of light of Allah's particles, 1 light year according to human calculations is equal to 1.73 seconds according to Allah's reckoning, from the perspective of Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

THE DISTANCE OF ONE LIGHT YEAR BY HUMAN CALCULATIONS EQUAL TO 1.73 LIGHT SECONDS DISTANCE ACCORDING TO ALLAH'S CALCULATIONS

Now, we are still focusing our minds on uncovering the secrets contained behind the verse: *"They are the ones who get a share of what they earn and Allah is very quick in reckoning. (Al Baqarah: 2: 202) "... The fastest Calculator (Al An'aam: 6:62)*

It turns out, Allah is very fast in calculating whether calculations about what has been done and attempted by humans, or calculations about legal issues that have been carried out by humans,

Because the seven skys are very wide, in calculating the distance using the distance of light years, which means how long the light carried by photons in vacuum air for 1 year. According to human calculations the distance of one light year is 9 460 730 472 580.8 km.

Now, if calculated according to the calculation of the speed of light, 1 light year according to human calculations, is equal to 1.73 light seconds according to Allah's calculation using the speed of light of Allah's particles.

IF ALLAH'S PARTICLES TRAVEL FROM THE RIGHT END TO THE LEFT END OF THE BIMASAKTI GALAXY, IT ONLY TAKES 2 LIGHT DAYS, WHILE IF THE LIGHT SPEED OF THE PHOTON IS CALCULATED ACCORDING TO THE HUMAN IT TAKES 100 000 LIGHT YEARS

Well, it turns out that the distance between the right and left ends of the Milky Way galaxy, which is 100 000 light years away, if taken by Allah's particles only takes 2 light days.

Likewise, if Allah with Allah's particles wants to visit the Andromeda galaxy, which is 2 900 000 light years away from Earth, according to human calculations, but if Allah strikes Allah's particles, it only takes 58 light days.

Also, if Allah with Allah's particles wants to visit the galaxy cluster Abell 2218 which is 2 000 000 000 light years away from Earth, it turns out that using Allah's particles only takes 109.6 light years.

Well, now it's been revealed, the secret behind the verse: *"... Allah is very quick in reckoning. (Al Baqarah:2:202) "...He is the quickest Calculator (Al An'aam: 6: 62) "... a day whose levels are fifty thousand years (Al Ma'aarij: 70:4)*

That is, the speed of Allah's particles is calculated by the speed of light, where 1 light year according to human calculations is equal to 1.73 light seconds according to Allah's calculations.

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verse: *"They are the ones who get a share of what they earn and Allah is very quick in reckoning. (Al Baqarah: 2: 202) "... The fastest Calculator (Al An'aam: 6:62)*

It turns out, Allah is very fast in calculating whether calculations about what has been done and attempted by humans, or calculations about legal issues that have been carried out by humans,

Now, if calculated according to the calculation of the speed of light, 1 light year according to human calculations, is equal to 1.73 light seconds according to Allah's calculation using the speed of light of Allah's particles.

Well, it turns out that the distance between the right and left ends of the Milky Way galaxy, which is 100 000 light years away, if taken by Allah's particles only takes 2 light days.

That is, the speed of Allah's particles is calculated by the speed of light, where 1 light year according to human calculations is equal to 1.73 light seconds according to Allah's calculations.
