**ABSTRACT**

First of all, by asking forgiveness from Allah SWT, here the author tries to reveal the signs of Allah SWT's greatness regarding when the earth dies, paradise has no new resident, it is moved to another earth and another sky, 252 years to come, based on photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).

There are several verses that open Allah's secrets about when the earth dies, paradise has no new resident, it is moved to another earth and another sky, 252 years to come, namely the verses:

*"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)*

*"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)*

*"So when I have perfected the event, and have breathed into it My spirit, then submit to it prostrating yourselves (Al Hijr: 15:29)*

*"And for every human being We have fixed his deeds on his neck. And We will bring out for him on the Day of Resurrection a book which he finds open. (Al Israa ': 17:13)*

*"Read your book, it is enough for yourself at this time to be reckoning against you." (Al Israa ': 17: 14)*

*"The paradise of 'Adn which they enter into, rivers flow under it, in that paradise they will find everything they want. Thus Allah will reward those who are pious, (An Nahl: 16: 31)*

*"In Paradise there will be a lot of fruit for you, some of which you eat. (Az Zukhruf: 43:73)*

*"Enter you into heaven, you and your wives will be rejoiced." (Az Zukhruf: 43:70)*

*"Those who were earlier, were first from the emigrants and the Ansar and those who followed them well, Allah is pleased with them and they are pleased with Allah and Allah has provided for them paradises in which rivers flow they are eternal in them. That's a big win. (At Taubah: 9: 100)*

*"When the sun is rolled up, (At Takwiir: 81: 1)*

*"And when the stars fall, (At Takwiir: 81: 2)*

*"The Day of Resurrection is near. (An Najm: 53: 57)*

*"Indeed, the Day of Resurrection is coming. I keep it a secret so that each person will be rewarded with what he has earned." (Thaahaa: 20:15)*

*"Angels and spirits ascend to God in a day whose level is fifty thousand years. (Al Ma'aarij: 70:*

lives in the world.

While those who live in paradise are "... *my spirit...* (*Shaad: 38: 72*) or "... *Allah's spirit...*(*Shaad : 38:72*) who do not have a body, not like humans who have a body, built with blood, flesh and bone. Body "... *my spirit...* (*Shaad: 38: 72*) or "... *Allah's spirit...*(*Shaad : 38:72*) constructed with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

So, actually, "... *my spirit...* (*Shaad: 38: 72*) or "... *Allah's spirit...*(*Shaad : 38:72*) that lives in paradise, actually, is **not** "...*eternal ...*(*At Taubah: 9: 100*), because hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms will disappear, return to Allah's energy, after reaching the age of **10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000** years.

Now, the problem is,

For paradise is on earth and earth dies, when "...*the sun is rolled up,* (*At Takwiir: 81:1*), what will happen to life in paradise and all its resident consisting of "... *my spirit...* (*Shaad: 38: 72*) or "...*Allah's spirit...*(*Shaad : 38:72*)

Well, the answer is in the secret behind the verse: "... *the earth was replaced with another earth...* (*Ibrahim: 14: 48*)

So, in fact, the sun will die, because "...*the sun is rolled up,* (*At Takwiir: 81: 1*), running out of atomic hydrogen fuel, which according to human calculations is about **4600 000 000** years to come or **4.6** billion years from now. Now, but if it is calculated according to Allah's calculations it is **252** years, based on the calculation of the speed of light of Allah's particles "... *a day whose levels are fifty thousand years* (*Al Ma'aarij: 70: 4*) or calculated mathematically **4600000000: 18262980 = 251.8** years or rounded off to **252** years.

Now, if "...*the sun is rolled up,* (*At Takwiir: 81:1*) or the sun dies, then the earth will die too. If the earth dies, then on earth there will be no more hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, while these atoms are indispensable for life in paradise.

Now, because in the dead earth there are no more hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then paradise must be moved to "...*another earth...*(*Ibrahim: 14:48*) which contains hydrogen atoms, carbon, nitrogen atoms and oxygen atoms for life in paradise and all its resident, namely"... *my spirit...* (*Shaad: 38: 72*) or "... *Allah's spirit...*(*Shaad : 38:72*)

Well, "...*the other earth...* (*Ibrahim: 14: 48*) which has hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms is in the Milky Way galaxy, the place where the sun and the earth and other planets revolve around the sun is now.

In the Milky Way galaxy there are about **150** star clusters, each of which consists of **1000 000** stars. Every star is surrounded by planets, just like the sun, which the earth and other planets revolve around the sun.

So, in the Milky Way galaxy there are already **150 000 000** stars, including the sun which the earth and other planets revolve around the sun.

Now, if the sun and earth are now dead, then paradise will be moved to another planet or earth that is still alive, where there are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms for survival in paradise.

## CONCLUSION

Based on the description above, we can conclude that the secrets that are hidden behind the verse: *"...Allah has provided for them paradises where rivers flow in them... they are eternal in them...(At Taubah: 9 : 100) "Enter you into paradise, you and your wives will be delighted." (Az Zukhruf: 43: 70) "The Day of Resurrection is near. (An Najm: 53: 57) "When the sun is rolled up, (At Takwiir: 81: 1) "... the earth is replaced with another earth and the sky (another) ... (Ibrahim: 14: 48)*

Well, it turns out, here Allah has declared *"...for them are paradises where rivers flow in them...they are eternal in them...(At Taubah: 9: 100)*

Now the question arises,

What does Allah really mean *"...they are eternal in it...(At Taubah: 9: 100)* whereas *"... my spirit... (Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38:72)* that comes out of the human body that is dead, impermanent, after reaching the age of **10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000** years, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms that make up *"... my spirit... (Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38:72)* will be lost, because of the loss of nuclear power that holds the quarks in the atom back into Allah's energy?

Well, the answer is *"...eternal...(At Taubah: 9: 100)* according to the human mind who has a body and lives in the world.

While those who live in paradise are *"... my spirit... (Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38:72)* who do not have a body, not like humans who have a body, built with blood, flesh and bone. Body *"... my spirit... (Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38:72)* constructed with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

So, actually, *"... my spirit... (Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38:72)* that lives in paradise, actually, is **not** *"...eternal ... (At Taubah: 9: 100)*, because hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms will disappear, return to Allah's energy, after reaching the age of **10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000** years.

Now, the problem is,

For paradise is on earth and earth dies, when *"...the sun is rolled up, (At Takwiir: 81:1)*, what will happen to life in paradise and all its resident consisting of *"... my spirit... (Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38:72)*

Well, the answer is in the secret behind the verse: *"... the earth was replaced with another earth... (Ibrahim: 14: 48)*

So, in fact, the sun will die, because *"...the sun is rolled up, (At Takwiir: 81: 1)*, running out of atomic hydrogen fuel, which according to human calculations is about **4600 000 000** years to come or **4.6** billion years from now. Now, but if it is calculated according to Allah's calculations it is **252** years, based on the calculation of the speed of light of Allah's particles *"... a day whose levels are fifty thousand years (Al Ma'aarij: 70: 4)* or calculated mathematically **4600000000: 18262980 = 251.8** years or rounded off to **252** years.

Now, if *"...the sun is rolled up, (At Takwiir: 81:1)* or the sun dies, then the earth will die too. If the earth dies, then on earth there will be no more hydrogen atoms, carbon atoms, nitrogen atoms and

oxygen atoms, while these atoms are indispensable for life in paradise.

Now, because in the dead earth there are no more hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then paradise must be moved to "...another earth...(Ibrahim: 14:48) which contains hydrogen atoms, carbon, nitrogen atoms and oxygen atoms for life in paradise and all its resident, namely"... *my spirit... (Shaad: 38: 72)* or "...Allah's spirit...(Shaad : 38:72)

Well, "...the other earth... (Ibrahim: 14: 48) which has hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms is in the Milky Way galaxy, the place where the sun and the earth and other planets revolve around the sun is now.

In the Milky Way galaxy there are about **150** star clusters, each of which consists of **1000 000** stars. Every star is surrounded by planets, just like the sun, which the earth and other planets revolve around the sun.

So, in the Milky Way galaxy there are already **150 000 000** stars, including the sun which the earth and other planets revolve around the sun.

Now, if the sun and earth are now dead, then paradise will be moved to another planet or earth that is still alive, where there are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms for survival in paradise.
