ABSTRACT

Before I write down the problem when humans say Allahu Akbar, then I imagine the form of Allah from the smallest particle of Allah which is almost zero, to the area of the seven infinite skys, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret about when humans say Allahu Akbar, Allah's form is imagined from as small as a nearly zero particle of Allah, to an infinite seven skys, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about when humans say Allahu Akbar, then the image of Allah is imagined from the smallest particle of Allah which is almost zero, to the area of the seven infinite skys, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"Read in the name of your Lord Who created (Al 'Alaq: 96: 1) "He has created man from a clot of blood. (Al 'Alaq: 96: 2) "The one who teaches by means of kalam (Al 'Alaq: 96: 4)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)

"And verily We have created man from an essence from clay. (Al Mu'minuun: 23:12)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a man and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth.(Al Baqarah: 2:186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"And when We said to the angels: "Prostrate to Adam," then they bow down except Satan; he is reluctant and arrogant and is one of the disbelievers. (Al Baqarah: 2:34)

"He arranges affairs from the skys to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)

"Angels and spirits ascend to God in a day whose measure is fifty thousand years." (Al Ma'aarij: 70:4)

"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2:115)

"Angels and spirits descend with the permission of their Lord to manage all affairs (Al Qadr: 97: 4)

And We said: "O Adam, dwell in this paradise for you and your wives, and eat from its abundant good food wherever you like, and do not approach this tree, which causes you to be of the wrongdoers." Baqarah : 2:35)

"Then both of them were derailed by the devil from heaven and brought out from their original state and We said: "Come down! some of you are enemies to others, and for you there is a place to live on earth, and the pleasures of living to an appointed time." (Al Baqarah: 2:36)

"The paradise of 'Adn which they enter together with the righteous from their fathers, wives and offspring, while the angels enter their places from all doors; (Ar Ra'd: 13:23)

"And each one came, with him an angel of escort and an angel of witness. (Qaf: 50: 21)

"O you who believe, protect yourselves and your families from a hell fire whose fuel is people and stones; its guardians are angels who are harsh, harsh, and do not disobey Allah in what He commands them and always do what is commanded. (At Tahrim : 66: 6)

"And if We had willed, We would have given every soul guidance, but the word has remained from Me: "Indeed, I will fill the Hell with jinns and humans together." (As Sajdah: 32:13)

"And give good tidings to those who believe and do good, that for them are provided gardens with rivers flowing in them. Every time they are given sustenance of fruit in those paradises, they say: "This is what was given to them. us first." They are given similar fruits and for them are pure wives and they will abide therein (Al Baqarah: 2:25)

"And they ask you about the spirit. Say: "The spirit belongs to my Lord, and knowledge is not given to you but a little." (Al Israa ': 17: 85)

"And when Moses came for an appointed time and the Lord had spoken to him, Moses said: "O my Lord, show me so that I can see You." The Lord said: "You will never be able to see Me, but look at the hill, then if it stays where it is you will surely see me." When his Lord appeared to the mountain, he made the mountain crumble and Moses fell unconscious. So when Moses came back to his senses, he said: "Glory be to him. You, I repent to You and I am the first to believe." (Al A'raaf: 7:143)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

In an effort to open the veil of Allah's secret about when humans say Allahu Akbar, Allah's form is imagined from the smallest particle of Allah which is almost zero, to the seven infinite skys, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose a hypothesis when humans say Allahu Akbar, Allah's form must be stretched from the smallest particle of Allah which is almost zero, to the area of the seven infinite skys, seen from the point of view of Deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

WHAT HUMANS ALWAYS FORGET IS, WHEN HUMANS SPEAK ALLAHU AKBAR, THE IMMEDIATE IMAGE OF ALLAH ALMIGHTY GREAT, WHY ALLAH'S FORM FROM A SMALL PARTICLE OF ALLAH THAT IS ALREADY ZERO TO THE WIDE OF THE SEVEN INFINITE SKY

Now, we are still focusing our minds on uncovering the secrets contained behind the verses: *"... wherever you face there is the face of Allah... (Al Baqarah: 2: 115)" Who has created the seven skys in layers. ..(Al Mulk : 67: 3)"...I breathed on him my spirit...(Shaad : 38:72) "...I am near...(Al Baqarah: 2: 186)"... a day whose levels are fifty thousand years (Al Ma'aarij: 70:4)*

Apparently, here Allah has explained clearly to humans, that Allah's form is from the smallest particle of Allah which is almost zero, which has the speed of light 5 475 103 664 604.84 km per

second, which is formed by Allah's energy "*...wherever you turn therein is the face of Allah ... (Al Baqarah: 2: 115)* Until the form of Allah is as wide and as large as "*... the seven skys in layers... (Al Mulk: 67: 3)* which is large and infinitely wide.

SO ALLAH AKBAR WAS FROM ALMOST ZERO PARTICLES OF ALLAH TO LARGE IN THE SPACE OF SEVEN SKYS

It turns out, almost all people in the world, say that Allahu Akbar is the Most Great Allah.

Now, if humans say Allahu Akbar with the understanding of Allah the Most Great Allah, then humans do not understand how to just become big, something that is impossible to happen, contrary to Allah's law or natural law.

Whereas what is meant by Akbar being associated with Allah is, before becoming Akbar, starting from the smallest one that is not large, namely the particle of Allah, which is formed with Allah's energy, where the particle of Allah is almost zero in size,
0.000000000 000000000 000000000 000000000 000000000 000000000 000000000 000 333 591 754 209 188 9 grams

Then these nearly zero particles of Allah, infinitely numerous, became the building of the seven skys which was infinitely large and vast.

Well, this is what most people in the world forget, when people say Allahu Akbar, the only thing that can be imagined is Allah, the Most Great. Whereas Allahu Akbar is starting from a very small particle of Allah to the seven skys which are infinitely wide and large.

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verses: "*... wherever you face there is the face of Allah... (Al Baqarah: 2: 115)*" *Who has created the seven skys in layers. ..(Al Mulk : 67: 3)*"*...I breathed on him my spirit...(Shaad : 38:72)* "*...I am near...(Al Baqarah: 2: 186)*"*... a day whose levels are fifty thousand years (Al Ma'aarij: 70:4)*

Apparently, here Allah has explained clearly to humans, that Allah's form is from the smallest particle of Allah which is almost zero, which has the speed of light 5 475 103 664 604.84 km per second, which is formed by Allah's energy "*...wherever you turn therein is the face of Allah ... (Al Baqarah: 2: 115)* Until the form of Allah is as wide and as large as "*... the seven skys in layers... (Al Mulk: 67: 3)* which is large and infinitely wide.

It turns out, almost all people in the world, say that Allahu Akbar is the Most Great Allah.

Now, if humans say Allahu Akbar with the understanding of Allah the Most Great Allah, then humans do not understand how to just become big, something that is impossible to happen, contrary to Allah's law or natural law.

Whereas what is meant by Akbar being associated with Allah is, before becoming Akbar, starting from the smallest one that is not large, namely the particle of Allah, which is formed with Allah's energy, where the particle of Allah is almost zero in size,
0.000000000 000000000 000000000 000000000 000000000 000000000 000000000 000 333 591 754 209 188 9 grams

Then these nearly zero particles of Allah, infinitely numerous, became the building of the seven skys which was infinitely large and vast.

Well, this is what most people in the world forget, when people say Allahu Akbar, the only thing

that can be imagined is Allah, the Most Great. Whereas Allahu Akbar is starting from a very small particle of Allah to the seven skys which are infinitely wide and large.
