ABSTRACT

Firstly, by asking Allah's forgiveness, here I am trying to reveal the signs of Allah's greatness regarding the secret of why Adam was created directly by Allah in heaven, not on earth, from the point of view of photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (deoxyribonucleic acid). DNA)

The signs of God's greatness regarding why Adam was created directly by God in heaven, not on earth, are stored in the following verses:

"So We said: "O Adam, verily this is an enemy to you and to your wife, so do not let him expel you both from Paradise, which will cause you harm. (Thaaha: 20:117)

"Then both of them were derailed by the devil from heaven and brought out from their original state and We said: "Come down! some of you are enemies to others, and for you there is a dwelling place on earth, and the pleasures of living to an appointed time." (Al Baqarah: 2:36)

"Indeed We created them directly (Al Waaqi'ah: 56: 35)

"And We made them virgins. (Al Waaqi'ah: 56: 35)

"Full of love again his age. (Al Waaqi'ah: 56: 37)

"They were passed around plates of gold and cups, and in heaven is everything the heart desires and is pleasing to the eye, and you will abide in them forever." (Az Zukhruf: 43:71)

"In Paradise there are many fruits for you, some of which you eat (Az Zukhruf: 43: 73)

"And hasten to forgiveness from your Lord and to Paradise, whose breadth is as wide as the skys and the earth, which is prepared for those who are pious." (Ali 'Imran: 3:133)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)

"Allah is the light of the heavens and the earth...Light upon light...(An Nuur: 24: 35)

"The angels and Gabriel ascended to Allah in a day which amounted to fifty thousand years (Al Ma'aarij: 70:4)

"Who knows the unseen, then He does not show anyone about the unseen. (Al Jin: 72: 26)

"And Mary, who has kept her honor, then We breathed into her womb a spirit from Us and We made her and her child a great sign for the worlds. (Al Anbiyaa ': 21: 91)

"Allah is the Creator of the heavens and the earth, and when He wills something, He simply says to it: "Be!" Then it is. (Al Baqarah: 2:117)

In an effort to unmask the greatness of Allah SWT regarding why Adam was created directly by Allah in heaven, not on earth, I use the basis of photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

HYPOTHESIS

Here I propose a hypothesis, Adam was created directly by Allah in heaven, not on earth, because in heaven can be directly created from hydrogen atoms, carbon atoms, oxygen atoms and nitrogen atoms, seen from photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms which is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

NATURAL LAW IS ALLAH'S LAW APPLICABLE ON EARTH

Now, we are still trying to focus our minds to reveal the secret hidden behind the verse: ***"Allah is the Creator of the heavens and the earth, and if He wills something, then He only says to him: "Be!" Then he was. (Al Baqarah: 2 : 117)***

Well, it turns out, the law that applies in the paradise and on earth is the law of the universe.

That is, everything that happens in the paradise and on earth must go through the laws of the universe.

Or in other words, what happens in the paradise and the earth follows the law of Allah.

Well, when "...*He wants something, then He just says to him: "Be!" Then so be it. (Al Baqarah: 2: 117)*

It turns out that when Allah said on earth: "*Be!*" *Then so be it. (Al Baqarah: 2: 117)* in reality must go through the process of natural law.

Means "...*Then he was. (Al Baqarah: 2: 117)* requires a process of time on this earth.

Why does Allah need a process of time when he wants to create something "...*Be!...*" *(Al Baqarah: 2: 117) on earth?*

The answer is

Hidden behind a secret in the verse: "*The angels and Gabriel ascended to Allah in a day which amounted to fifty thousand years (Al Ma'aarij: 70:4)*

Well, it turns out that here it is clearly illustrated, there is a difference in the calculation of time, between the calculation of time according to Allah and the calculation of time according to humans.

If Allah says 1 second, it turns out that after being calculated by the calculation of human time, then humans have to wait 7 months.

Well, when, in 1 second, "...*We breathed into her womb the spirit from Us...(Al Anbiyaa' : 21: 91)*

In fact, according to Allah's calculation, 1 second, if calculated by human calculations, then Maryam is already 7 months pregnant.

So, now it is revealed, if Allah "...*wills something, then He just says to him: "...Be!" Then so be it. (Al Baqarah: 2: 117), if Allah's will is on earth, "...Then it will be done. (Al Baqarah: 2: 117),* it requires a time process, if Allah says 1 second, then humans have to wait 7 months, then it happens.

IN PARADISE IF ALLAH SAYS SO, THEN IT WILL BE IMMEDIATELY, WITHOUT A PROCESS OF TIME

Now, let's unveil the secret behind the verse: "*Indeed We created them directly (Al Waaqi'ah: 56: 35) and We made them virgins. (Al Waaqi'ah: 56: 35)*

Apparently, the heaven realm and the earth realm, are different.

Why are paradise realms and earth realms different?

The answer is

Hidden in the secret behind the verse: "*Who knows the unseen, then He does not show anyone about the unseen. (Al Jin: 72: 26)*

That is, the realm of heaven is the realm of "...*the unseen...(Al Jin: 72: 26)*, the realm where atoms gather and live.

Well, because in paradise is a realm of atoms that cannot be seen by the human eye, because the only living things are atoms, then when Allah wills "...*to make them virgins. (Al Waaqi'ah: 56: 35) "...directly (Al Waaqi'ah: 56: 35) , it is enough to say "Be!" Then it is. (Al Baqarah: 2: 117)* without any waiting time process, like on earth.

WHY ADAM AND HIS WIFE WAS CREATED IN PARADISE, NOT ON EARTH

Now then, let's unveil the secret behind the verse: *"So when I have perfected the event, and have blown my spirit into it, then submit to it prostrating yourself (Al Hijr: 15: 29)*

Apparently, when Allah had perfected Adam's body, Allah immediately *"...blowed into it my spirit, then bow down to him prostrating" (Al Hijr: 15: 29)*

When Adam's body has perfected its shape, then it is blown *"... my spirit... (Al Hijr: 15: 29) "... Be!" Then he is. (Al Baqarah: 2: 117)* without any waiting time process , as on earth.

So, Allah without having to blow *"...into his womb the spirit of Us...(Al Anbiyaa ': 21: 91)*

That is, because Adam did not have a mother, so Allah immediately breathed into Adam's perfect body *"... my spirit... (Al Hijr: 15: 29)*

Now, the secret that is hidden behind the verse has been revealed: *"So when I have perfected the event, and have breathed into it my spirit, then submit to it by prostrating yourself (Al Hijr: 15: 29)*

That is, Adam was created directly in heaven, then, angels, jinn, devils and satans must bow down to Adam, in a sense, prostrate to Allah who created Adam directly in paradise.

CONCLUSION

From what has been described above we can now conclude that the secret hidden behind the verse: *"Allah is the Creator of the heavens and the earth, and if He wills something, then He only says to him: "Be!" Then he was. (Al Baqarah: 2 : 117)*

Well, it turns out, the law that applies in the paradise and on earth is the law of the universe.

That is, everything that happens in the paradise and on earth must go through the laws of the universe.

Or in other words, what happens in the paradise and the earth follows the law of Allah.

Means *"...Then he was. (Al Baqarah: 2: 117)* requires a process of time on this earth.

Why does Allah need a process of time when he wants to create something *"...Be!..." (Al Baqarah: 2: 117) on earth?*

The answer is

Hidden behind a secret in the verse: *"The angels and Gabriel ascended to Allah in a day which amounted to fifty thousand years (Al Ma'aarij: 70:4)*
