ABSTRACT

Before the author writes the problem of why Allah created humans from carbon atoms, nitrogen atoms, hydrogen atoms and oxygen atoms, what is the relationship with the creation of the seven skys, first the author asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret of why Allah created humans from carbon atoms, nitrogen atoms, hydrogen atoms and oxygen atoms, what is their relationship with the creation of the seven skys, based on the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secret about why Allah created man from carbon atoms, nitrogen atoms, hydrogen atoms and oxygen atoms, what is their relationship with the creation of the seven skys, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"Read in the name of your Lord Who created (Al 'Alaq: 96: 1) "He has created man from a clot of blood. (Al 'Alaq: 96: 2) "The one who teaches by means of kalam (Al 'Alaq: 96: 4)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)

"And verily We have created man from an essence of clay. (Al Mu'minuun: 23:12)

"Then We made the essence of semen in a solid place (Al Mu'minuun: 23:13)

"Then We made the semen a clot of blood, then We made the clot of blood into a lump of flesh, and We made the lump of flesh into bones, then We covered the bones with flesh. Then We made him another creature. So holy is Allah, The Best Creator (Al Mu'minun: 23:14)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when he asks Me, then let them fulfill (all My commands) and let them believe in Me. Me, that they may always be in the truth.(Al Baqarah: 2:186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"And they ask you to hasten the punishment, even though Allah will never break His promise. Indeed, a day with your Lord is like a thousand years according to your reckoning. (Al Hajj: 22: 47)

"He arranges affairs from the heavens to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)

"Angels and spirits ascend to God in a day whose measure is fifty thousand years." (Al Ma'aarij: 70:4)

"Who has created the seven skys in layers. You do not see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"It is He who has made the earth a bed for you and the sky a roof, and He sends down water from the sky, then He produces with it all the fruit as sustenance for you; therefore do not establish partners with Allah, while you know. Al Baqarah : 2:22)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Wise, All-Knowing. (Al Baqarah: 2:115)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)

"So He made it seven skys in two periods. He revealed in each sky its affairs. And We adorn the near sky with bright stars and We take care of it as well as possible. Such is the provision of the Mighty, All-Knowing. (Fushshilat :41:12)

In an effort to open the veil of Allah's secret about why Allah created humans from carbon atoms, nitrogen atoms, hydrogen atoms and oxygen atoms, what is their relationship with the creation of the seven skys, the author uses the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here the author proposes the hypothesis that Allah created man from carbon atoms, nitrogen atoms, hydrogen atoms and oxygen atoms, Allah created the seven heavens from carbon atoms, nitrogen atoms, hydrogen atoms and oxygen atoms, based on Deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

WHY ALLAH CREATED HUMANS FROM CARBON ATOM, NITROGEN ATOM, HYDROGEN ATOM AND OXYGEN ATOM, WHAT DOES IT HAVE TO DO WITH THE CREATION OF THE SEVEN SKYS

Now, we are still concentrating on uncovering the secrets contained behind the verses: "... *We have created man from the essence of the ground (Al Mu'minuun: 23: 12)* "... *We made the essence of semen in a solid place (Al Mu'minuun: 23: 13)* "... *We made the semen into blood... flesh... bones... We made... other creatures... (Al Mu' minuun: 23:14)* "... *when I have perfected the fetus and I breathed into him My spirit... (Shaad: 38: 72)* "*He who made the earth a bed for you and the sky a roof... (Al Baqarah: 2: 22)*

Here Allah has declared "... *We have created man from the essence of the ground (Al Mu'minuun: 23: 12)*

Now the question arises,

What exactly, is meant by Allah "... *the essence of the ground (Al Mu'minuun: 23: 12)?*

The answer is that soil contains carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms.

Well, carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms form "...*semen...(Al Mu'minuun: 23: 13)*

Inside the "...*semen...(Al Mu'minuun: 23: 13)* contains Deoxyribonucleic acid or DNA. Where in DNA contains 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

So, actually humans were created from carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms which form Deoxyribonucleic acid or DNA.

DNA is what "...*make... hearing, sight and heart... (As Sajdah: 32: 9)*

Well, based on this DNA also formed "...*blood...flesh...bone...(Al Mu'minuun: 23:14)* which forms the fetus. Or in other words, based on this DNA "... *We made... other creatures... (Al Mu'minuun: 23: 14)*

Now, Allah has also declared "*Allah who made the earth a bed for you and the sky a roof... (Al*

Baqarah: 2: 22)

It turns out that Allah has "***...made the earth...and the sky...(Al Baqarah: 2:22)*** Where, "***...the earth... and the sky...(Al Baqarah: 2:22)*** made of carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms. As for "***...the sky...(Al Baqarah: 2:22)*** is the expanse of the room on which there is "***...earth...(Al Baqarah: 2:22)***

So, actually Allah created the skys, the earth and humans from carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms. Or in other words, Allah created the skys, the earth and humans from "***...my spirit...(Shaad: 38:72)*** or "***...Allah's spirit...(Shaad: 38:72)***, because "***...my spirit...(Shaad: 38:72)*** or "***...Allah's spirit...(Shaad: 38:72)*** which is built from carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms.

Now, the secret has been revealed, which is behind the verse: "***He who made the earth a bed for you and the sky a roof ... (Al Baqarah: 2: 22)***" ... ***We have created man from the essence of the ground (Al Mu'минуun: 23:12)***

That is, Allah created "***...earth...and sky...(Al Baqarah: 2:22)*** and "***...humans...(Al Mu'минуun: 23:12)*** from "***...my spirit...(Shaad: 38:72)*** or "***...Allah's spirit...(Shaad: 38:72)*** which is built from carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms.

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verses: "***... We have created man from the essence of the ground (Al Mu'минуun: 23: 12)***" "***... We made the essence of semen in a solid place (Al Mu'минуun: 23: 13)***" "***... We made the semen into blood... flesh... bones... We made... other creatures...
