ABSTRACT

First of all, by asking forgiveness from Allah SWT, here the author tries to reveal the signs of the greatness of Allah SWT about why Allah created life in paradise like life on earth, based on the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

Signs of the greatness of Allah SWT regarding why Allah created life in paradise like life on earth, in the verses:

"And hasten to forgiveness from your Lord and to Paradise, whose breadth is as wide as the skys and the earth, which is prepared for those who are pious." (Ali 'Imran: 3:133)

"Enter you into heaven, you and your wives will be rejoiced." (Az Zukhruf: 43:70)

"Those who were earlier, were first from the emigrants and the Ansar and those who followed them well, Allah is pleased with them and they are pleased with Allah and Allah has provided for them paradises where rivers flow in them. forever. They will abide in it. That is a great victory. (At Taubah : 9: 100)

"In Paradise there are many fruits for you, some of which you eat. (Az Zukhruf: 43: 73)

"(And Allah said): "O Adam, dwell you and your wife in Paradise and both of you eat (fruit) wherever you like, and do not both of you approach this tree, then both of you become of those who unjust." (Al A'raaf: 7: 19)

"Verily Allah will admit those who believe and do righteous deeds into Paradises beneath which rivers flow. In Paradise they will be adorned with gold and pearl bracelets, and their clothes will be silk. (Al Hajj) :22:23)

"Being in Jannah of pleasures (Al Waaqi'ah: 56:12)

"They reclined on couches in a row and We married them to beautiful fair-eyed nymphs. (Ath Thuur: 52:20)

"In paradise there are good and beautiful nymphs (Ar Rahmaan: 55: 70)

"In paradise there are fair nymphs who lower their eyes politely, never touched by humans before them and not by jinn. (Ar Rahmaan: 55: 56)

"They have never been touched by humans before them nor by jinn. (Ar Rahmaan: 55: 74)

"They are on a cot enthroned with gold and gems, (Al Waaqi'ah: 56:15)

"Indeed We created them directly (Al Waaqi'ah: 56: 35)

"By bringing glasses, kettles and drinks taken from running water (Al Waaqi'ah: 56: 18)

"And the fruits of what they choose (Al Waaqi'ah: 56:20)

"and the flesh of birds of what they desire. (Al Waaqi'ah: 56: 21)

"and banana trees stacked up (Al Waaqi'ah: 56: 29)

"And give good tidings to those who believe and do good, that for them there are provided gardens with rivers flowing in them. Every time they are given sustenance of fruit in those paradises, they say: "This is what was given to them. us first." They are given similar fruits and for them are pure wives and they will abide in them forever (Al Baqarah: 2:25)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"So when I have perfected the scene and I breathed into it My spirit; then let you fall down prostrating to it (Shaad: 38:72)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)

"Allah is the light of the skys and the earth...Light upon light...(An Nuur: 24: 35)

"And We made before them a wall and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

In an effort to open the veil of the greatness of Allah SWT about why Allah created life in paradise like life on earth, the author uses the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

HYPOTHESIS

Here the author proposes the hypothesis that Allah created life in paradise like life on earth, because paradise is on earth, based on the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms. 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on deoxyribonucleic acid (DNA) humans are composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms are widely available around us and in the atmosphere. These atoms are the raw materials for the manufacture of humans, animals, fungi, amoeba, plants, bacteria and archaea.

WHY ALLAH CREATED LIFE IN PARADISE LIKE LIFE ON EARTH

Now, we are still trying to uncover the secrets hidden behind the verses: *"... hasten to the forgiveness of your Lord and to paradise whose breadth is as wide as the skys and the earth... (Ali 'Imran: 3: 133)"* *Enter you into paradise, you and your wives...(Az Zukhruf: 43:70)* *"...they were adorned with gold and pearl bracelets, and their clothes were silk. (Al Hajj: 22 : 23)"* *"In paradise there are good and beautiful nymphs (Ar Rahmaan: 55: 70)"*... *We created them directly (Al Waaqi'ah: 56: 35)"*.. *Allah will admit those who believe and do righteous deeds into Paradise...(Al Hajj: 22:23)"*... *We married them to beautiful, sharp-eyed nymphs (Ath Thuur: 52:20)"* *In paradise there are many fruits... (Az Zukhruf: 43: 73)*

Here, Allah has declared *"...paradise whose breadth is as wide as the skys and the earth...(Ali 'Imran: 3: 133)"* *Enter you into heaven...and your wives...(Az Zukhruf: 43 : 70)* *"...they were adorned with bracelets of gold and pearls, and their clothes were silk. (Al Hajj: 22:23)"* *In Paradise there is a lot of fruit...(Az Zukhruf :43:73)*

Apparently, this paradise is on earth, because the earth is above the sky, where the sky is an expanse of space, where the earth is located.

So, since paradise is on earth, Allah declared: *"...they were adorned with gold and pearl bracelets, and their clothes were silk. (Al Hajj: 22:23)*

Why does Allah describe *"...bracelets of gold...pearls...clothing...silk (Al Hajj: 22:23)?*

Because life in paradise is the same as life on earth.

Only of course, what is different are humans who live on earth and humans who live in paradise. Why is it different?

Because, humans living on earth have bodies that are built by **7 000000000 000000000 000000000** atoms and Allah has *"...blowed into (humans) Allah's spirit...(As Sajdah: 32:9).*

Whereas humans living in paradise are only *"...Allah's spirit...(As Sajdah: 32:9)*, which is built by hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

So, actually, life in paradise is the life of *"...Allah's spirit...(As Sajdah: 32:9)* which is in the form of atoms. Even though there is *"...gold...pearl...silk" (Al Hajj : 22: 23)"* *"...fruits...(Az Zukhruf : 43:73)"* *"...river...(Al Baqarah: 2:25)*, all of that is in the form of atoms. *"... gold...(Al Hajj: 22: 23)* in the form of aurum atoms. *"...pearls...(Al Hajj: 22: 23)* in the form of carbon atoms and hydrogen atoms. *"...silk (Al Hajj: 22: 23)* in the form of carbon atoms, hydrogen atoms and oxygen atoms. *"...fruits...(Az Zukhruf: 43:73)* in the form of carbon atoms, hydrogen atoms and oxygen atoms. *"...river...(Al Baqarah: 2:25)* in the form of water consisting of of hydrogen atoms and oxygen atoms.

Now the question arises,

Why in paradise only *"...Allah's spirit...(As Sajdah: 32:9)* in the form of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms?

Because these atoms can live to be **10 000000000 000000000 000000000 000000000 000000000 000000000 000000000** years. While the human body that lives on earth, will not be able to live like the age of these atoms.

Well, this is actually Allah's secret that most people still don't understand.

So, actually Allah created life in paradise, only for "...Allah's spirit...(As Sajdah: 32:9) which is in the form of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

CONCLUSION

Based on the description above, we can conclude that the secrets hidden behind the verses: "...hasten to the forgiveness of your Lord and to paradise whose breadth is as wide as the skys and the earth...(Ali 'Imran: 3: 133)" Enter you into paradise, you and your wives...(Az Zukhruf: 43:70) "...they were adorned with gold and pearl bracelets, and their clothes were silk. (Al Hajj: 22 : 23) "In paradise there are good and beautiful nymphs (Ar Rahmaan: 55: 70)"... We created them directly (Al Waaqi'ah: 56: 35)".. Allah will admit those who believe and do righteous deeds into Paradise...(Al Hajj: 22:23)"... We married them to beautiful, sharp-eyed nymphs (Ath Thuur: 52:20)" In paradise there are many fruits...(Az Zukhruf: 43: 73)

Here, Allah has declared "...paradise whose breadth is as wide as the skys and the earth...(Ali 'Imran: 3: 133)"Enter you into heaven...and your wives...(Az Zukhruf: 43 : 70) "...they were adorned with bracelets of gold and pearls, and their clothes were silk. (Al Hajj: 22:23)"In Paradise there is a lot of fruit...(Az Zukhruf :43:73)

Apparently, this paradise is on earth, because the earth is above the sky, where the sky is an expanse of space, where the earth is located.

So, since paradise is on earth, Allah declared: "...they were adorned with gold and pearl bracelets, and their clothes were silk. (Al Hajj: 22:23)

Why does Allah describe "...bracelets of gold...pearls...clothing...silk (Al Hajj: 22:23)?

Because life in paradise is the same as life on earth.

Only of course, what is different are humans who live on earth and humans who live in paradise. Why is it different?

Because, humans living on earth have bodies that are built by 7 000000000 000000000 000000000 atoms and Allah has "...blowed into (humans) Allah's spirit...(As Sajdah: 32:9).

Whereas humans living in paradise are only "...Allah's spirit...(As Sajdah: 32:9), which is built by hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

So, actually, life in paradise is the life of "...Allah's spirit...(As Sajdah: 32:9) which is in the form of atoms. Even though there is "...gold...pearl...silk" (Al Hajj : 22: 23)"...fruits...(Az Zukhruf : 43:73)"...river...(Al Baqarah: 2:25), all of that is in the form of atoms. "... gold...(Al Hajj: 22: 23) in the form of aurum atoms. "...pearls...(Al Hajj: 22: 23) in the form of carbon atoms and hydrogen atoms."...silk (Al Hajj: 22: 23) in the form of carbon atoms, hydrogen atoms and oxygen atoms. "...fruits...(Az Zukhruf: 43:73) in the form of carbon atoms, hydrogen atoms and oxygen atoms."...river...(Al Baqarah: 2:25) in the form of water consisting of of hydrogen atoms and oxygen atoms.

Now the question arises,

Why in paradise only "...Allah's spirit...(As Sajdah: 32:9) in the form of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms?

Because these atoms can live to be **10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000** years. While the human body that lives on earth, will not be able to live like the age of these atoms.

Well, this is actually Allah's secret that most people still don't understand.

So, actually Allah created life in paradise, only for "*...Allah's spirit...(As Sajdah: 32:9)*" which is in the form of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.
