**ABSTRACT**

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of the greatness of Allah SWT regarding why Allah describes life in paradise as a symbol, seen from the point of view of photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).

Signs of Allah's greatness regarding, why Allah describes life in paradise as a symbol, are found in several verses, namely:

*"Being in Jannah of pleasures (Al Waaqi'ah: 56:12)*

*"They are on a cot enthroned with gold and gems, (Al Waaqi'ah: 56:15)*

*"By bringing glasses, kettles and drinks taken from running water (Al Waaqi'ah: 56: 18)*

*"And the fruits of what they choose (Al Waaqi'ah: 56:20)*

*"and the flesh of birds of what they desire. (Al Waaqi'ah: 56: 21)*

*"and banana trees stacked up (Al Waaqi'ah: 56: 29)*

*"He is the First and the Last, the Outward and the Inward, and He is All-Knowing of all things. (Al Hadid: 57:3)*

*"The angels and Gabriel ascended to God in a day the measure of which was fifty thousand years (Al Ma'aarij: 70:4)*

*"And give good tidings to those who believe and do good, that for them there are provided gardens with rivers flowing in them. Every time they are given sustenance of fruit in those paradises, they say: "This is what was given to them. us first." They are given similar fruits and for them are pure wives and they will abide therein (Al Baqarah: 2:25)*

*"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)*

*"Allah promises the believers, male and female, Paradise under which rivers flow, they will abide therein, there are good places in Paradise 'Adn. And Allah's pleasure is greater; that is great fortune. (At Taubah: 9:72)*

*"Indeed Allah will admit those who believe and do righteous deeds into Paradises beneath which rivers flow. In Paradise they are adorned with gold and pearl bracelets, and their clothing is silk. (Al Hajj : 22:23)*

*"And We put before them a wall and behind them a wall, and We covered them so that they could not see. (Yaasiin: 36:9)*

*"Those who were earlier, were first from the emigrants and the Ansar and those who followed them well, Allah is pleased with them and they are pleased with Allah and Allah has prepared for them paradises in*

*which rivers flow forever. They stay in it. That's a big win. (At Taubah: 9: 100)*

*"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)*

In an effort to unmask the greatness of Allah SWT regarding why Allah depicts life in paradise as a symbol, I use the basis of photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

## **HYPOTHESIS**

Here I propose a hypothesis why Allah describes life in paradise as a symbol, so that humans understand, judging from photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA)?

## **PHOTON**

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## **QUARK**

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

## **DEOXYRIBONUCLEIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **LIFE IN PARADISE IS ETERNAL ACCORDING TO HUMAN CALCULATIONS**

Now, we are still trying to unravel the secret that is hidden behind the verse: *"They are on a cot enthroned with gold and gems, (Al Waaqi'ah: 56:15) "by bringing glasses, kettles and drinks taken from water. flowing (Al Waaqi'ah: 56: 18) "and the fruits of what they choose (Al Waaqi'ah: 56: 20) "and the flesh of birds of what they desire. (Al Waaqi'ah: 56: 21) "and banana trees that are stacked (Al Waaqi'ah: 56: 29)*

*It turned out to be a picture of "... gold and gems, (Al Waaqi'ah: 56: 15) "... glasses, kettles and drinks taken from flowing water (Al Waaqi'ah: 56: 18) "... fruit -fruits...(Al Waaqi'ah: 56:20) "...bird meat...(Al Waaqi'ah: 56:21) "...a banana tree that is stacked (Al Waaqi'ah: 56:29) are all symbols, so that people understand how life in paradise is.*

## CONCLUSION

From what has been described above we can now conclude that the secret that is hidden behind the verse: *"They are on a cot enthroned with gold and gems, (Al Waaqi'ah: 56:15) "by bringing glasses, kettles and drinks taken from water. flowing (Al Waaqi'ah: 56: 18) "and the fruits of what they choose (Al Waaqi'ah: 56: 20) "and the flesh of birds of what they desire. (Al Waaqi'ah: 56: 21) "and banana trees that are stacked (Al Waaqi'ah: 56: 29)*

*It turned out to be a picture of "... gold and gems, (Al Waaqi'ah: 56: 15) "... glasses, kettles and drinks taken from flowing water (Al Waaqi'ah: 56: 18) "... fruit -fruits...(Al Waaqi'ah: 56:20) "...bird meat...(Al Waaqi'ah: 56:21) "...a banana tree that is stacked (Al Waaqi'ah: 56:29) are all symbols, so that people understand how life in paradise is.*

So, now the question arises,

What is life really like in paradise?

The answer is

It is hidden in the secret behind the verse: *"... in a day whose levels are fifty thousand years (Al Ma 'arij: 70: 4)*

That is, the time according to Allah's calculation is 1 day, it turns out that according to human calculations it is equal to 50 000 years

Well, the meaning is *"...They are eternal in it...(At Taubah: 9: 100)*

How long is life in heaven which is called *"... eternal in it... (At Taubah: 9: 100)*

The answer is 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years

So, eternity in heaven actually has a limit, namely after 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years hydrogen atoms, nitrogen atoms, carbon atoms and oxygen atoms return to quarks and energy.

Now, what is described as *"...gold and gems,(Al Waaqi'ah: 56:15) "...glasses, kettles and drinks taken from flowing water (Al Waaqi'ah: 56: 18)" ...fruits...(Al Waaqi'ah: 56:20) "...bird meat...(Al Waaqi'ah: 56:21) "...a banana tree that is stacked (Al Waaqi'ah: 56:21) Waaqi'ah: 56: 29) is all that is a symbol.*

Why are they all symbols?

The answer is

because gold, glass, kettles, water, fruit, bird meat and banana trees will not survive to the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years

As for what survives for a very long time, it is *"... my spirit... (Al Hijr: 15: 29) , because in "... My spirit... (Al Hijr: 15: 29) contains atoms hydrogen, nitrogen atoms, carbon atoms and oxygen atoms. Well, the picture "... gold and gems, (Al Waaqi'ah: 56: 15) "... glasses, kettles and drinks taken from flowing water (Al Waaqi'ah: 56: 18) "... fruits...(Al Waaqi'ah: 56:20) "...bird meat...(Al Waaqi'ah: 56:21) "...a banana tree that is stacked (Al Waaqi'ah : 56: 29) are all symbols, so that people understand how*

life in paradise is.

Where the real life in heaven is the life of "... *my spirit...* (*Al Hijr: 15: 29*) , because  
"...*my spirit...*(*Al Hijr : 15: 29*) will survive to the age of 10 000000000 000000000 000000000  
000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years
