ABSTRACT

Before the author writes the problem of why Allah made incarnation as a survival in the seven skys, the writer first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret of why Allah made the incarnation as survival in the seven skys, based on deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about why Allah made the incarnation a survival in the seven skys, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a man and, of course, We would have doubted about them what they doubted about themselves." (Al An'aam: 6:9)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when he asks Me, then let them fulfill (all My commands) and let them believe in Me. Me, that they may always be in the truth.(Al Baqarah: 2:186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"Allah did not create and resurrect you except as one soul. Indeed, Allah is All-Hearing, All-Seeing. (Luqman: 31:28)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

"And among His signs is that you see the earth dry and arid, so when We send down water on it, it will surely move and thrive. Indeed, God Who gives life to it, surely can bring back the dead... (Fushshilat: 41: 39)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)

"It is He Who created the skys and the earth in six days: Then He resides on the Throne. He knows what enters the earth and what comes out of it and what descends from the heavens and what ascends to Him. And He is with you in wherever you are. And Allah is All-Seeing of what you do. (Al Hadid: 57:4)

"So he put a veil from them; then We sent Our spirit to her, and he appeared before her a perfect human being. (Maryam: 19:17)

"Allah created the skys and the earth with rights. Verily in that are the signs of Allah's power for the believers (Al 'Ankabuut: 29: 44)

"So He made it seven skys in two periods. He revealed in each sky its affairs. And We adorn the near sky with bright stars and We take care of it as well as possible. Such is the provision of the Mighty, All-Knowing. (Fushshilat :41:12)

"Allah, there is no god but He Who Lives eternally and continuously takes care of; neither sleeps nor sleeps. To Him belongs what is in the heavens and the earth. No one can intercede with Allah without His permission? Allah knows what is in front of them and behind them, and they know nothing of Allah's knowledge except what He wills. Allah's seat covers the heavens and the earth. And Allah does not find it difficult to maintain them, and Allah is Most High, Most Merciful. Great.(Al Baqarah: 2:255)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

In an effort to open the veil of Allah's secret about why Allah made incarnation as survival in the seven skys, the author uses the basis of Deoxyribonucleic acid (DNA)

HYPOTHESIS

Here the author proposes the hypothesis that reincarnation is one way to survive in the seven skys, based on Deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms.

Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

BECAUSE ALLAH'S SPIRIT IS LIMITED TO THE SEVEN SKYS, THEN INCARNATION IS THE WAY TO GUARANTEE THE SURVIVAL OF THE SEVEN SKYS

Now, we are still concentrating on uncovering the secrets contained behind the verse: *"...We sent our spirit to her, he incarnated...a perfect human being. (Maryam: 19:17)"...I breathed into him my spirit... (Shaad: 38:72)"...We adorned the near sky with bright stars...(Fushshilat: 41:12)*

Apparently, here Allah has declared *"...Our spirit...incarnated...a perfect human. (Mary: 19:17)*

Now the question arises

Why did Allah pave the way with incarnation for survival in the seven skys?

The answer is hidden in the secret behind the verse: *"Allah...The Everlasting One...(Al Baqarah: 2:255)"...I breathed into him my spirit...(Shaad: 38:72)*

Well, it turns out that *"Allah...Life is eternal...(Al Baqarah: 2:255)*, but *"...My spirit...(Shaad: 38:72)* or *"...Allah's spirit...(Shaad: 38: 72)* which *"... is blown into (every human being) ... (Shaad: 38: 72)* and to other creatures and objects that are in the seven skys is impermanent.

Because *"...My spirit...(Shaad: 38:72)* or *"...Allah's spirit...(Shaad: 38: 72)* is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, where -this atom lives to the age of **10 00000000 00000000 00000000 00000000 00000000 00000000 00000000 00000000 00000000** years

Besides that, *"...My spirit...(Shaad: 38:72)* or *"...Allah's spirit...(Shaad: 38: 72)* are limited in number in the seven skys.

If counted in the *"...near sky...(Fushshilat : 41:12)* contains **100 000 000 000** galaxies, each galaxy consists of **150 100 000** stars.

Well, it turns out, *"...the sky that is near...(Fushshilat : 41:12)* which contains **100 000 000 000** galaxies, is only **5%** of all matter and energy in the *"...seven skys.. .(Fushshilat : 41:12)*

Where in the *"...seven skys...(Fushshilat: 41: 12)* contains **72%** dark energy, **23%** dark matter and **5%** is an elemental neutrino or elementary particle that has a very, very small mass) and atoms (Universe, Martin Rees, Dorling Kindersley Limited, London, 2005).

Actually, the most abundant is dark energy, or Allah's energy, **72%**, then **23%** dark matter, where this material is invisible to the human eye, the remaining **5%** are atoms such as hydrogen atoms, carbon atoms, oxygen atoms, atoms nitrogen, and other atoms.

So, *"...My spirit...(Shaad: 38:72)* or *"...Allah's spirit...(Shaad: 38: 72)* which is made up of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms. only **5%** of all matter and energy in the *"...seven skys...(Fushshilat : 41:12)*

Because *"...My spirit...(Shaad: 38:72)* or *"...Allah's spirit...(Shaad: 38: 72)* is limited, then Allah made

incarnation a way for the survival of the seven skys.

This means that hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms and other atoms that are used to create anything, including humans, that are in the seven skys must be used as effectively or as best as possible, nothing is wasted.

So, every atom that comes out of every human body, animal, plant, tree, flower and other inanimate objects, must be reused for the creation of new creatures and other objects that exist in the seven skys.

Or in other words, Allah has made incarnation as a way to maintain survival in the seven skys.

So, actually, the incarnation is not something that should be believed as a belief, as most people in the world today believe, but the incarnation is a law of nature or the law of Allah.

CONCLUSION

The conclusions that can be drawn from the above explanation are the secrets contained behind the verse: *"...We sent our spirit to her, he incarnated...a perfect human being. (Maryam: 19:17)"...I breathed into him my spirit...(Shaad: 38:72)"...We adorned the near sky with bright stars...(Fushshilat: 41:12)*
