ABSTRACT

First of all, by asking forgiveness from Allah SWT here I try to reveal the signs of Allah SWT's greatness regarding Allah's secret about why Allah commands humans to read, using the mind, based on photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).

In the Qur'an found several verses that are the key to unlocking the secret of Allah's secret about why Allah told humans to read, by using the mind namely the verses:

"Read in the name of your Lord Who created, (Al 'Alaq: 96: 1)

"He has created man from a clot of blood (Al 'Alaq: 96: 2)

"Those who teach by means of kalam (Al 'Alaq: 96:4)

"O People of the Book, why do you argue against Abraham, when the Torah and the Gospel were not revealed except after Abraham. Don't you think? (Ali 'Imran: 3:65)

"Allah is the light of the heavens and the earth.

"Why do you send other people to worship services, while you forget yourself, even though you are reading the Book? So don't you think? (Al Baqarah: 2:44)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when he asks Me, then let them fulfill (all My commands) and let them believe in Me. Me, that they may always be in the truth.(Al Baqarah: 2:186)

" those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell." Ali 'Imran : 3:191)

"...Then didn't you think? (Ash Shaaffaat: 37:138)

"... We are closer to him than his jugular vein, (Qaf: 50:16)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourselves (Al Hijr: 15: 29)

In an effort to unmask the mystery of Allah, why humans look up to the sky, so that Allah can see, I based on photons, quarks and deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose the hypothesis that humans look up to the sky describing Allah, the Greatest and Most High, seen from the point of view of photons, quarks and Deoxyribonucleic acid (DNA).

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

READING WITH YOUR MIND

Now, we still continue to focus our minds to be used to reveal the secrets that are stored in the verse: *"Read in the name of your Lord Who created, (Al 'Alaq: 96: 1) "...do you not think? (Al Baqarah: 2:44)*

Apparently, humans are not only told to *"Read...(Al 'Alaq: 96:1)* but also to *"...think? (Al Baqarah: 2:44)*

Why are humans told to read and think?

The answer is

Hidden behind the secret of the verse: *"...don't you think? (Ash Shaaffaat: 37:138)*

That is, if humans only read, then humans will not understand. Humans will not understand how Allah *"...created...(Al 'Alaq: 96: 1) "...man from a clot of blood (Al 'Alaq: 96: 2)*

Well, if humans read without understanding, then the human will not understand the secrets contained in the Qur'an.

HUMANS READ, LEARN AND UNDERSTAND THE SECRETS CONTAINED IN THE QURAN

Now, let's unveil the secret behind the verse: *"Those who teach through the word of Allah (Al 'Alaq: 96: 4)*

It turns out that now it has been revealed, that in order to arrive at the secret of Allah contained in the Qur'an, humans must go through thinking "... *through the intercession of kalam (Al 'Alaq: 96: 4)*

This means that humans must read, study and think to understand the secrets contained in the contents of the Qur'an.

Do humans when reading and studying "...*while standing or sitting or lying down...thinking...(Ali 'Imran: 3:191)* to understand "...*about the creation of the heavens and the earth...(Ali 'Imran: 3:191)*

Finally revealed the secret behind the verse: "*Read in the name of your Lord Who created, (Al 'Alaq: 96: 1)*

This means that humans are told to read, study, think in order to understand how Allah "...*created, (Al 'Alaq: 96: 1)* "...*humans from a clot of blood (Al 'Alaq: 96: 2)* and how Allah created" ...*sky and earth...(Ali 'Imran : 3: 191)*

CONCLUSION

Based on the description above, we can conclude that the secrets that are stored in the verse: "*Read in the name of your Lord Who created, (Al 'Alaq: 96: 1)* "...*do you not think? (Al Baqarah: 2:44)*

Apparently, humans are not only told to "*Read...(Al 'Alaq: 96:1)* but also to "...*think? (Al Baqarah: 2:44)*

Why are humans told to read and think?

The answer is

Hidden behind the secret of the verse: "...*don't you think? (Ash Shaaffaat: 37:138)*

That is, if humans only read, then humans will not understand. Humans will not understand how Allah "...*created...(Al 'Alaq: 96: 1)* "...*man from a clot of blood (Al 'Alaq: 96: 2)*

Well, if humans read without understanding, then the human will not understand the secrets contained in the Qur'an.

Now, let's unveil the secret behind the verse: "*Those who teach through the word of Allah (Al 'Alaq: 96: 4)*

It turns out that now it has been revealed, that in order to arrive at the secret of Allah contained in the Qur'an, humans must go through thinking "... *through the intercession of kalam (Al 'Alaq: 96: 4)*

This means that humans must read, study and think to understand the secrets contained in the contents of the Qur'an.

Do humans when reading and studying "...*while standing or sitting or lying down...thinking...(Ali 'Imran: 3:191)* to understand "...*about the creation of the heavens and the earth...(Ali 'Imran: 3:191)*

Finally revealed the secret behind the verse: "*Read in the name of your Lord Who created, (Al 'Alaq: 96: 1)*

This means that humans are told to read, study, think in order to understand how Allah "...*created, (Al 'Alaq: 96: 1)* "...*humans from a clot of blood (Al 'Alaq: 96: 2)* and how Allah created" ...*sky and*

earth...(Ali 'Imran : 3: 191)
