ABSTRACT

Before I write down the problem of why Allah told people to look at the mountains to be able to see Allah, I first ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret of why Allah told humans to look at mountains to be able to see Allah, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about why Allah told humans to look at mountains to be able to see Allah, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"And when Moses came for an appointed time and the Lord had spoken to him, Moses said: "O my Lord, show me so that I can see You." The Lord said: "You will never be able to see Me, but look at the mountain, then if it stays where it is you will surely see me." When his Lord appeared to the mountain, he made the mountain crumble and Moses fell unconscious. So when Moses regained consciousness, he said: "Glory be to him. You, I repent to You and I am the first to believe." (Al A'raaf: 7:143)

"And it is not possible for any human being that Allah can speak to him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Indeed, He is Most High, Most Wise. (Ash Syuura: 42:51)

"When I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"... We made the apostle an angel... We made him a man... (Al An'aam: 6: 9)

"The angels and Gabriel ascended to God in a day the measure of which was fifty thousand years (Al Ma'aarij: 70:4)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar: 39:42)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2:115)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight, and heart; you are very little grateful." (As Sajdah: 32: 9)

In an effort to unmask Allah's secret about why Allah told humans to look at mountains to see Allah, I used the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose a hypothesis that Allah told humans to look at mountains to be able to see Allah because the mountains contain hydrogen atoms, oxygen atoms, carbon atoms and nitrogen atoms, from the point of view of Deoxyribonucleic acid (DNA).

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

WHAT'S ABOUT THE MOUNTAIN, SO ALLAH TOLD HUMANS TO SEE THE MOUNTAIN IF YOU WANT TO SEE ALLAH

Now, we are still concentrating on uncovering the secrets contained behind the verse: *"...it is impossible for a human being that Allah can speak with him except... behind a veil...(Asy Shuura: 42: 51)*

Apparently, here Allah has declared that humans will not be able to speak and see Allah except *"...behind the veil... (Asy Syuura: 42: 51)*

So, what is *"...veil...(Asy Syuura : 42:51)*?

The answer is hidden in the secret behind the verse: *"...We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)*

Apparently, what is meant by *"...veils...(Asy Syuura: 42: 51)* is the limited view of the human eye *"...they can't see." (Yaasiin: 36:9).*

This means that the human eye can only see light in the electromagnetic spectrum region between 430 and 740 nanometers. If there is light in the electromagnetic spectrum below 430 nanometers and light in the electromagnetic spectrum above 740 nanometers, then the human eye can see the light.

Now, because between humans and Allah there is already a veil, then humans can talk and see Allah *"...look at the mountain, so if it stays where it is, you will surely see Me."... (Al A'raaf: 7:143)*

Now, how can humans see Allah through the mountains?

The answer is

It is hidden behind the verse: *"...When his Lord appeared to the mountain, he made the mountain crumble... (Al A'raaf: 7: 143)*

Well, it turns out that Allah has declared to see Allah see and pay attention *"... the mountain was crushed... (Al A'raaf: 7: 143)*

What is contained in the dust caused by *"...the mountain was crushed... (Al A'raaf: 7: 143)?*

In the ashes from the crushed mountain are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

ALLAH'S ENERGY IS IN THE DUST AND IN THE HUMAN BODY

Well, in these atoms there is Allah's energy and through Allah's energy, humans will see and feel Allah.

Now not only in the dust of the crushed mountains, but also in the human body there is the energy of Allah.

So, actually to see Allah, not only look at the mountain through the dust that is on the mountain, but also see into the human body itself, where in the human body there is Allah's energy, through *"... my spirit... (Al Hijr : 15: 29)*, because in *"...my spirit... (Al Hijr : 15: 29)* contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

For example, humans while sitting, standing, lying down looking at the light outside *"Allah... the light of the skys and the earth... The light above the light... (An Nuur: 24: 35)* continues to breathe oxygen atoms, feels delicious and fresh when the atoms are filled with oxygen. Oxygen enters through the nose and continues into the lungs.

Well, this is where the secret of humans to see Allah and feel the presence and presence of Allah into the human body. *"...Allah said: "You will never be able to see Me, but look at the mountain, so if it stays where it is, you will surely see Me." When his Lord appeared to the mountain, he made the mountain crumble... (Al A'raaf: 7: 143)*

The dust that comes from the mountain, in which there are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms is a picture of the form of Allah. When humans understand

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verse: *"...it is impossible for a human being that Allah can speak with him except... behind a veil... (Asy Shuura: 42: 51)*
