ABSTRACT

Before I write down the problem of why Allah's form was formed with billion billion billion billion billion billion billion billion particles of Allah born through Allah's energy, I first ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret of why Allah's existence was formed with billion billion billion billion billion billion billion billion particles of Allah born through Allah's energy, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that are Allah's secret unlocking tool about why Allah's form was formed with billion billion billion billion billion billion billion billion particles of Allah born through Allah's energy, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a man and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)

"Praise be to Allah, the Creator of the skys and the earth, Who made the angels as messengers with wings, two, three and four respectively. Allah adds to His creation what He wills. Verily, Allah has power over all things. (Faathir: 35:1)

"But Allah acknowledges the Qur'an which He has revealed to you. Allah has sent it down with His knowledge; and the angels are witnesses. It is enough for Allah to acknowledge it. (An Nisaa': 4: 166)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth.(Al Baqarah: 2:186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"And when We said to the angels: "Prostrate to Adam," then they bow down except Satan; he is reluctant and arrogant and is one of the disbelievers. (Al Baqarah: 2:34)

"He arranges affairs from the heavens to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)

"Angels and spirits ascend to God in a day whose measure is fifty thousand years." (Al Ma'aarij: 70:4)

"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"It is He who has made the earth a bed for you and the sky a roof, and He sends down water from the sky, then He produces with it all the fruit as a sustenance for you; therefore do not establish partners with Allah, while you know. Al Baqarah : 2:22)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2:115)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

In an effort to unmask Allah's secret about why Allah's existence was formed with billion billion billion billion billion billion particles of Allah born through Allah's energy, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose the hypothesis that Allah's existence is formed by billion billion billion billion billion billion billion of Allah's particles born through Allah's energy, which Allah's particles are in the seven heavens and all of their contents are included in the human body, seen from the point of view of Deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The

nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

ALLAH'S FORM APPEARS THROUGH ALLAH'S ENERGY THAT BRINGS ALLAH'S PARTICLES

Now, we are still concentrating on uncovering the secrets contained behind the verse: *"He is the First...(Al Hadiid: 57:3)"...has created the seven heavens in layers...(Al Mulk: 67 : 3)"...wherever you face that is the face of Allah...(Al Baqarah: 2: 115) "...make the earth as a bed for you and the sky as a roof...(Al Baqarah: 2:22) " ...I am near...(Al Baqarah: 2:186) "...closer to him than his jugular vein (Qaf: 50:16)*

Now, here Allah has declared that Allah: *"...The First...(Al Hadiid: 57:3)"...who created the seven skys in layers...(Al Mulk: 67:3)" ... I am near...(Al Baqarah: 2:186)*

Well, when Allah *"...created the seven skys...(Al Mulk: 67:3)*, 13 800 000000 years ago, Allah's energy was needed, where Allah's energy was obtained from energy that came from the seven lost skys, previously created by Allah.

Because before *"... the seven skys... (Al Mulk: 67: 3)* which are now created, there have been seven skys before, but they have disappeared and returned to Allah's energy.

So that *"... balanced... (Al Mulk: 67: 3)* in the creation of this sky, then after the seven previously lost skys became Allah's energy back, they were created 13 800 000000 years ago *"... the seven skys ... (Al Mulk: 67: 3)* the new, which now humans live in it.

With Allah's energy is also used to form the particles of Allah.

With the energy of Allah is born the particle of Allah. This Allah particle is what Allah is.

The billions of billions of billions of billions of billions of billions of Allah's particles that are in the seven skys today make up the form of Allah.

So, this form of Allah is formed by the particle of Allah. Without the particle of Allah there is no possible existence of Allah.

Or in other words, the existence of Allah arises because of the particles of Allah formed by the energy of Allah.

ALLAH'S VIEW IS POSSIBLE EVERYWHERE, SO FAST ALLAH'S PARTICLES MOVE WITH THE SPEED OF LIGHT 5 475103 664604.84 KM PER SECOND

Well, the form of Allah is seen everywhere, *"...wherever you face there is Allah's face...(Al Baqarah: 2: 115)*, because the speed of light of Allah's particles reaches 5 475103 664604.84 km per second.

While the weight of Allah's particle is

0.000000000 000000000 000000000 000000000 000000000 000000000 000000000 000333591 754209188 9 grams,

very small almost zero.

So, actually Allah's particles are very small, almost zero, as well as Allah's energy which is also almost zero. **0,000000000 000000000 000000000 01** grams per cubic cm

Well, now it's been revealed, the secret hidden behind the verse: **"...wherever you face there is the face of Allah... (Al Baqarah: 2: 115)**

That is, because Allah's form is formed with billion billion billion billion billion billion billion of Allah's particles with the speed of light 5 475103 664604.84 km per second, it is as if Allah's face is everywhere, including in the human body, even though Allah is in a form. Allah is only one.

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verse: **"He is the First...(Al Hadiid: 57:3)" "...has created the seven heavens in layers...(Al Mulk: 67 : 3)" "...wherever you face that is the face of Allah...(Al Baqarah: 2: 115) "...make the earth as a bed for you and the sky as a roof...(Al Baqarah: 2:22) "...I am near...(Al Baqarah: 2:186) "...closer to him than his jugular vein (Qaf: 50:16)**

Now, here Allah has declared that Allah: **"...The First...(Al Hadiid: 57:3)" "...who created the seven skys in layers...(Al Mulk: 67:3)" "... I am near...(Al Baqarah: 2:186)**

Well, when Allah **"...created the seven skys...(Al Mulk: 67:3)**, 13 800 000000 years ago, Allah's energy was needed, where Allah's energy was obtained from energy that came from the seven lost skys, previously created by Allah.

Because before **"... the seven skys... (Al Mulk: 67: 3)** which are now created, there have been seven skys before, but they have disappeared and returned to Allah's energy.

So that **"... balanced... (Al Mulk: 67: 3)** in the creation of this sky, then after the seven previously lost skys became Allah's energy back, they were created 13 800 000000 years ago **"... the seven skys ... (Al Mulk: 67: 3)** the new, which now humans live in it.

With Allah's energy is also used to form the particles of Allah.

With the energy of Allah is born the particle of Allah. This Allah particle is what Allah is.

The billions of billions of billions of billions of billions of billions of Allah's particles that are in the seven skys today make up the form of Allah.

So, this form of Allah is formed by the particle of Allah. Without the particle of Allah there is no possible existence of Allah.

Or in other words, the existence of Allah arises because of the particles of Allah formed by the energy of Allah.

Well, the form of Allah is seen everywhere, **"...wherever you face there is Allah's face...(Al Baqarah: 2: 115)**, because the speed of light of Allah's particles reaches 5 475103 664604.84 km per second.

While the weight of Allah's particle is

0.000000000 000000000 000000000 000000000 000000000 000000000 000000000 000333591 754209188 9 grams, very small almost zero.

So, actually Allah's particles are very small, almost zero, as well as Allah's energy which is also almost zero. **0,0000000000 0000000000 0000000000 01** grams per cubic cm

Well, now it's been revealed, the secret hidden behind the verse: "*...wherever you face there is the face of Allah...* (Al Baqarah: 2: 115)

That is, because Allah's form is formed with billion billion billion billion billion billion billion of Allah's particles with the speed of light 5 475103 664604.84 km per second, it is as if Allah's face is everywhere, including in the human body, even though Allah is in a form. Allah is only one.
