ABSTRACT

First, by asking forgiveness from Allah SWT, here I try to reveal the signs of Allah SWT's greatness regarding Allah's secret about why "... *my spirit...* (Al Hijr: 15: 29) eats the zaqqum fruit, whose tree grows from the bottom of hell, based on photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA)

In the Qur'an, several verses are found that are the key to unlocking the secret of why "... *my spirit...* (Al Hijr: 15: 29) eats the zaqqum fruit, whose tree grows from the bottom of hell, namely the verses:

"will actually eat the tree of zaqqum, (Al Waaqi'ah: 56:52)

"Indeed, the Zaqqum tree (Ad Dukhaan: 44:43)

"food of many sinners. (Ad Dukhaan: 44:44)

"as the filth of oil that boils in the stomach, (Ad Dukhaan: 44:45)

"Like boiling hot water. (Ad Dukhaan: 44: 46)

"Hold him then drag him into the midst of hell. (Ad Dukhaan: 44:47)

"So verily they actually ate some of the fruit of the tree, so they filled their bellies with the fruit of the zaqqum. (Ash Shaaffaat: 37: 66)

"Indeed he is a tree that emerges from the bottom of the fiery hell. (Ash Shaaffaat: 37: 64)

"Then after eating the fruit of the Zaqqum tree, they will surely get a drink mixed with very hot water. (Ash Shaaffaat: 37: 67)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

Allah said: "Enter all of you into hell with the jinn and humans who went before you. Every time a people enter, he curses his friend; so that when they all enter say those who enter later among them say to those who entered earlier: "Our Lord, they have led us astray, so bring upon them a double torment from hell." Allah said: "Each one gets a double, but you do not know." (Al A'raaf: 7:38)

"And thus We made enemies for every prophet, namely the devils of humans and jinn, some of them whispering to others beautiful words to deceive. If your Lord willed, they would not have done it, then leave them and what they invented.(Al An'aam: 6:112)

"Saqr does not leave and does not allow (Al Muddatstsir: 74: 28)

"Say: "O Allah, Creator of the heavens and the earth, Who knows the unseen and the real, You are the One who decides between Your servants what they always argue about." (Az Zumar: 39: 46)

"O you who believe, protect yourselves and your families from a hell fire whose fuel is people and stones; its guardians are angels who are harsh, harsh, and do not disobey Allah in what He commands them and always do what He is commanded. (At Tahrīm: 66:6)

In an effort to open the veil about Allah's secret about why "... *my spirit...* (Al Hijr: 15: 29) eats the zaqqum fruit, whose tree grows from the bottom of hell, I based on photons, quarks and deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose a hypothesis "... *my spirit...* (Al Hijr: 15: 29) eats zaqqum fruit, whose tree grows from the bottom of hell, because zaqqum fruit contains hydrogen atoms, oxygen atoms and carbon atoms, based on photons, quarks and deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

THE ZAQQUM TREE GROWS FROM THE BOTTOM OF HELL

Now, we are still concentrating on uncovering the secret contained behind the verse: ***"Indeed he is a tree that emerges from the bottom of the burning hell. (Ash Shaaffaat: 37: 64)***

Apparently, the zaqqum tree grows from the bottom of hell.

Why does the zaqqum tree grow and come out of the bottom of hell?

The answer is hidden in the secret of the verse: Allah "...*has breathed into it my spirit...*(Al Hijr: 15: 29)

It turns out, in the zaqqum tree there is already a "...*my spirit...*(Al Hijr: 15: 29) which contains oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms.

Why did Allah blow "... *my spirit...* (Al Hijr: 15: 29) into the zaqqum tree?

The answer is

Because all trees have Deoxyribonucleic acid (DNA) the same as Deoxyribonucleic acid (DNA) in the human body.

Well, because the fuel of hell is hydrogen atoms, the zaqqum tree which contains hydrogen atoms can grow and come out of the bottom of hell.

That is, in the hell environment that needs hydrogen atomic fuel, some of its hydrogen atoms are obtained from the zaqqum tree.

MY SPIRIT EAT ZAQQUM FRUIT

Now, why *"... my spirit... (Al Hijr: 15: 29) "... actually eat some of the fruit of the tree, so they fill their stomachs with the fruit of the zaqqum (Ash Shaaffaat: 37: 66) ?*

The answer is

Because *"... my spirit... (Al Hijr: 15: 29)* requires a hydrogen atom, to stay alive in hell.

Some of the hydrogen atoms from the body *"...my spirit..(Al Hijr: 15: 29)* have been used as fuel for hell, because hell requires hydrogen atoms for fuel.

MY SPIRIT EAT ZAQQUM FRUIT TO BECOME OIL AND WATER

So, onward, we will unravel the secret behind the verse: *"as oil filth boils in the stomach, (Ad Dukhaan: 44: 45) "as boiling water is very hot. (Ad Dukhaan: 44:46)*

Apparently, from the zaqqum fruit, oil and water are released.

It means, *"... my spirit... (Al Hijr: 15: 29)* requires oil and water.

Why *"... my spirit... (Al Hijr: 15: 29)* need oil and water?

The answer is

Because oil and water contain hydrogen atoms. With the presence of hydrogen atoms in oil and water, then *"... my spirit... (Al Hijr: 15: 29)* will still live in hell.

Now the secret is revealed in the verse: *"Indeed he is a tree that comes out and the bottom of a burning hell. (Ash Shaaffaat: 37: 64)*

Namely the fruit of zaqqum, which *"...the tree(s)... comes out from the bottom of the burning hell. (Ash Shaaffaat: 37: 64) give hydrogen atoms to live "... my spirit... (Al Hijr: 15: 29)* and to fuel hell.

CONCLUSION

Based on the description above, we can conclude that the secret contained behind the verse: *"Indeed he is a tree that emerges from the bottom of the burning hell. (Ash Shaaffaat: 37: 64)*

Apparently, the zaqqum tree grows from the bottom of hell.

Why does the zaqqum tree grow and come out of the bottom of hell?

The answer is hidden in the secret of the verse: Allah *"...has breathed into it my spirit...(Al Hijr: 15: 29)*

It turns out, in the zaqqum tree there is already a *"...my spirit...(Al Hijr: 15: 29)* which contains

oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms.

Why did Allah blow "*... my spirit... (Al Hijr: 15: 29)*" into the zaqqum tree?

The answer is

Because all trees have Deoxyribonucleic acid (DNA) the same as Deoxyribonucleic acid (DNA) in the human body.

Well, because the fuel of hell is hydrogen atoms, the zaqqum tree which contains hydrogen atoms can grow and come out of the bottom of hell.

Now, why "*... my spirit... (Al Hijr: 15: 29)*" *... actually eat some of the fruit of the tree, so they fill their stomachs with the fruit of the zaqqum (Ash Shaaffaat: 37: 66)* ?

The answer is

Because "*... my spirit... (Al Hijr: 15: 29)*" requires a hydrogen atom, to stay alive in hell.

Some of the hydrogen atoms from the body "*...my spirit..(Al Hijr: 15: 29)*" have been used as fuel for hell, because hell requires hydrogen atoms for fuel.

So, onward, we will unravel the secret behind the verse: "*as oil filth boils in the stomach, (Ad Dukhaan: 44: 45)*" "*as boiling water is very hot. (Ad Dukhaan: 44:46)*

It means, "*... my spirit... (Al Hijr: 15: 29)*" requires oil and water.

Why "*... my spirit... (Al Hijr: 15: 29)*" need oil and water?

The answer is

Because oil and water contain hydrogen atoms. With the presence of hydrogen atoms in oil and water, then "*... my spirit... (Al Hijr: 15: 29)*" will still live in hell.

Now the secret is revealed in the verse: "*Indeed he is a tree that comes out and the bottom of a burning hell. (Ash Shaaffaat: 37: 64)*

Namely the fruit of zaqqum, which "*...the tree(s)... comes out from the bottom of the burning hell. (Ash Shaaffaat: 37: 64)*" give hydrogen atoms to live "*... my spirit... (Al Hijr: 15: 29)*" and to fuel hell.
