## ABSTRACT

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of Allah's greatness regarding Allah's secret about why humans look up to the sky, so that Allah will see them based on photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).

In the Qur'an, several verses are found that are the key to unlocking the secret of Allah's secret about why humans look up to the sky, so that Allah will see them, namely the following verses:

*"Those who lack understanding among mankind will say: "What has turned them away from their qibla to which they used to orient themselves?" Say: "To Allah belongs the east and the west; He guides whom He wills to a straight path." (Al Baqarah: 2: 142)*

*"Indeed We see your face looking up to the sky, then We will surely turn you to the Qiblah that you like. Turn your face towards the Grand Mosque. Every where you are, turn your face on him. And indeed those who were given the Book know that turning to the Grand Mosque is true from their Lord; and Allah is never heedless of what they do. (Al Baqarah: 2:144)*

*"Allah is the light of the skys and the earth.*

*"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when he asks Me, then let them fulfill (all My commands) and let them believe in Me. Me, that they may always be in the truth.(Al Baqarah: 2:186)*

*" those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell." Ali 'Imran : 3:191)*

*"And when We made the house a gathering place for people and a place of safety. And make part of Ibrahim's station a place of prayer. And We ordered Ibrahim and Ishmael: "Clean My house for those who are tawaf, i'tikaf, bowing and prostrating" (Al Baqarah: 2: 125)*

*"...Then didn't you think? (Ash Shaaffaat: 37:138)*

*"The angels and Gabriel ascended (to face) God in a day whose level is fifty thousand years. (Al Ma'aarij: 70: 4)*

*"... We are closer to him than his jugular vein, (Qaf: 50:16)*

*"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourselves (Al Hijr: 15: 29)*

In an effort to unmask the mystery of Allah, why humans look up to the sky, so that Allah can see, I based on photons, quarks and deoxyribonucleic acid or the molecular structure of nucleic acids.

## **HYPOTHESIS**

Here I propose the hypothesis that humans look up to the sky describing Allah, the Greatest and Most High, seen from the point of view of photons, quarks and Deoxyribonucleic acid (DNA).

## **DEOXYRIBONUCLEIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **PHOTON**

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## **QUARK**

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

## **EAST AND WEST ARE JUST ILLUSION**

Now, we are still trying to focus our minds to solve and uncover the secrets hidden behind the verse: *"...To Allah belongs the east and the west... (Al Baqarah: 2: 142)*

Apparently, the direction to the east and the direction to the west is *"...to Allah alone... (Al Baqarah: 2: 142)*

Why does the direction to the east and the direction to the west belong to Allah?

The answer is

Stored behind the verse: *"Allah is the light of the skys and the earth.... (An Nuur: 24: 35)*

That is, the light of Allah illuminates all corners of the heavens and the earth.

Now, because the earth rotates on its axis, starting from the right side of our body, it rotates to the front of our body and continues to rotate to the left of our body, continues towards the back of our body and finally returns to the right side of our body.

So, because we are on earth, our bodies rotate as well as the rotation of this earth.

Now, it has been revealed that actually the direction to the east and the direction to the west is an illusion, and all of that belongs to Allah. Where *"Allah is the light of the skys and the earth....(An Nuur: 24: 35)*

## **HUMANS LOOK UP TO THE SKY, PICTURE ALLAH MOST GREAT AND MOST HIGH**

Well, then we unravel the secret behind the verse: *"We really see your face looking up to the sky ... (Al Baqarah: 2: 144)*

Well, apparently when the Prophet Muhammad looked up to the sky when asking Allah to pray *"...turned to Masjidil Haram... (Al Baqarah: 2: 144)* which is located to the west of the place where the Prophet Muhammad was, no longer to the east to the east. place of Baitul Maqdis.

It turned out that Allah knew it when the Prophet Muhammad looked up to the sky, *"We really see your face looking up to the sky, then indeed We will turn you to the Qibla that you like. Turn your face towards the Grand Mosque. And wherever you are, turn your face towards it... (Al Baqarah: 2: 144)*

Why did Allah grant the wish of the Prophet Muhammad to turn *"...towards Masjidil Haram...(Al Baqarah: 2: 144)?*

The answer is

Hidden behind the secret of the verse: *"To Allah belongs the east and the west ... (Al Baqarah: 2: 142)* and *"... those who were given the Bible do know that turning to Masjidil Haram is true from their Lord. .. (Al Baqarah: 2: 144)* and *"... We have commanded Ibrahim and Ismail: "Clean My house for those who are tawaf, i'tikaf, bowing 'and prostrating"... (Al Baqarah: 2: 125)*

Now, the secret hidden behind the verse has been revealed: *"We really see your face looking up at the sky, so We will surely turn you to the Qibla that you like... (Al Baqarah: 2: 144)*

Because indeed *"... if My servants ask you about Me, then, that I am near. I grant the request of the one who prays when he asks Me... (Al Baqarah: 2: 186)*

Then, to what extent is Allah near?

The answer is

Hidden in the secret behind the verse: *"...We are closer to him than his jugular vein, (Qaaf: 50:16)* because *"...has breathed into him my spirit...(Al Hijr: 15: 29)*

## **CONCLUSION**
