ABSTRACT

Before I write down the problem why if there is Allah's energy and Allah's particles in Allah's form, Allah is eternal, but if in Allah's form there is only my spirit, Allah is not eternal, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret of why if there is Allah's energy and Allah's particles in Allah's form, Allah is eternal, but if in Allah's form there is only my spirit, Allah is not eternal, from the point of view of the molecular structure of nucleic acids or deoxyribonucleic acids (DNA).

There are several verses that become Allah's secret unlocking tools about why if there is Allah's energy and Allah's particles in Allah's form, Allah is eternal, but if in Allah's form there is only my spirit, Allah is not eternal, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)

"And verily We have created man from an essence from clay. (Al Mu'minuun: 23:12)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And Mary, who has kept her honor, then We breathed into her a spirit from Us and We made her and her child a great sign for the worlds. (Al Anbiyaa ': 21: 91)

"And if We made the apostle an angel, We would certainly have made him a man and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those

who pray when he asks Me, then let them fulfill and let them believe in Me, so that they will always be in truth.(Al Baqarah: 2:186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"He arranges affairs from the skys to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)

"Angels and spirits ascend to God in a day whose measure is fifty thousand years." (Al Ma'aarij: 70:4)

"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2:115)

"Angels and spirits descend with the permission of their Lord to manage all affairs (Al Qadr: 97: 4)

"And they ask you about the spirit. Say: "The spirit belongs to my Lord, and knowledge is not given to you but a little." (Al Israa ': 17: 85)

"And there is no power of the devil over them, but only that We may distinguish those who believe in the existence of the Hereafter from those who doubt about it. And your Lord is the Preserver of all things. (Saba': 34:21)

"And if We wish, We have indeed made in your place on earth angels that have been passed down from generation to generation. (Az Zukhruf: 43:60)

"Allah, there is no god but He Who Lives eternally and continually takes care of; neither sleeps nor sleeps. To Him belongs what is in the heavens and the earth. No one can intercede with Allah without His permission? Allah knows what is before them and behind them, and they know nothing of Allah's knowledge except what He wills. Allah's seat covers the heavens and the earth. And Allah does not find it difficult to maintain them, and Allah is Most High, Most Merciful. Great.(Al Baqarah: 2:255)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

In an effort to open the veil of Allah's secret about why if there is Allah's energy and Allah's particles in Allah's form, Allah is eternal, but if in Allah's form there is only my spirit, Allah is not eternal, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I put forward the hypothesis of Allah's energy and Allah's particles in Allah's form, Allah is eternal, because Allah's energy that forms Allah's particles, the seven skys will disappear back into Allah's energy, while "... *my spirit ... (Shaad: 38: 72)* is made up of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms to be lost, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

ALLAH'S PARTICLES FOUND BY ALLAH'S ENERGY, ALLAH'S ENERGY COMES FROM THE SEVEN PRIORLY LOST SKYS

Now, we are still concentrating on uncovering the secrets contained behind the verses: "*Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced...*(*Al Mulk : 67: 3*) "*Allah, there is no god but He Who Lives eternally...* (*Al Baqarah: 2:255*)

Apparently, here Allah has explained to humans, that Allah "*...created the seven skys in layers...which are...balanced...*(*Al Mulk: 67: 3*)

Well, because of this "*...balanced...*(*Al Mulk: 67:3*), humans can calculate and understand where the energy of Allah is used to "*...create the seven skys in layers...*(*Al Baqarah: 2:255*) which is now this living man.

The energy of Allah used to "*...create the seven skys in layers...*(*Al Baqarah: 2:255*) which is now from "*...the seven skys in layers...*(*Al Baqarah: 2:255*) previously created which has been lost and returns to the energy of Allah.

So, Allah's energy is not lost. Or in other words, Allah's energy is eternal.

ALLAH'S PARTICLES AND ALLAH'S ENERGY ARE ETERNAL, IF ALLAH IS IN THE FORM OF ALLAH'S ENERGY AND ALLAH'S ENERGY, THEN ALLAH IS ETERNAL

Now, it is with this energy of Allah that a particle of Allah with almost zero mass is formed
0.00000000 00000000 00000000 00000000 00000000 00000000 00000000 000 333 591 754 209 188 9 grams
As for Allah's energy which is almost zero, 0.00000000 00000000 00000000 01 grams per cubic cm

Now, the question arises,

Why is the Allah particle eternal?

The answer is

It is hidden in the secret behind the verse: *"Allah, the Ever-living One, continues to take care of.. (Al Baqarah: 2:255)*

Well, Allah *"The Eternal Life...continues to take care of...(Al Baqarah: 2:255)*

That is, here, Allah's energy and Allah's particles continue to be everywhere, not lost. Or in other words, Allah's energy and Allah's particles in Allah's form make Allah eternal.

MY SPIRIT IS NOT ETERNAL, IF ALLAH IS FORMED BY MY SPIRIT, THEN ALLAH IS NOT ETERNAL

Now, *"...my spirit...(Shaad : 38:72)* which is formed by hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms will disappear after reaching the age of 10 00000000 00000000 00000000 00000000 00000000 00000000 00000000 00000000 00000000 00000000 years.

Why would hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms disappear?

Because the nuclear power that holds the quarks in the atom is lost. As the nuclear energy holding back the quarks is gone, the atoms are gone, returning to Allah's energy.

Since the seven heavens were created with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then when the nuclear power that holds the quarks is lost, the atoms are lost, also the seven heavens and all their contents will be lost, returning to Allah's energy.

Now it's been revealed, the secret hidden behind the verse: *"Who has created the seven skys in layers...which are...balanced...(Al Mulk: 67:3)" Allah... The Everlasting...(Al Baqarah: 2:255)*

That is, before Allah *"...created the seven skys...(Al Mulk: 67:3)* which now, Allah has *"...created the seven skys...(Al Mulk: 67:3)* previously that were lost, and back into Allah's energy. Where Allah's energy is used to *"...create the new seven skys...(Al Mulk: 67:3)*, which humans now live in.

Allah *"...created the seven skys...(Al Mulk: 67:3)* which now is because of Allah's law, namely the law of *"...balance...(Al Mulk: 67:3)*

It means, *"... the seven skys... (Al Mulk: 67: 3)* which were previously lost and returned to Allah 's energy, then based on Allah's law regarding the law *"... balanced... (Al Mulk: 67: 3)* , created *"...seven skys...(Al Mulk: 67:3)* new ones.

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verses: "*Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced...*(*Al Mulk : 67: 3*) "*Allah, there is no god but He Who Lives eternally...* (*Al Baqarah: 2:255*)

Apparently, here Allah has explained to humans, that Allah "...created the seven skys in layers...which are...balanced...(Al Mulk: 67: 3)

Well, because of this "...balanced...(Al Mulk: 67:3), humans can calculate and understand where the energy of Allah is used to "...create the seven skys in layers...(Al Baqarah: 2:255) which is now this living man.

The energy of Allah used to "...create the seven skys in layers...(Al Baqarah: 2:255) which is now from "...the seven skys in layers...(Al Baqarah: 2:255) previously created which has been lost and returns to the energy of Allah.

So, Allah's energy is not lost. Or in other words, Allah's energy is eternal.

Now, it is with this energy of Allah that a particle of Allah with almost zero mass is formed
0.00000000 00000000 00000000 00000000 00000000 00000000 00000000 000 333 591 754 209 188 9 grams
As for Allah's energy which is almost zero, 0.00000000 00000000 00000000 01 grams per cubic cm

Now, the question arises,

Why is the Allah particle eternal?

The answer is

It is hidden in the secret behind the verse: "*Allah, the Ever-living One, continues to take care of...* (*Al Baqarah: 2:255*)

Well, Allah "*The Eternal Life...continues to take care of...*(*Al Baqarah: 2:255*)

That is, here, Allah's energy and Allah's particles continue to be everywhere, not lost. Or in other words, Allah's energy and Allah's particles in Allah's form make Allah eternal.

Now, "...my spirit...(Shaad : 38:72) which is formed by hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms will disappear after reaching the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years.

Why would hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms disappear?

Because the nuclear power that holds the quarks in the atom is lost. As the nuclear energy holding back the quarks is gone, the atoms are gone, returning to Allah's energy.

Since the seven heavens were created with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then when the nuclear power that holds the quarks is lost, the atoms are lost, also the seven heavens and all their contents will be lost, returning to Allah's energy.

Now it's been revealed, the secret hidden behind the verse: "*Who has created the seven skys in layers...which are...balanced...*(*Al Mulk: 67:3*)" Allah... *The Everlasting...*(*Al Baqarah: 2:255*)

That is, before Allah "*...created the seven skys...(Al Mulk: 67:3)*" which now, Allah has "*...created the seven skys...(Al Mulk: 67:3)*" previously that were lost, and back into Allah's energy. Where Allah's energy is used to "*...create the new seven skys...(Al Mulk: 67:3)*", which humans now live in.

Allah "*...created the seven skys...(Al Mulk: 67:3)*" which now is because of Allah's law, namely the law of "*...balance...(Al Mulk: 67:3)*"

It means, "*... the seven skys... (Al Mulk: 67: 3)*" which were previously lost and returned to Allah 's energy, then based on Allah's law regarding the law "*... balanced... (Al Mulk: 67: 3)*" , created "*...seven skys...(Al Mulk: 67:3)*" new ones.
