ABSTRACT

Before the author writes the problem of why most people in the world today no longer need Allah or Jahve, because human's thinking are no longer a reflection of Allah's thinking, first the author asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret of why most people in the world today no longer need Allah or Jahve, because human's thinking are no longer a reflection of Allah's thinking, based on the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).

There are several verses that open the secret of Allah about why most people in the world today no longer need Allah or Jahve, because human's thinking are no longer a reflection of Allah's thinking, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"And why do they not think about themselves? Allah did not make the heavens and the earth and what is between them except with a right and an appointed time. And indeed most of the people really deny meeting their Lord. (Ar Ruum: 30 :8)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it My spirit, then submit to it prostrating yourselves (Al Hijr: 15:29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when he asks Me, then let them fulfill (all My commands) and let them believe in Me. Me, that they may always be in the truth.(Al Baqarah: 2:186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"Then eat lawful and good from the sustenance that Allah has given you; and be grateful for the favor of Allah, if you worship Him alone. (An Nahl: 16: 114)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)

"The angels and Gabriel ascended to God in a day the measure of which was fifty thousand years (Al Ma'aarij: 70:4)

"He arranges affairs from the skys to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)

And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily, Allah is All-Wise and All-Knowing. (Al Baqarah: 2: 115)

"Who has created the seven skys in layers. You do not see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"Didn't We create you from despicable water (Al Mursalaat: 77:20)

"Then We made the essence of semen in a solid place. (Al Mu'minuun: 23:13)

"And verily We have created man from an essence of clay. (Al Mu'minuun: 23:12)

"And does man not notice that We created him from a drop of water, then suddenly he becomes a real challenger (Yaasiin: 36: 77)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"And He who created the skys and the earth in six days, and His throne is over the water, so that He may test which of you is better in deed, and if you say, "Indeed, you will be resurrected after death", surely those who disbelieve will said: "This is nothing but real magic" (Hud: 11:7)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)

In an effort to open the veil of Allah's secret about why most people in the world today no longer need Allah or Jahve, because human's thinking are no longer a reflection of Allah's thinking, the author uses the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here the author proposes the hypothesis that most of the people in the world today no longer need Allah or Jahve, because human's thinking is no longer a reflection of Allah's thinking, based on Deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

WHY MOST OF HUMANS IN THE WORLD NOW DON'T NEED ALLAH OR JAHVE, BECAUSE HUMAN'S THINKING IS NO LONGER A REFLECTION OF ALLAH'S THINKING

Now, we are still focusing our minds on uncovering the secrets contained behind the verse: *"... You never see God's creation... something that is not balanced... (Al Mulk: 67: 3)".. Allah did not make the skys and the earth and what is between them except with truth... (Ar Ruum: 30: 8)*

Apparently, here Allah has declared *"... You never see in Allah's creation... something that is not balanced... (Al Mulk: 67: 3)*

Now the question arises,

Why did Allah declare that whatever was created in the seven skys and everything in it was *"...balanced...(Al Mulk: 67:3)?*

The answer is in the secret behind the verse: *"... Allah did not make the skys and the earth... but with truth... (Ar Ruum: 30: 8)*

Well, this is the real secret of Allah, which most people in the world still do not understand, namely *"... Allah did not make the skys and the earth... but with truth... (Ar Ruum: 30: 8)*

That is, Allah is *"...haq...(Ar Ruum: 30: 8)*

Where Allah is *"...haq...(Ar Ruum: 30: 8)* is that humans all over the world can prove scientifically, experimentally, mathematically, the results will reach whatever Allah has created in the seven skys and all of its contents are true and certain or *"...haq...(Ar Ruum: 30: 8)*

Now, as well as Allah's form can be proven scientifically, experimentally, mathematically, the results of which will arrive at Allah's form in the form of Allah's energy, Allah's particles and *"... my spirit ... (Al Hijr: 15: 29)* or *"...Allah's spirit...(Al Hijr: 15: 29)*

Because Allah's form is *"...haq...(Ar Ruum: 30: 8)*, then Allah's particles can be counted, where Allah's particles are very small, almost non-existent **0.000000000 000000000 000000000 000000000 000 333 591 754 209 188 9** grams. These Allah's particles require a very small amount of Allah's energy **0.000000000 000000000 000000000 01** grams per cubic cm. This Allah's particle also has the speed of light **5 475 103 664 604.84** km per second

So, actually whatever is in the seven skys and everything in it was created by Allah with *"...haq... (Ar Ruum: 30: 8)*

Now, another question arises,

Why do most of the people in the world no longer need and don't believe in Allah, Jahve or God?

Well, the answer is in the secret behind the verse: *"...You never see in Allah's creation... something that is not balanced... (Al Mulk: 67: 3) "...look over and over again, is there you see something out of balance? (Al Mulk: 67: 3)*

Here Allah has clearly declared to all humans, whatever is in the seven skys and all of its contents are *"... balanced... (Al Mulk: 67: 3)*

That is, whatever is in the seven skys and all that is in it was created by Allah with *"...haq...(Ar Ruum: 30: 8)*, which humans around the world can prove scientifically, experimentally, calculatingly, which results will reach whatever Allah has created in the seven skys and all that is in it is true and certain.

Now, Allah's law in the form of the law *"...balanced...(Al Mulk: 67: 3)* and the law *"...haq...(Ar Ruum: 30: 8)*, can be proven scientifically, experimentally, by calculation, the results will reach whatever Allah has created in the seven heavens and all of its contents are true and certain.

However, Allah's law in the form of *"...balanced" law (Al Mulk: 67: 3)* and *"...haq... (Ar Ruum: 30: 8)* law is not understood by most people, so when humans study, research, make experiments, make calculations about things that exist in the skys and earth, and the results are true and certain, human's thinking is born, that the results of research and experimental results are true and certain because of the results of his thinking and the results of his own work.

Well, this is where because most people in the world think that success in research, calculation, experimentation about something that is in the skys and earth, then they do not understand that because of Allah's law in the form of law *"... balanced... (Al Mulk : 67: 3)* and the law *"... haq... (Ar Ruum : 30: 8)* this is where all humans in the world can study, research, make experiments whose results are true and certain.

Now, this Allah's Secret, which is not understood by most of the people in the world.

Because most people in the world do not understand Allah's law in the form of law of *"...balanced" (Al Mulk: 67: 3)* and law of *"... haq... (Ar Ruum: 30: 8)*, then most of the people in the world do not need Allah or Jahve.

Or in other words, human's thinking is no longer a reflection of Allah's thinking.

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verse: *"... You never see God's creation... something that is not balanced... (Al Mulk: 67: 3)".. Allah did not make the skys and the earth and what is between them except with truth... (Ar Ruum: 30: 8)*
