ABSTRACT

First of all, by asking forgiveness from Allah SWT here I try to reveal the signs of Allah SWT's greatness regarding Allah's secret about why "... *my spirit...* (Al Hijr: 15: 29) is burned in hell, not dead, based on photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA)

In the Qur'an, several verses are found that are the key to unlocking the secret of why "... *my spirit...* (Al Hijr: 15: 29) is burned in hell, not dead, namely the verses:

"And between the two there is a boundary; and above A'raaf there are people who know each of the two groups by their signs. And they call out to the people of Paradise: "Salaamun 'alaikum." They have not yet entered it, while they want it immediately (Al A'raaf: 7: 46)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

Allah said: "Enter all of you into hell with the jinn and humans who went before you. Every time a people enter, he curses his friend; so that when they all enter say those who enter later among them say to those who entered earlier: "Our Lord, they have led us astray, so bring upon them a double torment from hell." Allah said: "Each one gets a double, but you do not know." (Al A'raaf: 7:38)

"And thus We made enemies for every prophet, namely the devils of humans and jinn, some of them whispering to others beautiful words to deceive. If your Lord willed, they would not have done it, then leave them and what they invented.(Al An'aam: 6:112)

"Saqar does not leave and does not allow (Al Muddatstsir: 74: 28)

"Say: "O Allah, Creator of the heavens and the earth, Who knows the unseen and the real, You are the One who decides between Your servants what they always argue about." (Az Zumar: 39: 46)

"O you who believe, protect yourselves and your families from a hell fire whose fuel is people and stones; its guardians are angels who are harsh, harsh, and do not disobey Allah in what He commands them and always do what He is commanded. (At Tahrir: 66:6)

"And thus We made enemies for every prophet, namely the devils of humans and jinn, some of them whispering to others beautiful words to deceive. If your Lord willed, they would not have done it, then leave them and what they invented.(Al An'aam: 6:112)

In an effort to open the veil about Allah's secret about why "... *my spirit...* (Al Hijr: 15: 29) is burned in hell, not dead, I based on photons, quarks and deoxyribonucleic acid or the molecular structure of nucleic acids. .

HYPOTHESIS

Here I put forward the hypothesis "... *my spirit...* (Al Hijr: 15: 29) is burned in hell, does not die,

because the fuel is hydrogen atoms, as long as there are still hydrogen atoms from "... *my spirit...*(*Al Hijr : 15: 29*) , then as long as "...*my spirit...*(*Al Hijr : 15: 29*) does not die, it is based on photons, quarks and deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

WITH WHAT MY SPIRIT IS BURNED IN HELL

Now, we continue to focus our minds on uncovering the secret behind the verse: "*O you who believe, protect yourselves and your families from the fire of hell whose fuel is man and stone...* (*At Tahrir: 66: 6*)

It turns out that Allah has warned people "*O you who believe...* (*At Tahrir: 66: 6*)

Why "... *those who believe...* (*At Tahrir: 66: 6*) are warned by Allah with "... *a hell fire whose fuel is people and stones...* (*At Tahrir: 66: 6*) ?

The answer is

It is hidden in the secret of the verse: "*And thus We made enemies for every prophet, namely the devils, humans and jinn...* (*Al An'aam: 6: 112*)

Well, it turns out that "... *those who believe...* (*At Tahrir: 66: 6*) are "... *enemies... devils...* (*Al An'aam: 6: 112*) as enemies "...*for every prophet...*(*Al An'aam : 6:112*)

Now, "...*a hellfire whose fuel is people and stones...*(*At Tahrir: 66: 6*)

Why "... *the fire of hell whose fuel is people and stones...* (*At Tahrir: 66: 6*) ?

The answer is

Because hell's fuel is hydrogen atoms, just like the sun's fuel, is hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

Likewise in rocks there are hydrogen atoms.

Thus, the hydrogen atoms, which are present in the human body and in the rock, are used as fuel for hell.

When two hydrogen atoms collide with each other caused by nuclear fusion in which one of the protons is converted into a neutron. Each hydrogen atom consists of a proton and an electron.

Then, when an atom containing one proton and one neutron collides with hydrogen which has one proton, it gives birth to helium which contains two protons and one neutron and the most intense produces gamma rays of photons.

Well, it is these gamma photons that become a blazing fire.

WHY MY SPIRIT THAT IS BURNED IN HELL ALIVES

Now, let's unveil the secret behind the verse: *"Saqar does not leave and does not let (Al Muddatstsir: 74: 28)*

It turns out that humans who are in hell saqar *"... not leave..."* .

Why do people who are in hell saqar *"... not leave ..."* ?

The answer is

Because from the human body that has died, comes out *"... my spirit... (Al Hijr: 15: 29)* which contains oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms.

When *"... my spirit... (Al Hijr: 15: 29)* is burned in the saqar hell which contains hydrogen atoms, then the hydrogen atoms that come out of *"... my spirit...(Al Hijr: 15: 29)* the one, collided with a hydrogen atom that came out of the other, turned into a helium atom.

Well here it can be seen, the hydrogen atom that comes out of the *"... my spirit... (Al Hijr: 15: 29)* collides with the hydrogen atom that comes out of the *"... my spirit...(Al Hijr: 15 :29)* the other, turns into a helium atom.

Now it means, *"...my spirit...(Al Hijr: 15: 29)* is not dead, only a hydrogen atom changes from *"...my spirit...(Al Hijr: 15: 29)* into a helium atom.

Or in other words, *"...the spirit of Ku...(Al Hijr: 15: 29)* is *"...does not leave..."* or *"...my spirit...(Al Hijr: 15: 29)*) stay alive or hell *"Saqar ... does not let (Al Muddatstsir: 74: 28)* " *... my spirit ... (Al Hijr: 15: 29)* die.

Now, the secret behind the verse has been revealed: *"O you who believe, protect yourselves and your families from the hell fire whose fuel is humans and stones... (At Tahrir: 66: 6)*

Namely *"...the hell fire whose fuel is people and stones...(At Tahrir: 66:6)* , in fact, the fuel of hell is hydrogen atoms.

Where is the hydrogen atom that comes out of *"... my spirit... (Al Hijr : 15: 29)* which collides with the hydrogen atom that comes out of *"... my spirit... (Al Hijr : 15: 29)* the other, turns into a helium atom.

Then, *"...my spirit...(Al Hijr : 15: 29)* is *"...does not leave ..."* or *"...my spirit...(Al Hijr : 15: 29)* remains alive or hell *"Saqar ... does not let (Al Muddatstsir: 74: 28)* " *... my spirit ... (Al Hijr: 15: 29)* die.

CONCLUSION

Based on the description above, we can conclude that the secret behind the verse: *"O you who believe, protect yourselves and your families from the fire of hell whose fuel is man and stone... (At Tahrir: 66: 6)*

It turns out that Allah has warned people *"O you who believe... (At Tahrir: 66: 6)*
