ABSTRACT

Before I write down the problem, why do Sufism people in the world to seek and meet Allah must go through the red sea route, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret, why Sufism people in the world to seek and meet Allah have to go through the red sea route, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about why Sufism people in the world to seek and meet Allah must go through the red sea route, namely the verses:

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"Allah is the light of the skys and the earth...Light upon light...(An Nuur: 24: 35)

"So when I have perfected the event, and have breathed into it My spirit, then submit to it prostrating yourselves (Al Hijr: 15: 29)

"...Isa, the son of Mary, is the messenger of Allah and His words which He conveyed to Mary, and a spirit from Him... (An Nisaa ': 4: 171)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)

"Have you not seen that Allah has subjected to you what is in the heavens and what is in the earth and has perfected for you His favors outwardly and inwardly. And among mankind there are those who dispute about Allah without knowledge or guidance and without an enlightening Book. (Luqman: 31:20)

"And indeed We have revealed to Moses: "Go you with My servants at night, then make for them a dry road in the sea, you do not have to worry about being overtaken and do not have to be afraid." (Thaaha: 20:77)

"And when We parted the sea for you, then We saved you and We drowned you and your followers while you yourselves witnessed. (Al Baqarah: 2:50)

"The people of Moses said: "We were oppressed before you came to us and after you came. Moses replied: "Hopefully Allah will destroy your enemies and make you vicegerents on earth, then Allah will see how you do (Al A'raaf: 7: 129)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"The seven skys, the earth and all that is in it glorify Allah. And there is nothing but glorify Him by praising Him, but you all do not understand their prayer beads. Indeed, He is Most Forbearing, Most Forgiving (Al Israa': 17: 17). 44)

“Then He perfected and breathed into it His spirit and He made for you hearing and sight and hearts; you are very grateful. (As Sajdah: 32: 9)

In an effort to open the veil of Allah's secret about why Sufism people in the world to seek and meet Allah must go through the red sea route, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I put forward the hypothesis that Sufism people in the world to seek and meet Allah must go through the red sea route, because they do not understand *"... my spirit... (Al Hijr: 15: 29)*, seen from the basic point of Deoxyribonucleic acid (DNA)

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms. 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

SUFFERING SUFISM PEOPLE IN THE WORLD HAVE DIFFICULT TO UNDERSTAND MY SPIRIT

Now, we still continue to focus on revealing the secret hidden behind the verse: *"... We revealed to Moses: "Go you with My servants at night, so make for them a dry road in the sea.. (Thaahaa: 20:77)*

Well, apparently, the path to Kan'an in Palestine has now been used as the basis for thinking by the Sufism people to seek and meet Allah.

Now the question arises,

Why do the people of Sufism to seek and meet Allah based on *"...make for them a dry road in the sea... (Thaahaa: 20: 77) ?*

The answer is, according to the thinking of Sufism people to seek and meet Allah using a four-step path, namely sharia, tarekat, essence, and ma'rifat.

What this means here is that Sufism people describe themselves as riding in a steered boat, heading to a place, where in that place, they can meet Allah.

Or in other words, the shari'a describes a boat, the tarekat describes them riding a boat, the essence describes the destination to Kan'an and ma'rifat describes in Kan'an meeting Allah.

Now, the question arises again,

Why Kan'an as a destination?

The answer is

Hidden in the secret behind the verse: *"The people of Moses said: "We were oppressed before you came to us and after you came. Moses replied: "Hopefully Allah will destroy your enemies and make you caliphs on earth... (Al A'raaf: 7:129)*

Apparently, Kan'an was a place that is now called Palestine. Where in Kan'an there will be followers of Prophet Musa who will be appointed as caliph.

Now to reach Kan'an, Prophet Musa and his followers who were in Egypt had to go out by sea *"...make for them a dry road in the sea...(Thaahaa: 20:77)*

Well, through *"...the dry road at sea...(Thaahaa: 20:77)* Sufism people in the world base their belief in meeting Allah.

Or in other words, Prophet Musa as a boat driver is called the tarekat, while the boat is considered a shari'a, while the destination to Kan'an is called essence, lastly, meeting Allah, is called ma'rifat.

Or it can also be called by using the path of liberation of the oppressed Jews in Egypt.

SUFISM PEOPLE IN THE WORLD DON'T UNDERSTAND ABOUT MY SPIRIT

Well, it turns out that the people of Sufism in the world have not yet reached *"... my spirit... (Al Hijr: 15: 29)*

Because there is the shortest and easiest way to meet and see Allah, which Sufism people can do, namely the way *"...I... have breathed into it my spirit... (Al Hijr: 15: 29) "...He perfected and breathed into it His spirit and He made for you hearing, sight and heart...(As Sajdah: 32: 9)"... We are closer to him than his jugular vein (Qaaf: 50 : 16)*

It turned out that through a short path *"... my spirit... (Al Hijr: 15: 29)* people of Sufism will immediately meet and see Allah.

How can it happen quickly to meet and see Allah if through the way *"... my spirit... (Al Hijr: 15: 29) ?*

The answer is

Hidden in the secret behind the verse: *"... We... know what his heart whispers... (Qaaf: 50: 16).* That is, Allah knows what is in the mind of the human brain.

Now, because Allah knows what is in the mind of the human brain, then humans do not need to look for Allah in the Kan'an, but directly search within the human body itself, namely through *"... my spirit... (Al Hijr: 15: 29)* which Allah has *"...blown into...(As Sajdah: 32:9)* the human body.

So, there is no need to have to use a sharia boat with a tarekat driver to go to Kan'an where the essence is to meet Allah, ma'rifat.

Now the question arises,

Why do ttasawuf people to meet with Allah using the Shari'a, tarekat, essence, and ma'rifat?

The answer is,

Hidden in the secret behind the verse: *"... you all do not understand... (Al Israa' : 17: 44)*
That is, in the human body there is already *"... my spirit... (Al Hijr: 15: 29)* , if humans want to understand.

So, humans to meet with Allah do not need to use the way of Shari'a, tarekat, essence, and ma'rifat.

SEEING ALLAH THROUGH MY SPIRIT THAT IS IN ALLAH'S LIGHT

Also to see God, humans go directly through *"... my spirit... (Al Hijr: 15: 29)* which is in *"... the light of the skys and the earth... The light above the light... (An Nuur: 24:35)*

That is, through *"Allah the light of the skys and the earth... (An Nuur: 24: 35)*

It is not necessary for humans to have to use the path of the Shari'a, tarekat, essence, and ma'rifat to see Allah.

Because *"...my spirit...(Al Hijr: 15: 29)* contains a hydrogen atom, where *"Allah is the light of the skys and the earth...(An Nuur: 24: 35)* is derived from a hydrogen atom. which gives rise to light in the star or star closest to us is the sun.

So, *"... my spirit... (Al Hijr: 15: 29)* which contains this hydrogen atom which gives birth to *"Allah is the light of the skys and the earth... Light is above light... (An Nuur: 24: 35)* that humans can see every day.

Or in other words, humans can see Allah directly through *"... my spirit... (Al Hijr: 15: 29)* which is in *"Allah the light of the skys and the earth... (An Nuur: 24: 35)*

CONCLUSION

Based on the description above, we can conclude that the secret hidden behind the verse: *"... We revealed to Moses: "Go you with My servants at night, so make for them a dry road in the sea.. . (Thaahaa: 20:77)*

Well, apparently, the path to Kan'an in Palestine has now been used as the basis for thinking by the Sufism people to seek and meet Allah.
