ABSTRACT

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of the greatness of Allah SWT regarding the secret of, on what basis, my spirit lives eternally in paradise, seen from the point of view of photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).)

The signs of Allah's greatness regarding, on what basis, my soul lives eternally in paradise, found several verses, namely:

"And give good tidings to those who believe and do good, that for them there are provided gardens with rivers flowing in them. Every time they are given sustenance of fruit in those paradises, they say: "This is what was given to them. us first." They are given similar fruits and for them are pure wives and they will abide therein (Al Baqarah: 2:25)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"They ask you about the Hour: "When will it happen?" Say: "Indeed, the knowledge of the Hour is with my Lord; no one can explain the time of his coming except Him. Doomsday is very heavy (riot for creatures) in the heavens and on earth. The Hour will not come to you but suddenly." They ask you as if you really knew it. Say: "Indeed, the knowledge of the Day of Resurrection is with Allah, but most people do not know." (Al A' raf : 7:187)

"The angels and the spirit (Gabriel) ascend to God in a day whose levels are fifty thousand years Al Ma'aarij (70:4)

"And Mary, who has kept her honor, then We breathed into her a spirit from Us and We made her and her child a great sign for the worlds. (Al Anbiyaa ' : 21: 91)

"And Maryam, the daughter of Imran, who kept her honor, so We breathed into her womb some of Our (creation) spirit, and she confirmed the words of her Lord and His Books, and she was one of the obedient ones. (At Tahrir: 66:12)

"When Allah said: "O Jesus son of Mary, remember My favors to you and to your mother when I strengthened you with the Holy Spirit... (Al Maa'idah: 5: 110)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)

"And they do not glorify Allah with proper exaltation, even though the whole earth is in His hands on the Day of Resurrection and the heavens are rolled up with His right hand. Glory be to God and exalted is He above what they associate. (Az Zumar: 39: 67) Indeed, the Day of Judgment will surely come, there is no doubt about it, but most people do not believe (Al Mu'min: 40: 59)

In an effort to open the veil of the greatness of Allah SWT regarding, on what basis, my spirit lives eternally in paradise, I use the basis of photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

HYPOTHESIS

Here I propose a hypothesis, my spirit does not live eternally in paradise, because my spirit consists of oxygen atoms, hydrogen atoms, carbon atoms and nitrogen atoms, judging from the photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA)?

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

WHAT IS ETERNAL IN THIS UNIVERSE ACCORDING TO ALLAH AND ACCORDING TO HUMANS

Now, we are still trying to focus our minds to uncover the secrets hidden behind the verse:

"... those who believe and do good... provided Paradises with rivers flowing in them... They are given sustenance of fruits in Paradise... Wives are pure and they are eternally in (Al Baqarah: 2:25)

Well it turns out, *"... My spirit... (Al Hijr: 15: 29)* or *"... those who believe and do good... (Al Baqarah: 2: 25) "... eternal in it. (Al Baqarah: 2:25)*

Now the question is

What is meant by *"...eternal in it. (Al Baqarah: 2:25)* by Allah and what is meant by *"...eternal in it. (Al Baqarah: 2:25)* by humans?

The answer is

Hidden in the secret of the verse: *"The angels and the spirit (Gabriel) ascend to God in a day whose levels are fifty thousand years Al Ma'aarij (70:4)*

Well, it turns out, time according to Allah and time according to man are not the same. One day according to Allah's reckoning is equal to 50 000 years according to human reckoning.

The meaning here is, "...*eternal...* (*Al Baqarah: 2:25*) according to human reckoning, but according to Allah's reckoning it is impermanent.

Why according to Allah's reckoning my soul in paradise is impermanent?

The answer is

Hidden behind the secret of the verse: "... *I have perfected the event, and have breathed into it my spirit...* (*Al Hijr: 15: 29*)

Well, according to Allah "...*blow my spirit into it...* (*Al Hijr : 15: 29*) , meaning "... *My spirit...* (*Al Hijr : 15: 29*) is blown into the human body "... *Maryam, the daughter of Imran, who kept her honor, then We breathed into her womb some of Our spirit..* (*At Tahrim: 66:12*)

So, "... *my spirit...* (*Al Hijr: 15: 29*) which is blown "...*into the womb...* (*At Tahrim: 66:12*) Maryam and the mothers on this earth, is composed of hydrogen atoms, carbon atoms, oxygen atoms and nitrogen atoms.

MY SPIRIT IS NOT ETERNAL, BECAUSE IT IS ESTABLISHED BY HYDROGEN ATOM, CARBON ATOM, OXYGEN ATOM AND NITROGEN ATOM

Now then, we unpack the secret contained in the verse: "*Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart...* (*As Sajdah: 32: 9*)

It turns out, "...*His spirit...* (*As Sajdah: 32: 9*) or "... *My spirit...* (*Al Hijr: 15: 29*) is the source and origin of "...*hearing, seeing and hearts ...* (*As Sajdah: 32: 9*) humans.

That is, the perfect human body is the source and origin is "... *His spirit...* (*As Sajdah: 32: 9*) or "... *My spirit...* (*Al Hijr: 15: 29*)

Or in other words "...*His spirit...* (*As Sajdah : 32: 9*) or "... *Spirit of Ku...* (*Al Hijr : 15: 29*) is Deoxyribonucleic acid (DNA).

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

So, "...*His spirit...* (*As Sajdah: 32: 9*) or "...*the spirit of Ku...* (*Al Hijr: 15: 29*) is made up of hydrogen atoms, carbon atoms, oxygen atoms and nitrogen atoms.

Well, it turns out that hydrogen atoms, carbon atoms, oxygen atoms and nitrogen atoms are impermanent

HYDROGEN ATOM, CARBON ATOM, OXYGEN ATOM AND NITROGEN ATOM WILL BE LOST FROM THE UNIVERSE, EXCEPT QUARK

Now, let's dig and unveil the secret behind the verse: "... *my spirit...* (*Al Hijr: 15: 29*) or "... *those who believe and do good...* (*Al Baqarah: 2: 25*) "...*eternal in it.* (*Al Baqarah: 2:25*)

It turned out to be "...*eternal in it.* (*Al Baqarah: 2:25*) is according to human calculations, while according to Allah's calculations eternal are photons and quarks.

Why are photons and quarks conserved?

The answer is

After 10 billion billion billion billion billion billion billion billion billion years from now, all the atoms in the universe will disappear, only photons and quarks will remain.

According to human calculations, **10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000** years , or the number 1 accompanied by a hundred digits 0, that according to human calculations is considered eternal.

According to Allah, what is eternal is photons and quarks, not hydrogen atoms, carbon atoms, oxygen atoms and nitrogen atoms.

Or in other words *"... my spirit... (Al Hijr: 15: 29)* which is built by hydrogen atoms, carbon atoms, oxygen atoms and nitrogen atoms will disappear, and what remains are only photons and quarks.

.CONCLUSION

From what has been described above we can now conclude that the secrets hidden behind the verse:

"... those who believe and do good... provided Paradises with rivers flowing in them... They are given sustenance of fruits in Paradise... Wives are pure and they are eternally in (Al Baqarah: 2:25)

Well it turns out, *"... My spirit... (Al Hijr: 15: 29)* or *"... those who believe and do good... (Al Baqarah: 2: 25) "... eternal in it. (Al Baqarah: 2:25)*
