**ABSTRACT**

Before the author writes the problem with the reason why Allah is called the Greatest, even though Allah can enter the human body, first the author asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret about why Allah is called the Greatest, even though Allah can enter the human body, based on Deoxyribonucleic acid (DNA)

There are several verses that open Allah's secrets about why Allah is called the Most Great, even though Allah can enter the human body, namely the following verses:

*"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)*

*"And verily We have created man from an essence of clay. (Al Mu'minuun: 23:12)*

*"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)*

*"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)*

*"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)*

*"And Mary, who has kept her honor, then We breathed into her a spirit from Us and We made her and her child a great sign for the worlds. (Al Anbiyaa ': 21: 91)*

*"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)*

*"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)*

*"And when My servants ask you about Me, then indeed I am near. I grant the supplication of the one who prays when he asks*

*"He arranges affairs from the skys to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)*

*"Angels and spirits ascend to Allah in a day whose measure is fifty thousand years (Al Ma'aarij: 70:4)*

*"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2:115)*

*"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)*

*"Angels and spirits descend with the permission of their Lord to manage all affairs (Al Qadr: 97: 4)*

*"And they ask you about the spirit. Say: "The spirit belongs to my Lord, and knowledge is not given to you but a little." (Al Israa ': 17: 85)*

*"So he put a veil from them; then We sent our spirit to him, and he appeared before him a perfect human being. (Maryam: 19:17)*

*"Allah, there is no god but He Who Lives eternally and continually takes care of; neither sleeps nor sleeps. To Him belongs what is in the heavens and the earth. No one can intercede with Allah without His permission? Allah knows what is before them and behind them, and they know nothing of Allah's knowledge except what He wills. Allah's kursi covers the skys and the earth. And Allah does not find it difficult to maintain them, and Allah is Most High, Most Merciful. Great.(Al Baqarah: 2:255)*

*"And when Moses came for an appointed time and the Lord had spoken to him, Moses said: "O my Lord, show me so that I can see You." The Lord said: "You will never be able to see Me, but look at the hill, then if it stays where it is you will surely see me." When his Lord appeared to the mountain, he made the mountain crumble and Moses fell unconscious. So when Moses came back to his senses, he said: "Glory be to him. You, I repent to You and I am the first to believe (Al A'raaf: 7:143)*

*"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)*

In an effort to open the veil of Allah's secret about why Allah is called the Greatest, even though Allah can enter the human body, the author uses the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## **HYPOTHESIS**

Here the author proposes the hypothesis that Allah is called the Most Great, because Allah's power is great, while Allah's form is flexible, can be large and can be small, based on Deoxyribonucleic acid (DNA).

## **PHOTON**

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## **QUARK**

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

## **DEOXYRIBONUCLIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The

nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

### **WITH WHAT REASON, ALLAH IS CALLED THE ALMIGHTY GREAT, BUT ALLAH CAN ENTER THE HUMAN BODY**

Now, we are still focusing our minds on uncovering the secrets contained behind the verses: "*... Allah is Most High, Most Great (Al Baqarah: 2: 255)*"... *wherever you turn there is the face of Allah... (Al Baqarah: 2: 115)* "*... a day whose levels are fifty thousand years (Al Ma'aarij: 70:4)*" "*... We are closer to him than his jugular vein.*" (*Qaf: 50:16*)

Apparently, Allah has revealed the true secret of Allah "*... Allah is Most High, Most Great (Al Baqarah: 2:255)*" "*... We are closer to him than his jugular vein.*" (*Qaf: 50:16*)

Well, here Allah's secret was revealed when Allah declared that "*...Allah is Most High, Most Great (Al Baqarah: 2:255)* but in fact Allah is "*...closer to him than his jugular vein.*" (*Qaf: 50:16*)

Now the question arises

What does Allah actually mean that "*...Allah is Most High, Most Great (Al Baqarah: 2:255)*?"

The answer is

Hidden in the secret behind the verse: "*...Kursi of Allah covers the skys and the earth... (Al Baqarah: 2:255)*"

Well, it turns out "*... Allah is Most High, Most Great (Al Baqarah: 2: 255)* is power "*... Allah covers the skys and the earth... (Al Baqarah: 2: 255)*"

So, what really is "*... High and Great (Al Baqarah: 2:255)* is the power of Allah or what is called "*...Kursi of Allah...(Al Baqarah: 2:255)*"

Well, now it has been revealed, that in fact Allah's form is very flexible. That is, the form of Allah can be small so that it can enter the human body, and the form of Allah can be large, as when Allah showed the power of Allah's energy "*...when his Lord appeared to the mountain, he made the mountain crumble...(Al A' raf : 7:143)*"

This is the true secret of Allah, which most people still do not understand.

If humans have understood the real Allah, then humans have reached the highest level and are closest to Allah.

## CONCLUSION

From what is described above, it can be concluded that the secrets contained behind the verses: "*... Allah is Most High, Most Great (Al Baqarah: 2: 255)*"... *wherever you turn there is the face of Allah... (Al Baqarah: 2: 115)* "*... a day whose levels are fifty thousand years (Al Ma'aarij: 70:4)* "*... We are closer to him than his jugular vein.*" (Qaf: 50:16)

Apparently, Allah has revealed the true secret of Allah "*... Allah is Most High, Most Great (Al Baqarah: 2:255)*"... *We are closer to him than his jugular vein.*" (Qaf: 50:16)

Well, here Allah's secret was revealed when Allah declared that "*...Allah is Most High, Most Great (Al Baqarah: 2:255)* but in fact Allah is "*...closer to him than his jugular vein.*" (Qaf: 50:16)

Now the question arises

What does Allah actually mean that "*...Allah is Most High, Most Great (Al Baqarah: 2:255)*?"

The answer is

Hidden in the secret behind the verse: "*...Kursi of Allah covers the skys and the earth... (Al Baqarah: 2:255)*

Well, it turns out "*... Allah is Most High, Most Great (Al Baqarah: 2: 255)* is power "*... Allah covers the skys and the earth... (Al Baqarah: 2: 255)*

So, what really is "*... High and Great (Al Baqarah: 2:255)* is the power of Allah or what is called "*...Kursi of Allah... (Al Baqarah: 2:255)*

Well, now it has been revealed, that in fact Allah's form is very flexible. That is, the form of Allah can be small so that it can enter the human body, and the form of Allah can be large, as when Allah showed the power of Allah's energy "*...when his Lord appeared to the mountain, he made the mountain crumble... (Al A' raf : 7:143)*

This is the true secret of Allah, which most people still do not understand.

If humans have understood the real Allah, then humans have reached the highest level and are closest to Allah.
